Reliable FCP_FMG_AD-7.6 Practice Materials - FCP_FMG_AD-7.6 Valid Vce

One of our outstanding advantages is our high passing rate, which has reached 99%, and much higher than the average pass rate among our peers. Our high passing rate explains why we are the top FCP_FMG_AD-7.6 prep guide in our industry. One point does farm work one point harvest, depending on strength speech! The source of our confidence is our wonderful FCP_FMG_AD-7.6 exam questions. Passing the exam won't be a problem as long as you keep practice with our FCP_FMG_AD-7.6 Study Materials about 20 to 30 hours. Considered many of the candidates are too busy to review, our experts designed the FCP_FMG_AD-7.6 question dumps in accord with actual examination questions, which would help you pass the exam with high proficiency.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q26-Q31):

NEW QUESTION # 26

An administrator configures a new BGP peer in the FortiManager device-level database of FortiGate. They reinstall the policy package to the managed FortiGate device without any errors. However, when the administrator logs in to FortiGate, they do not see the BGP configuration changes.

What is the most likely reason why FortiManager did not push the BGP peer changes to FortiGate?

- A. Fortigate has a BGP template assigned on the FortiManager database.
- B. The administrator must use the Install Wizard and select Install device settings only to push BGP settings
- C. The administrator must run a sanity check on FortiManager to make sure the database is not corrupted.
- D. The FortiGate firmware version is different from the FortiManager ADOM version.

Answer: A

Explanation:

If a BGP template is assigned to the FortiGate device on FortiManager, device-level BGP configurations made directly in the device-level database are overridden by the template settings, so the changes do not get pushed to the device.

NEW QUESTION # 27

Refer to the exhibit.

FortiManager address object

<input type="checkbox"/>	Mapped Device ⇅	Details ⇅	
<input type="checkbox"/>	BR1-FGT-1 [root]	IP/Netmask: 10.10.10.5/255.255.255.255	
<input type="checkbox"/>	HQ-NGFW-1 [root]	IP/Netmask: 172.16.5.20/255.255.255.255	
<input type="checkbox"/>	Remote-Firewall [root]	IP/Netmask: 21.21.2.5/255.255.255.255	

3

An administrator has created a firewall address object that is used in multiple policy packages for multiple FortiGate devices in an

After the installation operation is performed, which IP/netmask will be installed on Remote-Firewall [VDOM1] for the LAN firewall address object?

- Answer: A**

The per-device mapping overrides the global IP/netmask setting for the firewall address object. For the device "Remote-Firewall," the mapped IP/netmask is 21.21.2.5/255.255.255.255, so this value will be installed on Remote-Firewall [VDOM1].

Refer to the exhibits. An administrator needed to recover all the configurations related to the user, Support. The configurations were saved in configuration revision ID 9.

The administrator reverted the configuration using the Configuration Revision History window and received the CLI output shown in the exhibit.

- A. The administrator installed only the device-level configuration.
- B. The administrator reinstalled the policy package.
- C. The administrator set the flag to 0 to prevent configuration overrides.
- **D. The administrator needs to retrieve the device to correctly detect the FortiGate firmware version.**

Answer: D

Explanation:

The CLI output shows the status "dev-db: not modified; conf: in sync; cond: OK; dnr: installed," but the firmware version for the device is listed as "[unknown]." This indicates that FortiManager has not properly detected the FortiGate firmware version, likely because the device needs to be retrieved to update its information.

NEW QUESTION # 29

Refer to the exhibit.

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

What are two results from the configuration shown in the exhibit? (Choose two.)

- A. The same administrator can lock more than one ADOM at the same time.
- **B. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out.**
- C. The administrator must have access to the ADOM to approve changes.
- **D. The administrator can lock policy blocks and FortiManager global ADOM.**

Answer: B,D

Explanation:

In normal workspace mode, ungraceful session closures will keep the ADOM locked until the session times out, preventing other administrators from editing.

Normal workspace mode allows administrators to lock policy blocks and the global ADOM, providing granular locking control.

NEW QUESTION # 30

Company policy dictates that any time a change is made to a policy package on FortiManager an ADOM revision is created before the change installed, and that revision is held for a minimum of 90 days.

Over the past three months, each installed change has resulted in several unused policies and duplicate objects.

The FortiManager administrator plans to upgrade the FortiGate devices and then upgrade the FortiManager ADOM from version 7.4 to 7.6.

Which action can the administrator take to avoid slow ADOM upgrades?

- A. Export firewall policies to Excel, delete them on the ADOM. then reimport them after upgrading the ADOM.
- **B. Limit ADOM revisions before upgrading.**
- C. Check and repair the global configuration database before upgrading.
- D. Find unused firmware templates, then delete them before upgrading.

Answer: B

Explanation:

Limiting ADOM revisions reduces the number of stored historical configurations, which helps avoid performance degradation and slow ADOM upgrades caused by a large volume of revisions.

NEW QUESTION # 31

.....

If you do not have access to internet most of the time, if you need to go somewhere is in an offline state, but you want to learn for your FCP_FMG_AD-7.6 exam. Don not worry, our products will help you solve your problem. We deeply believe that our latest FCP_FMG_AD-7.6 Exam Torrent will be very useful for you to strength your ability, pass your exam and get your certification. Our study materials with high quality and high pass rate in order to help you get out of your harassment.

The APP version of FCP_FMG_AD-7.6 actual exam materials can be installed in your phone, so that you can learn it everywhere, Fortinet FCP_FMG_AD-7.6 Latest Demo Those considerate services are thoughtful for your purchase experience and as long as you need us, we will solve your problems, We guarantee a ninety-nine percent passing rate, which means you can pass exam as long as you review with our FCP_FMG_AD-7.6 latest dumps questions, To save yourself from this loss, you just need to prepare with updated FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam questions of VCE4Plus.
