100% Pass-Rate Exam ANVE Syllabus – Pass ANVE First Attempt

It's worth mentioning that our working staff considered as the world-class workforce, have been persisting in researching ANVE test prep for many years. Our ANVE exam guide engage our working staff in understanding customers' diverse and evolving expectations and incorporate that understanding into our strategies. Our laTest ANVE Quiz prep aim at assisting you to pass the ANVE exam and making you ahead of others. Under the support of our study materials, passing the exam won't be an unreachable mission. More detailed information is under below.

Axis ANVE certification program is a comprehensive exam that covers a wide range of topics related to network video surveillance technology. ANVE exam is designed to test the knowledge and skills of professionals in the areas of IP camera technology, video compression, network design, and video management software. ANVE Exam is conducted online and is available in multiple languages, making it accessible to professionals around the world.

Axis Network Video Exam Sample Questions (Q34-Q39):

NEW QUESTION # 34
DRAG DROP

Match each product name with the right description. Drag each gray box from the left column to the matching blue box in the right column.

AXIS P3344-V	Network camera protected from dust, water and vibrations
AXIS M1031-W	Outdoor ready network camera
AXIS M3114-R	Vandal resistant network camera
AXIS Q6035-E	Wireless network camera

Answer:

Explanation:

AXIS P3344-V	AXIS P3344-V
AXIS M1031-W	AXIS M1031-W
AXIS M3114-R	AXIS M3114-R
AXIS Q6035-E	AXIS Q6035-E

NEW QUESTION # 35

Which API is used to ensure interoperability between products from different vendors?

- A. AVHS
- B. VAPIX
- C. ONVIF
- D. HDTV

Answer: C

NEW QUESTION # 36

An installer needs a camera to monitor a hallway in an office complex. The hallway is 2.5 m (8 ft 2 in) wide. The customer wants to be able to identify people (80 pixels per face). What is the minimum resolution needed to meet this requirement?

- A. 1024x768
- B. 1920x1024
- C. 800 x 600
- D. 1280x720

Answer: D

Explanation:

To identify people with 80 pixels per face in a hallway that is 2.5 meters wide, a minimum resolution of 1280x720 (720p) is needed. This resolution ensures sufficient pixel density to capture detailed facial features necessary for identification purposes. Given the width of the hallway and the required pixel density, 720p provides the necessary coverage and detail.

NEW QUESTION # 37

Which technology can a Video Management Software (VMS) partner incorporate to reduce the impact on recorded video during server maintenance?

- **A. Local storage at the camera**
- B. SNMP
- C. Meta data stream
- D. AXIS Camera Application Platform (ACAP)

Answer: A

Explanation:

To reduce the impact on recorded video during server maintenance, Video Management Software (VMS) partners can incorporate local storage at the camera. This feature allows the camera to continue recording video on its internal storage (such as an SD card) during network or server downtime, ensuring continuous video capture. Once the server is back online, the recorded footage can be transferred back to the central storage. Axis cameras support local storage options, which are detailed in Axis Communications' product documentation and VMS integration guides.

NEW QUESTION # 38

Gatekeeper is a function that

- A. Makes it possible for a PTZ camera to do a guard tour.
- **B. Uses video motion to zoom in on an object.**
- C. Uses video motion detection for detecting if a gate is open.
- D. Enables two way audio for communication at a gate.

Answer: B

Explanation:

Gatekeeper is a feature in Axis PTZ cameras that allows the camera to automatically zoom in on an object when motion is detected within a predefined area. This function is useful for focusing on areas of interest, such as entry points or sensitive zones, enhancing security monitoring by providing detailed views of potential security events. Axis Network Video documentation explains that Gatekeeper uses video motion detection to trigger the zoom function, ensuring that important details are captured without manual intervention.
