CDCP Authorized Test Dumps, CDCP New APP Simulations

In order to facilitate the user's offline reading, the CDCP study braindumps can better use the time of debris to learn, especially to develop PDF mode for users. In this mode, users can know the CDCP prep guide inside the learning materials to download and print, easy to take notes on the paper, and weak link of their memory, and every user can be downloaded unlimited number of learning, greatly improve the efficiency of the users with our CDCP Exam Questions. Our CDCP prep guide can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned.

EXIN Certified Data Centre Professional (CDCP) Sample Questions (Q41-Q46):

NEW QUESTION # 41
What is the most cost-effective way to avoid EMF issues within the Computer room?

- A. Reducing the voltage in the computer room
- B. Create a distance between the EMF source and the ICT equipment / copper network cabling
- C. Reducing the temperature in computer room to 18° C / 64= Fahrenheit
- D. Install TUVapp'oved shielding material

Answer: B

Explanation:
Physical separation is the most cost-effective method to minimize electromagnetic interference. Specialized shielding is more expensive and usually unnecessary if proper separation is maintained.

CDCP Exam Preparation Guide, EMF Section

NEW QUESTION # 42
Which one of the following is a Natural Disaster?

- A. Blackouts
- B. Human Error
- C. Grid Failure
- D. Hurricanes

Answer: D

Explanation:
According to the CDCP® Preparation Guide, a natural disaster is a catastrophic event that is caused by natural forces and has a significant impact on human lives, property, and environment. Hurricanes are examples of natural disasters, as they are powerful storms that form over warm ocean waters and produce strong winds, heavy rain, storm surges, and flooding. Grid failure, blackouts, and human error are not natural disasters, but rather man-made or technological disasters that result from failures or errors in human systems or activities.

NEW QUESTION # 43

Measuring "Business Values" begins first with.

- A. Physical Infrastructure
- B. Topology
- C. Network
- D. Budget

Answer: D

Explanation:
Measuring "Business Values" begins first with budgeting and identifying the costs associated with the project.
This includes understanding the economic impact of the project, such as the cost of labor, materials, and other resources. It is also important to evaluate the return on investment (ROI) of the project, which will help to determine its overall value. Additionally, it is important to consider the long-term impact of the project and its potential to add value to the business in the future.

NEW QUESTION # 44
What is the minimum clearance space required below water sprinkler heads and nozzles of gas-based fire suppression systems?

- A. 60 cm / 24 inches
- B. 120 cm / 47 inches
- C. 64 cm / 25 inches
- D. 46 cm / 18 inches

Answer: D

Explanation:
The minimum clearance space required below water sprinkler heads and nozzles of gas-based fire suppression systems is 46 cm / 18 inches, according to the CDCP Preparation Guide1 and OSHA regulation 29 CFR
1910.159 (10)2. This clearance space is necessary to ensure that the sprinkler spray or gas discharge can reach the fire and cover the protected area effectively. Any material or obstruction below this clearance space can interfere with the sprinkler or gas distribution and reduce the fire suppression performance. Therefore, building owners and managers should ensure that all storage and objects in the data centre are kept below this clearance space, and that the clearance space is maintained at all times.

NEW QUESTION # 45
Which one of the following is an example of Indirect Cost?

- A. Damaged brand perception
- B. System recovery
- C. Legal fees
- D. Cost revenues

Answer: A

Explanation:
Damaged brand perception is an example of an indirect cost because it is not directly related to a specific product or service, but rather to the overall reputation and image of the company. Damaged brand perception can result from various factors, such as poor quality, customer dissatisfaction, security breaches, or negative publicity. Damaged brand perception can affect the company's ability to attract and retain customers, partners, and investors, and thus reduce its profitability and competitiveness.
