## MikroTik MTCNA Test King, Valid Exam MTCNA Registration

One of the biggest highlights of the MikroTik Certified Network Associate Exam prep torrent is the availability of three versions: PDF, app/online, and software/pc, each with its own advantages: The PDF version of MTCNA Exam Torrent has a free demo available for download. You can print exam materials out and read it just like you read a paper. The online version of MTCNA test guide is based on web browser usage design and can be used by any browser device. At the same time, the first time it is opened on the Internet, it can be used offline next time. You can practice anytime, anywhere. The MikroTik Certified Network Associate Exam software supports the MS operating system and can simulate the real test environment. The contents of the three versions are the same. Each of them neither limits the number of devices used or the number of users at the same time. You can choose according to your needs.

## MikroTik Certified Network Associate Exam Sample Questions (Q195-Q200):

### NEW QUESTION # 195

How long is level 1 (free) license valid?

- A. 1 year
- **B. 24 hours**
- C. Infinite time
- D. 1 month

**Answer: B**

#### NEW QUESTION # 196

If ARP=reply-only is configured on an interface, tcarmehis interface will

- A. accept all MAC-addresses listed in '/ip arp' as static entries
- B. accept IP and MAC address combinations listed in '/ip arp' list
- **C. accept all IP addresses listed in '/ip arp' as static entries**
- D. add new MAC addresses in '/ip arp' list
- E. add new IP addresses in '/ip arp' list

**Answer: C**

#### NEW QUESTION # 197

Which firewall chain should you use to filter clients' HTTP traffic going through the router?

- **A. forward**
- B. prerouting
- C. output
- D. input

**Answer: A**

Explanation:

When a router forwards traffic between two interfaces (such as from LAN to WAN), it uses the forward chain. HTTP traffic initiated by users destined to external servers passes through this chain.

- \* A.#prerouting - Used mainly for routing decisions and NAT, not filtering.
- \* B.#forward - Used to filter transit traffic.
- \* C.#output - For traffic originating from the router itself.
- \* D.#input - For traffic destined to the router itself.

Extract from MTCNA Course Material - Firewall Chains:

"Client-to-server traffic, like browsing the web, passes through the forward chain when routed through the router." Extract from Rene Meneses Study Guide - Firewall Structure:

"To block or allow traffic passing through the router (LAN to Internet), use the forward chain." Extract from MikroTik Wiki - Firewall Filtering Overview:

"forward: filters all transit traffic routed through the router."

#### NEW QUESTION # 198

What PPP protocol provides dynamic addressing, authentication, and multilink?

- A. HDLC
- B. X.25
- C. NCP
- **D. LCP**

**Answer: D**

#### NEW QUESTION # 199

You want to transfer existing '/ip firewall filter' configuration from one router to a new system. Choose the best possible way to do:

- A. Export only '/ip firewall filter'
- B. Create backup, edit backup file and restore on target router
- C. Export global configuration and remove everything apart from '/ip firewall filter'
- D. Create backup only of '/ip firewall filter' rules

**Answer: A**

## NEW QUESTION # 200
