GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q97-Q102):

NEW QUESTION # 97

Your organization is in the process of developing a security program to meet new regulatory requirements. The program must be rolled out across multiple global offices. Several regional managers are concerned that the new security controls may hinder business operations in their specific markets. How would you address these concerns while ensuring compliance with the regulations?

Response:

- A. Ignore the regional managers and implement the same controls across all offices
- B. Work with the regional managers to customize the security controls where possible to meet local market needs, while still ensuring that the overall program complies with regulatory requirements
- C. Eliminate security controls that impact business operations
- D. Delay the rollout until all managers agree

Answer: B

NEW QUESTION # 98

Your organization has experienced a series of minor security incidents, and you have been asked to perform a security program analysis to determine the root causes. You find that while the technical controls are strong, there is a lack of security awareness among employees. What steps should you take to address this issue and reduce the likelihood of future incidents?

Response:

- A. Fire employees who failed to follow security protocols
- B. Implement a comprehensive security awareness program that includes regular training, phishing simulations, and clear communication of security policies
- C. Strengthen technical controls and ignore employee awareness
- D. Post reminders about security policies without additional action

Answer: B

NEW QUESTION # 99

What is the best way to ensure that all cybersecurity team members are aligned on project goals and deadlines?

Response:

- A. Assign team leaders to relay goals and timelines to their subordinates
- B. Provide each member with a printed copy of the project plan
- C. Hold regular stand-up meetings to discuss progress and address concerns
- D. Send a detailed email outlining project timelines

Answer: C

NEW QUESTION # 100

What is the importance of understanding the organization's risk tolerance when developing a cybersecurity strategy?

Response:

- A. It ensures that no risks are taken in the organization
- B. It ensures that security measures align with the organization's willingness to accept certain levels of risk while protecting critical assets
- C. It allows the security team to ignore business concerns
- D. It simplifies the decision-making process

Answer: B

NEW QUESTION # 101

Your organization has identified a need to update its access control policy to reflect changes in user roles and new compliance requirements. Several departments have raised concerns about the complexity of the updated policy.

How would you ensure the policy update is effectively implemented while addressing these concerns?

Response:

- A. Implement the policy immediately without consultation
- **B. Involve department heads in a collaborative review of the policy, provide training sessions to explain the changes, and create documentation that clarifies how the policy affects each department**
- C. Delay the policy update until all departments agree
- D. Simplify the policy by removing key compliance requirements

Answer: B

NEW QUESTION # 102

.....
