You are lucky to be here with our FCSS_SASE_AD-24 training materials for we are the exact vendor who devote ourselves to produce the best FCSS_SASE_AD-24 exam questions and helping our customers successfully get their dreaming certification of FCSS_SASE_AD-24 Real Exam. We own the first-class team of professional experts and customers' servers concentrating on the improvement of our FCSS_SASE_AD-24 study guide. So your success is guaranteed.

Fortinet FCSS_SASE_AD-24 Exam Syllabus Topics:

Topic	Details
Topic 1	Analytics: This domain evaluates the skills of Data Analysts in utilizing analytics within FortiSASE. It involves identifying potential security threats using traffic logs, configuring dashboards and logging settings, and analyzing reports for user traffic and security issues to enhance overall security posture.
Topic 2	SASE Architecture and Components: This section measures the skills of Network Security Engineers and covers the architecture and components of FortiSASE. It includes integrating FortiSASE into a hybrid network, identifying its components, and constructing deployment cases to effectively implement SASE solutions.
Topic 3	SIA, SSA, and SPA" This section focuses on the skills of Security Administrators in designing security profiles for content inspection and deploying SD-WAN and Zero Trust Network Access (ZTNA) using SASE. Understanding these concepts is crucial for securing access to applications and data across the network.
Topic 4	SASE Deployment: This domain assesses the capabilities of Cloud Security Architects in deploying SASE solutions. It includes implementing various user onboarding methods, configuring administration settings, and applying security posture checks and compliance rules to ensure a secure environment.

FCSS_SASE_AD-24 Test Practice 100% Pass | Professional
FCSS_SASE_AD-24: FCSS - FortiSASE 24 Administrator 100% Pass

Our FCSS_SASE_AD-24 study guide design three different versions for all customers. These three different versions of our FCSS_SASE_AD-24 exam questions include PDF version, software version and online version, they can help customers solve any problems in use, meet all their needs. Although the three major versions of our FCSS_SASE_AD-24 Exam Torrent provide a demo of the same content for all customers, they will meet different unique requirements from a variety of users based on specific functionality. The most important feature of the online version of our FCSS_SASE_AD-24 learning materials are practicality.

Fortinet FCSS - FortiSASE 24 Administrator Sample Questions (Q32-Q37):

NEW QUESTION # 32

When accessing the FortiSASE portal for the first time, an administrator must select data center locations for which three FortiSASE components? (Choose three.)

- A. SD-WAN hub
- **B. Endpoint management**
- **C. Logging**
- **D. Points of presence**
- E. Authentication

Answer: B,C,D

Explanation:

When accessing the FortiSASE portal for the first time, an administrator must select data center locations for the following FortiSASE components:

Endpoint Management:

The data center location for endpoint management ensures that endpoint data and policies are managed and stored within the chosen geographical region.

Points of Presence (PoPs):

Points of Presence (PoPs) are the locations where FortiSASE services are delivered to users. Selecting PoP locations ensures optimal performance and connectivity for users based on their geographical distribution.

Logging:

The data center location for logging determines where log data is stored and managed. This is crucial for compliance and regulatory requirements, as well as for efficient log analysis and reporting.

Reference:

FortiOS 7.2 Administration Guide: Details on initial setup and configuration steps for FortiSASE.

FortiSASE 23.2 Documentation: Explains the importance of selecting data center locations for various FortiSASE components.

NEW QUESTION # 33

Which of the following describes the FortiSASE inline-CASB component?

- **A. It is placed directly in the traffic path between the endpoint and cloud applications.**
- B. It uses API to connect to the cloud applications.
- C. It detects data at rest.
- D. It provides visibility for unmanaged locations and devices.

Answer: A

Explanation:

The FortiSASE inline-CASB (Cloud Access Security Broker) component is designed to provide real-time security and visibility by being placed directly in the traffic path between the endpoint and cloud applications. Inline-CASB inspects traffic as it flows to and from cloud applications, enabling enforcement of security policies, detection of threats, and prevention of unauthorized access. This approach ensures that all interactions with cloud applications are monitored and controlled in real time.

NEW QUESTION # 34

To complete their day-to-day operations, remote users require access to a TCP-based application that is hosted on a private web server. Which FortiSASE deployment use case provides the most efficient and secure method for meeting the remote users' requirements?

- A. SD-WAN private access
- B. next generation firewall (NGFW)

- C. inline-CASB
- D. zero trust network access (ZTNA) private access

Answer: D

Explanation:

ZTNA ensures that remote users can securely connect to private applications based on identity verification and security policies, without needing a traditional VPN. This access method provides strong security with least-privilege access, which is ideal for protecting private web servers and their data from unauthorized access. It also improves efficiency by dynamically verifying user identity and device posture before granting access.

NEW QUESTION # 35

Your organization is currently using FortiSASE for its cybersecurity. They have recently hired a contractor who will work from the HQ office and who needs temporary internet access in order to set up a web-based point of sale (POS) system. What is the recommended way to provide internet access to the contractor?

- A. Configure a VPN policy on FortiSASE to provide access to the internet.
- B. Use a proxy auto-configuration (PAC) file and provide secure web gateway (SWG) service as an explicit web proxy.
- C. Use zero trust network access (ZTNA) and tag the client as an unmanaged endpoint.
- D. Use FortiClient on the endpoint to manage internet access.

Answer: B

Explanation:

References:

NEW QUESTION # 36

Which security profiles can be applied within FortiSASE for content inspection?

(Select all that apply)

Response:

- A. Antivirus profiles
- B. Web filtering profiles
- C. Load balancing profiles
- D. Data Loss Prevention (DLP) profiles

Answer: A,B,D

NEW QUESTION # 37

.....

For candidates who are going to buy FCSS_SASE_AD-24 exam materials online, they may have the concern about the money safety. We apply the international recognition third party for the payment, and therefore your money safety can be guaranteed if you choose us. In order to build up your confidence for the FCSS_SASE_AD-24 Training Materials, we are pass guarantee and money back guarantee, if you fail to pass the exam, we will give you refund. You can also enjoy free update for one year, and the update version for FCSS_SASE_AD-24 training materials will be sent to your email automatically.
