## CSI Canadian Securities Course Exam2 Sample Questions (Q84-Q89):

### NEW QUESTION # 84

What is one advantage of implementing indexing investing style?

- A. Suitable for short-term investing.
- **B. Simple for investors to understand.**
- C. Provides preferential tax treatment to distributions in the form of derive-based income.
- D. Offers opportunity to outperform the market at a low cost.

**Answer: B**

Explanation:

\* Indexing is an investment strategy that tracks a benchmark index and issimple for investors to understand. This ease of understanding is one of its primary advantages.

\* Option A: Indexing does not provide preferential tax treatment for derivative-based income.

\* Option C: While low-cost, indexing does not offer an opportunity to outperform the market-it aims to match the market's performance.

\* Option D: Indexing is typically suited for long-term investing due to its emphasis on broad market exposure and passive management.

References: Canadian Securities Course Volume 2, Portfolio Management Section.

### NEW QUESTION # 85

Based on market capitalization, which sector of the S&P/TSX Composite index has one of the highest weightings within the index?

- A. Information technology
- B. Utilities
- **C. Energy**
- D. Health care

**Answer: C**

Explanation:

The Energy sector is one of the highest-weighted sectors in the S&P/TSX Composite Index based on market capitalization. This reflects Canada's resource-rich economy, where energy companies, including oil, gas, and related services, make up a significant portion of the market.

Other options:

\* Health care: A relatively small portion of the index.

\* Utilities: Have a smaller weight compared to energy.

\* Information technology: While growing, it has not surpassed energy in weight within the Canadian market.

References:

\* Volume 1, Chapter 8: Equity Securities, section on "Canadian Market Indexes" outlines the composition and sectoral weightings of the S&P/TSX Composite Index.

### NEW QUESTION # 86

What is the name of the procedure used to calculate the income deemed to have been earned by segregated fund contract holders?

- **A. Allocation.**
- B. Payout.
- C. Redemption.
- D. Distribution.

**Answer: A**

### NEW QUESTION # 87

For institutional trading, when does the investor need to provide trade-matching elements?

- A. Once the custodian confirms the trade.
- B. With the initial order.
- **C. After the dealer issues a trade execution notice.**
- D. Once the trade clears.

**Answer: C**

Explanation:

Trade-matching is a critical process in institutional trading, ensuring that details of a trade (e.g., price, quantity, and settlement terms) align among the involved parties, including the investor, dealer, and custodian.

In Canada, institutional trade matching must occur within a specific timeline, and the investor is responsible for providing trade-matching elements after the trade execution notice is issued by the dealer.

Step-by-Step Explanation:

\* What is Trade Matching? Trade matching involves the comparison of trade details between the buyer and seller (and their intermediaries) to confirm accuracy and reduce settlement risks.

\* When Does the Investor Provide Trade-Matching Elements?

\* After the dealer executes the trade, the dealer issues a trade execution notice to the investor.

\* The investor must then provide the necessary trade-matching details, such as account information, settlement instructions, and any other required confirmations.

- \* This process ensures that the trade can move seamlessly through to settlement.
  - \* Why Not Other Options?
  - \* Option B (Once the custodian confirms the trade): Incorrect. The custodian's role is typically involved in the final settlement process and not in providing trade-matching details.
  - \* Option C (With the initial order): Incorrect. Trade-matching details are provided after the trade is executed, not at the time the order is placed.
  - \* Option D (Once the trade clears): Incorrect. Trade matching occurs before the trade clears to ensure settlement.
- References to Canadian Securities Course Exam 2 Study Materials:
- \* Volume 2, Chapter 27 - Institutional Clearing and Settlement
  - \* Highlights the process of institutional trade matching, the roles of the investor, dealer, and custodian, and the required timelines.
  - \* Volume 2, Chapter 27 - The Sell Side and the Buy Side of the Market
  - \* Explains trade execution and the responsibilities of institutional clients and their intermediaries in completing trades.
- Final answer:
- \* Option A (After the dealer issues a trade execution notice): Correct.
  - \* Other options are incorrect based on the standard processes for institutional trade matching in Canada.

### NEW QUESTION # 88

What actions can a government take to lower a \$40 billion national deficit?

- A. Increase government spending.
- **B. Increase taxation**
- C. Increase interest rates.
- D. Decrease taxation

**Answer: B**
