NEW QUESTION # 225

Which is the correct order for manually installing a Falcon Package on a macOS system?

- A. Install the Falcon package, then register the Falcon Sensor via the registration package
- B. Register the Falcon Sensor via the registration package, then install the Falcon package
- C. Install the Falcon package, then register the Falcon Sensor via command line
- D. Register the Falcon Sensor via command line, then install the Falcon package

Answer: C

Explanation:

The correct order for manually installing a Falcon Package on a macOS system is to install the Falcon package, then register the Falcon Sensor via command line. The Falcon package contains the sensor binary and the kernel extension, while the registration package contains the customer ID and the sensor group ID. The registration package is not required for macOS systems, as the registration information can be provided via command line after installing the Falcon package.
