Exams4Collection provides proprietary preparation guides for the certification exam offered by the NS0-528 exam dumps. In addition to containing numerous questions similar to the NS0-528 exam, the NS0-528 Exam Questions are a great way to prepare for the NS0-528 exam dumps. The Network Appliance NS0-528 mock exam setup can be configured to a particular style and arrive at unique questions.

## Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.</li></ul>

Topic 5	<ul style="list-style-type: none"> <li>• NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.</li> </ul>

## Pass Guaranteed Quiz 2026 Network Appliance NS0-528 Pass-Sure Practice Engine

If you are going to purchase NS0-528 test materials online, the safety of the website is significant. We provide you with a clean and safe online shopping environment if you buying NS0-528 trining materials form us. We have professional technicians to exam the website every day, therefore the safety for the website can be guaranteed. Moreover, NS0-528 Exam Materials are high quality and accuracy, and you can pass the exam just one time. We offer you free update for 356 days for NS0-528 traing materials and the update version will be sent to your email automatically.

## Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q253-Q258):

### NEW QUESTION # 253

You have a network outage that affects client access to site You need to temporarily reverse the SnapMirror relationship of a volume to serve data from site B.

Which two steps must you perform first? (Choose two.)

- A. Take the source volume offline.
- B. Delete the SnapMirror relationship.
- C. Abort the SnapMirror relationship.
- D. Break the SnapMirror relationship.

**Answer: A,D**

### NEW QUESTION # 254

What are the two modes for Autonomous Ransomware Protection (ARP)? (Choose two.)

- A. learning
- B. active
- C. passive
- D. listening

**Answer: A,B**

Explanation:

Autonomous Ransomware Protection (ARP) operates in two modes:

\* Learning mode: ARP observes and learns baseline workload behaviors to distinguish between normal and abnormal activity.

\* Active mode: ARP actively monitors and can automatically respond to ransomware-like behavior by alerting or taking protective actions.

### NEW QUESTION # 255

After setting up a new cluster peering relationship between a production site and a new DR site, the customer mentions that the communication for this peer needs to be secured to help deter "man in the middle" attacks.

What can you do on the NetApp end to secure the existing cluster peering?

- A. Enable aggregate level encryption.
- B. Enable IPsec between the sites.

- C. Modify the firewall policy settings on the Intercluster LIFs.
- **D. Modify the relationship using -encryption-protocol-proposed.**

**Answer: D**

Explanation:

To secure an existing cluster peering relationship, you can modify it to enable encryption by using the -encryption-protocol-proposed option. This ensures that intercluster SnapMirror traffic is encrypted, helping protect against man-in-the-middle attacks.

#### NEW QUESTION # 256

You notice that after you delete data from your FlexVol volume, some Snapshot copies have also been deleted. Snapshot auto delete is enabled.

Which volume autosize mode must be enabled for this behavior to occur?

- A. off
- **B. disrupt**
- C. grow\_shrink
- D. grow

**Answer: B**

#### NEW QUESTION # 257

You have two sites running NetApp ONTAP 9.14.1 clusters that have databases connecting through FC that have a near-zero RTO requirement.

What NetApp solution would allow a failover between the sites with a near-zero RTO?

- A. BlueXP
- B. SVM data mobility
- **C. SnapMirror active sync**
- D. SnapMirror SVM

**Answer: C**

Explanation:

SnapMirror active sync provides active-active synchronous replication for SAN workloads (including FC-attached databases), ensuring zero RPO and near-zero RTO. It enables automatic failover and failback between sites, making it the ideal solution for mission-critical applications requiring continuous availability.

#### NEW QUESTION # 258
