

Pass Guaranteed 2025 Oracle 1Z0-1195-25-The Best New Dumps Ppt

2025 Latest DumpsQuestion 1Z0-1195-25 PDF Dumps and 1Z0-1195-25 Exam Engine Free Share:
<https://drive.google.com/open?id=1TgC4JW0FaX5nOq8goHkyjpBE0AmQX0e>

Our accurate, reliable, and top-ranked Oracle 1Z0-1195-25 exam questions will help you qualify for your Oracle 1Z0-1195-25 certification on the first try. Do not hesitate and check out DumpsQuestion excellent Oracle 1Z0-1195-25 Practice Exam to stand out from the rest of the others.

Professional ability is very important both for the students and for the in-service staff because it proves their practical ability in the area they major in. Therefore choosing a certificate exam which boosts great values to attend is extremely important for them and the test 1Z0-1195-25 Certification is one of them. Passing the test certification can prove your outstanding major ability in some area and if you want to pass the test smoothly you'd better buy our 1Z0-1195-25 study materials.

Free PDF Quiz Oracle - 1Z0-1195-25 - Oracle Data Platform 2025 Foundations Associate High Hit-Rate New Dumps Ppt

If you want to clear Oracle real exams but doubt to us, you can download the free demo of 1Z0-1195-25 dumps pdf to check. We

will provide the one-year free update once you purchase our 1Z0-1195-25 Practice Questions. I will give you my support if you have any problems and doubts when you learn the Oracle Cloud Infrastructure study materials.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Data Management Introduction: This section of the exam measures the skills of Data Architects and Cloud Database Specialists in understanding Oracle's data management strategy. It covers Oracle's database offerings, deployment options, and multi-cloud and hybrid cloud solutions for managing data using Oracle Cloud Infrastructure.
Topic 2	<ul style="list-style-type: none">• Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (Oracle NoSQL Database ServiceBCS).
Topic 3	<ul style="list-style-type: none">• Resiliency: This section tests the knowledge of Database Security Engineers and Disaster Recovery Specialists in implementing Oracle's Maximum Security Architecture and Maximum Availability Architecture to ensure database resiliency and high availability.
Topic 4	<ul style="list-style-type: none">• Data Lake, Data Warehouse, and Machine Learning: This section evaluates the expertise of Data Scientists and Big Data Engineers in understanding UCI's Data Lakehouse architecture, Oracle Machine Learning capabilities, and Data Mesh architecture for managing distributed data environments.
Topic 5	<ul style="list-style-type: none">• Developing on Oracle Database: This section measures the skills of Application Developers and DevOps Engineers in managing Autonomous Databases using REST APIs, Oracle's data toolset, low-code development with APEX, and CI• CD processes for database tools and APEX applications.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q32-Q37):

NEW QUESTION # 32

New hardware innovations of the Exadata X8M allow customers to take advantage of Remote Direct Memory Access (RDMA). What resource does RDMA access?

- A. Storage Disks
- B. Compute Instances
- C. Persistent Memory
- D. Database Servers

Answer: C

Explanation:

The Exadata X8M leverages "Remote Direct Memory Access" (RDMA) to access "Persistent Memory" (B). RDMA allows direct memory-to-memory data transfer between systems without CPU involvement, enhancing performance. In Exadata X8M, RDMA accesses persistent memory (PMEM) to accelerate database operations by reducing latency and improving I/O throughput. "Compute Instances" (A) and "Database Servers" (D) are broader entities, not the specific resource RDMA targets, while "Storage Disks" (C) are traditional storage, not memory. Oracle's Exadata documentation highlights RDMA's use with persistent memory in X8M systems.

NEW QUESTION # 33

What set of NoSQL-style APIs can be used in Autonomous JSON Database?

- A. SODA (Simple Oracle Document Access)
- B. DOSA (Document Open Solution Access)
- C. OSDA (Oracle Simple Document Access)

- D. OASD (Oracle Application Storage Definition)

Answer: A

Explanation:

The "Autonomous JSON Database" supports NoSQL-style document access through "SODA" (Simple Oracle Document Access) APIs (B). SODA provides a simple, intuitive interface for developers to interact with JSON documents stored in the database using operations like insert, query, and update, without requiring SQL knowledge. Options A ("OASD"), C ("DOSA"), and D ("OSDA") are not recognized API sets in Oracle's documentation. SODA is explicitly documented as the standard NoSQL API for Autonomous JSON Database, aligning with Oracle's converged database strategy to support multiple data models.

NEW QUESTION # 34

What are two typical reasons why customers CANNOT move their database into the public cloud?

- A. **Regulations that prevent moving data into the public cloud**
- B. Public cloud does not provide storage for more than 10TB
- C. **Putting data in the cloud would break data residency rules**
- D. Total Cost of Ownership in public cloud is higher than on-premises

Answer: A,C

Explanation:

Customers may not move databases to the public cloud due to "Putting data in the cloud would break data residency rules" (A), where laws mandate data remain in specific regions, and "Regulations that prevent moving data into the public cloud" (B), such as industry-specific compliance requirements (e.g., GDPR, HIPAA). "Total Cost of Ownership in public cloud is higher" (C) is a consideration but not a universal barrier, and "Public cloud does not provide storage for more than 10TB" (D) is false, as OCI offers vast storage options. Oracle's cloud adoption guides cite residency and regulatory constraints as common blockers.

NEW QUESTION # 35

A customer is looking to migrate their old database backups from their on-premises data center to Oracle Cloud Infrastructure (OCI). Which OCI service is the most cost-effective?

- A. Object Storage (standard)
- B. File Storage
- C. Block Volume
- D. **Archive Storage**

Answer: D

Explanation:

For migrating "old database backups" to OCI, "Archive Storage" (D) is the most cost-effective service. Archive Storage offers the lowest cost per gigabyte for long-term, infrequently accessed data, ideal for backups that don't require immediate retrieval. "Object Storage (standard)" (A) is more expensive and suited for frequent access, "Block Volume" (B) is high-performance and costly, and "File Storage" (C) is for active file systems. Oracle's storage pricing and use case documentation recommend Archive Storage for cost-effective backup archival.

NEW QUESTION # 36

Which command for the MySQL Data Service will resume OCPU billing?

- A. Backup
- B. Restart
- C. **Start**
- D. Stop

Answer: C

Explanation:

For the "MySQL Database Service," the "Start" command (A) resumes OCPU billing, as it activates the database instance, incurring

compute costs. "Stop" (B) halts billing by suspending the instance, "Restart" (C) is a stop-then-start sequence, and "Backup" (D) affects storage, not OCPU billing. Oracle's MySQL Service documentation ties billing to the Start command.

NEW QUESTION # 37

.....

If you are still hesitating whether to select DumpsQuestion, you can free download part of our exam practice questions and answers from DumpsQuestion website to determine our reliability. If you choose to download all of our providing exam practice questions and answers, DumpsQuestion dare 100% guarantee that you can pass Oracle Certification 1Z0-1195-25 Exam disposably with a high score.
