You can try the CompTIA DA0-002 exam dumps demo before purchasing. If you like our CompTIA Data+ Exam (2025) (DA0-002) exam questions features, you can get the full version after payment. Test4Engine CompTIA Data+ Exam (2025) (DA0-002) dumps give surety to confidently pass the CompTIA Data+ Exam (2025) (DA0-002) exam on the first attempt.

CompTIA Data+ Exam (2025) Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which of the following data repositories stores unstructured and structured data?

- **A. Data lake**
- B. Data mart
- C. Data silo
- D. Data store

Answer: A

Explanation:

This question falls under the Data Concepts and Environments domain of CompTIA Data+ DA0-002, which involves understanding different types of data repositories and their characteristics. The task is to identify a repository that can store both unstructured and structured data.

* Data store (Option A): A data store is a general term for any data repository, but it's not specific enough to confirm it stores both unstructured and structured data.

* Data silo (Option B): A data silo is an isolated data repository, often structured, and not typically designed for unstructured data.

* Data mart (Option C): A data mart is a subset of a data warehouse, focused on structured data for specific business areas, not unstructured data.

* Data lake (Option D): A data lake is a centralized repository that stores raw data in its native format, including both structured (e.g., tables) and unstructured (e.g., text, images) data, making it the correct choice.

The DA0-002 Data Concepts and Environments domain includes understanding "different types of databases and data repositories," and a data lake is specifically designed to handle both unstructured and structured data.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 1.0 Data Concepts and Environments.

NEW QUESTION # 41

A manager needs a report to be sent by email every Monday for the next six months. Which of the following is the best way to accomplish this task?

- **A. Developing a recurring process**
- B. Waiting for the request each week
- C. Creating a data snapshot
- D. Building self-service access

Answer: A

Explanation:

This question falls under the Visualization and Reporting domain, focusing on report delivery methods. The task requires a report to be emailed every Monday for six months, indicating a scheduled, repeating process.

* Building self-service access (Option A): Self-service allows users to generate reports on-demand, but the manager wants automatic delivery.

* Creating a data snapshot (Option B): A snapshot captures data at a specific point, not suitable for recurring delivery over six months.

* Developing a recurring process (Option C): A recurring process schedules the report to be generated and emailed every Monday, meeting the requirement for automated delivery over six months.

* Waiting for the request each week (Option D): This is manual and inefficient, not suitable for a six-month schedule.

The DA0-002 Visualization and Reporting domain includes "the appropriate visualization in the form of a report" with delivery methods, and a recurring process is ideal for scheduled email delivery.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 42

A business intelligence analyst is creating an employee retention dashboard that looks at data from the last five years. The analyst is interested in identifying patterns that can be studied further. Which of the following is the best method to apply to the dashboard?

- A. Predictive
- B. Descriptive
- C. Prescriptive
- **D. Diagnostic**

Answer: D

Explanation:

This question falls under the Data Analysis domain, focusing on analytical methods for dashboards. The analyst wants to identify patterns in historical data for further study, which points to a specific type of analytics.

* Predictive (Option A): Predictive analytics forecasts future outcomes, not focused on identifying patterns for further study.

* Prescriptive (Option B): Prescriptive analytics provides recommendations, which goes beyond identifying patterns.

* Diagnostic (Option C): Diagnostic analytics examines historical data to identify patterns, trends, and correlations, enabling further investigation, which fits the scenario.

* Descriptive (Option D): Descriptive analytics summarizes what happened but doesn't focus on identifying patterns for deeper study.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and diagnostic analytics is best for pattern identification in historical data.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 43

A data analyst needs to create a report that anticipates the number of calls received daily. Which of the following is the best statistical method to use?

- A. Diagnostic
- **B. Predictive**
- C. Descriptive
- D. Inferential

Answer: B

Explanation:

This question falls under the Data Analysis domain, focusing on statistical methods for forecasting. The task is to anticipate (predict) the number of daily calls, which involves looking into the future.

* Predictive (Option A): Predictive analytics uses historical data to forecast future outcomes (e.g., number of calls), which matches the requirement.

* Diagnostic (Option B): Diagnostic analytics identifies causes and patterns in historical data, not future predictions.

* Inferential (Option C): Inferential statistics make generalizations about a population, not specific forecasts.

* Descriptive (Option D): Descriptive analytics summarizes past data, not suitable for anticipating future values.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and predictive analytics is the best method for forecasting future call volumes.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 44

A data analyst receives a notification that a customized report is taking too long to load. After reviewing the system, the analyst does not find technical or operational issues. Which of the following should the analyst try next?

- A. Check data source connections.
- B. Check whether other peers have the same issue.
- **C. Check that the appropriate filters are applied.**
- D. Check for data structure changes in the report.

Answer: C

Explanation:

This question pertains to the Data Governance domain, focusing on data quality and report performance optimization. The report is slow despite no technical issues, suggesting a data-related inefficiency.

* Check that the appropriate filters are applied (Option A): Applying filters reduces the dataset size by excluding irrelevant data, improving report performance. This is a logical next step after ruling out technical issues.

* Check data source connections (Option B): The analyst already reviewed the system and found no operational issues, so connectivity is likely not the problem.

* Check for data structure changes in the report (Option C): While possible, this is a deeper investigation step and less likely to be the immediate cause of slowness.

* Check whether other peers have the same issue (Option D): This might confirm the issue's scope but doesn't directly address the performance problem.

The DA0-002 Data Governance domain emphasizes "data quality control concepts," including optimizing report performance through techniques like filtering.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 45

.....

On a regular basis, we update the PDF version to improve the DA0-002 Questions and accurately reflect any changes that have been made to the test content. We know that CompTIA Data+ Exam (2025) (DA0-002) certification exam costs can be high, with registration fees often running between \$100 and \$1000. We provide a free demo version of our product to ensure you are completely satisfied with our CompTIA Certification Exams preparation material. The purpose of this free demo is to help you make a well-informed decision.

Vce DA0-002 Format: https://www.test4engine.com/DA0-002_exam-latest-braindumps.html

By unremitting effort and studious research of the DA0-002 practice materials, they devised our high quality and high effective DA0-002 practice materials which win consensus acceptance around the world, They all used valid, updated, and real DA0-002 CompTIA Data+ Exam (2025) exam dumps and got ready to perform well in the final DA0-002 test, CompTIA Latest DA0-002 Examprep So on the basis of provided training materials, one can select the platform they should opt.

Regardless of how well we design and implement systems management DA0-002 processes, they likely will fail without the approval and support of senior management, The lost-opportunity cost starts to mount.
