Answer: C

Explanation:

The WalkMe service offering that provides a quick time-to-value deployment with a fixed price and scope is:

C . Activation SKU ☐

☐ Why this is correct

The Activation SKU is designed specifically for fast-track deployments-typically delivering pre- configured workflows with a fixed scope and cost. It enables organizations to implement WalkMe for specific applications (like Salesforce or SAP SuccessFactors) and go live in as little as 4 weeks, offering a clear, predictable time-to-value outcome without scope creep

☐ Why the other options aren't correct

A . Digital Experience Analytics - This is focused on gathering and analyzing usage data; it's not a deployment package.

B . Time & Materials Engagement - This engagement model is flexible but not fixed-price and doesn't ensure rapid deployment.

D . WalkMe Shield - A quality assurance tool for testing and automating content; not related to deployment scope or pricing.
