Latest updated Latest HPE0-S59 Exam Questions Vce & Verified HP Certification Training - Fantastic HP HPE Compute Solutions

This offline version of the practice test creates a real HPE Compute Solutions exam environment. You can practice the HP HPE0-S59 Questions with the help of desktop practice exam software. The practice exam software is compatible with Windows-based computers only and does not need internet connectivity.

HPE Compute Solutions Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which statement about the HPE D3940 storage module is true?

- A. Only one type of drives (SATA, SAS, SSD) can be installed in each module
- B. it is configured through CLI available from HPE Synergy console
- C. SATA drives requires redundant 10 adapters to be installed in this module
- D. Up to five modules can be installed in a single frame with Gen10 servers

Answer: D

Explanation:

The HPE Synergy D3940 Storage Module is a direct-attached storage (DAS) expansion option for HPE Synergy environments. It is integrated within the Synergy frame and connects to compute modules through HPE Synergy SAS Connection Modules and Smart Array controllers.

NEW QUESTION # 42

Which statement about HPE Superdome Flex 280 is true?

- A. It must be equipped with at least 768 GB of memory.
- B. it cannot be managed using HPE OneView.
- **C. It can support up to two nPars with an external RMC.**
- D. It supports 2 to 8 sockets in 2-socket increments.

Answer: C

Explanation:

The HPE Superdome Flex 280 is a highly scalable server that supports 2 to 8 sockets in 2-socket increments.

This allows for flexible scaling of compute resources based on the needs of the workload, providing a balance between performance and cost.

NEW QUESTION # 43

Your customer plans to deploy VMware vSAN using D3940 Storage Modules.

Which statement about this solution is true?

- A. To use the storage controller that will access D3940 storage modules, a second CPU must be installed.
- **B. For VMware vSAN deployment, all drives in the D3940 storage modules must be SSD drives.**
- C. All drives in the D3940 storage modules must formulate a single logical drive with RAID5 configured
- D. The 12Gb SAS modules required for D3940 connectivity can only be installed in the first fabric.

Answer: B

Explanation:

For VMware vSAN deployments, it is recommended that all drives in the D3940 storage modules be SSD drives to ensure optimal performance and efficiency. SSDs provide the necessary speed and reliability required by vSAN for handling storage-intensive operations and maintaining high performance.

NEW QUESTION # 44

Hotspot Question

An HPE Synergy customer needs to prevent a timeout and loss of communication during an external switch firmware upgrade.

Click the parameter that the customer should configure within an uplink set to meet this requirement.

Create Uplink Set

General

Name: Prod-US

Consistency checking: Exact match

Type: Ethernet

Connection mode: Automatic

LACP timer: Short (1s)

LACP load balancing: Source & Destination MAC Address

LACP failover trigger: All active uplinks transition to offline

LACP distribute uplink ports: ☒

Answer:

Explanation:

Create Uplink Set ?

General

Name:

Consistency checking:

Type:

Connection mode:

LACP timer:

LACP load balancing:

LACP failover trigger:

LACP distribute uplink ports: ☒

NEW QUESTION # 45

Match each HPE OneView network type with its definition.

Network Type	Definition
Internal network	A network that contains multiple networks on a single uplink set that allows your customer to share uplinks with those networks.
Tagged network	A network in which any tagged packets are dropped and forwarding is done by a MAC address.
Tunnel network	A network with a dedicated set of uplink ports used to pass a group of VLANs without changing the VLAN tags.
Untagged network	A network that does not utilize any uplink ports and is used for communication between servers in the same frame.

Answer:

Explanation:

Network Type	Definition
Internal network	A network that contains multiple networks on a single uplink set that allows your customer to share uplinks with those networks.
Tagged network	A network in which any tagged packets are dropped and forwarding is done by a MAC address.
Tunnel network	A network with a dedicated set of uplink ports used to pass a group of VLANs without changing the VLAN tags.
Untagged network	A network that does not utilize any uplink ports and is used for communication between servers in the same frame.

Explanation:

Here are the correct matches for each HPE OneView network type with their respective definitions:

- * Internal network Definition: A network that does not utilize any uplink ports and is used for communication between servers in the same frame.
- * Tagged network Definition: A network in which any tagged packets are dropped and forwarding is done by a MAC address.
- * Tunnel network Definition: A network with a dedicated set of uplink ports used to pass a group of VLANs without changing the VLAN tags.

- * Untagged network: Definition: A network that contains multiple networks on a single uplink set that allows your customer to share uplinks with those networks.
- * Internal network: This network type facilitates communication between servers within the same frame without utilizing uplink ports, providing internal data exchange.
- * Tagged network: This network type drops any packets that are tagged and forwards packets based on their MAC address, ensuring only untagged traffic is processed.
- * Tunnel network: This type of network uses a specific set of uplink ports to pass VLAN groups while preserving the VLAN tags, useful for maintaining VLAN configurations across different network segments.
- * Untagged network: This network type enables the sharing of uplinks among multiple networks by placing them on a single uplink set, useful for optimizing network resource usage.

NEW QUESTION # 46

.....

The PDFVCE believes in customer satisfaction and strives hard to make the entire certification HP HPE0-S59 exam journey the easiest and most successful. To meet this goal the PDFVCE is offering the real, updated, and error-free HPE Compute Solutions (HPE0-S59) Questions in three different but easy-to-use formats. These PDFVCE HPE0-S59 exam questions formats are web-based practice test software, desktop practice test software and HPE Compute Solutions (HPE0-S59) PDF dumps files.

New HPE0-S59 Test Sample: <https://www.pdfvce.com/HP/HPE0-S59-exam-pdf-dumps.html>

You need to understand these updated HPE0-S59 exam topics or any changes in the syllabus, Passing the New HPE0-S59 Test Sample - HPE Compute Solutions exam will help you advance your career, HP Latest HPE0-S59 Exam Questions Vce All features of the web-based version are available in the desktop software, HP Latest HPE0-S59 Exam Questions Vce The popular and current vendor exams are as below, We provide the best and most affordable, most complete exam HPE0-S59 exam practice dumps to help them pass the actual exam test.

This is an intermediate certification that is designed to HPE0-S59 prove that the candidate knows how to use the more advanced Microsoft Office features, Destination port number.

You need to understand these updated HPE0-S59 Exam Topics or any changes in the syllabus, Passing the HPE Compute Solutions exam will help you advance your career, All features of the web-based version are available in the desktop software.
