

# Pass Guaranteed Quiz 2025 Juniper JN0-481: Data Center, Specialist (JNCIS-DC) First-grade New Test Blueprint

What's more, part of that UpdateDumps JN0-481 dumps now are free: <https://drive.google.com/open?id=1GQLEZzmx1u6eGVb4fC8uGDF2WjA9CQ-d>

The JN0-481 guide torrent is compiled by the experts and approved by the professionals with rich experiences. The JN0-481 prep torrent is the products of high quality complied elaborately and gone through strict analysis and summary according to previous exam papers and the popular trend in the industry. The language is simple and easy to be understood. It makes any learners have no learning obstacles and the JN0-481 Guide Torrent is appropriate whether he or she is the student or the employee, the novice or the personnel with rich experience and do the job for many years.

If you want to avoid being eliminated by machine, you must constantly improve your ability in all aspects. The emergence of JN0-481 dumps torrent provides you with a very good chance to improve yourself. On the one hand, our JN0-481 quiz torrent can help you obtain professional certificates with high quality in any industry without any difficulty. On the other hand, JN0-481 Exam Guide can give you the opportunity to become a senior manager of the company, so that you no longer engage in simple and repetitive work, and you will never face the threat of layoffs.

## Reliable JN0-481 Test Notes | Latest JN0-481 Test Question

Before you try to attend the JN0-481 practice exam, you need to look for best learning materials to easily understand the key points of JN0-481 exam prep. There are JN0-481 real questions available for our candidates with accurate answers and detailed explanations. We are ready to show you the most reliable JN0-481 PDF VCE and the current exam information for your preparation of the test.

## Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q25-Q30):

### NEW QUESTION # 25

You connect two single-homed servers using Juniper Apstra as shown in the exhibit. You are using the ERB design blueprint with two virtual networks in a common routing zone. In this scenario, which two types of VXLAN tunnels will be automatically created by the EVPN control plane? (Choose two.)

- A. EVPN signaled route Type-3 VXLAN tunnels
- B. EVPN signaled route Type-2 VXLAN tunnels
- C. EVPN signaled route Type-8 VXLAN tunnels
- D. EVPN signaled route Type-6 VXLAN tunnels

**Answer: A,B**

Explanation:

EVPN route Type-3 is used to advertise the IP address of the VTEP and the VNIs that it supports.

This allows the VTEPs to discover each other and form VXLAN tunnels for the VNIs that they have in common. EVPN route Type-2 is used to advertise the MAC and IP addresses of the hosts connected to the VTEPs. This allows the VTEPs to learn the MAC-to-IP bindings and the MAC-to-VTEP mappings for the hosts in the same VNI. Therefore, these two types of VXLAN tunnels will be automatically created by the EVPN control plane when using Juniper Apstra with the ERB design blueprint and two virtual networks in a common routing zone.

#### NEW QUESTION # 26

In the Juniper Apstra design phase, which object dictates port count, port speed, and how the ports would be used?

- A. logical devices
- B. rack type
- C. network devices
- D. interface map

**Answer: D**

Explanation:

Interface maps are objects that map interfaces between logical devices and physical hardware devices in the Juniper Apstra design phase. They dictate port count, port speed, and how the ports would be used for achieving the intended network configuration rendering. Interface maps also allow you to select device ports, transformations, and interfaces, provision breakout ports, and disable unused ports.

#### NEW QUESTION # 27

What does EVPN use to identify which remote leaf device advertised the EVPN route?

- A. a route distinguisher value

- B. a VRF target value
- C. a community tag
- D. a route target value

**Answer: A**

Explanation:

EVPN uses a route distinguisher (RD) value to identify which remote leaf device advertised the EVPN route. An RD is a 64-bit value that is prepended to the EVPN NLRI to create a unique VPNv4 or VPNv6 prefix. The RD value is usually derived from the IP address of the PE that originates the EVPN route. By comparing the RD values of different EVPN routes, a PE can determine which remote PE advertised the route and which VRF the route belongs to.

### NEW QUESTION # 28

Which of the following two statements are correct?

- A. VXLAN is a Layer 3 encapsulation protocol
- **B. VXLAN is a Layer 2 encapsulation protocol**
- **C. VXLAN encapsulation discards VLAN IDs**
- D. VXLAN encapsulation discards VNIs

**Answer: B,C**

### NEW QUESTION # 29

When working with logical devices, you specify where each port group is connected. In this scenario, which two Juniper Apstra UI options are available to the operator? {Choose two.}

- A. router
- **B. generic**
- C. firewall
- **D. unused**

**Answer: B,D**

Explanation:

When working with logical devices, you specify where each port group is connected by selecting the port group layout and the port speed and role (s) for each port group. The Juniper Apstra UI offers two options to the operator for the port group role: unused and generic.

Unused: This option means that the port group is not configured or used by Apstra. This can be useful for ports that are faulty, reserved, or not part of the data center fabric.

Generic: This option means that the port group is configured with a generic role that is not specific to any device type or function. This can be useful for ports that are used for testing, troubleshooting, or custom purposes.

### NEW QUESTION # 30

.....

As old saying goes, all roads lead to Rome. If you are still looking for your real interests and have no specific plan, our JN0-481 exam questions can be your new challenge. Now, people are blundering. Few people can calm down and ask what they really want. You live so tired now. Learning of our JN0-481 practice materials is the best way to stop your busy life. And you will have a totally different life if you just get the JN0-481 certification.

**Reliable JN0-481 Test Notes:** <https://www.updatedumps.com/Juniper/JN0-481-updated-exam-dumps.html>

Practicing for the JN0-481 practice test, again and again, can be nerve-wracking, so in this situation Exams, Also we provide package for three versions of JN0-481 test guide and it is really economical, Juniper New JN0-481 Test Blueprint We also hope that our products are really worth buying, Juniper New JN0-481 Test Blueprint However, that is not certain and sure enough to successfully pass this exam, These UpdateDumps JN0-481 exam dumps will provide you with everything that you need to prepare and pass the final JN0-481 exam with flying colors.

Construct more accurate predictions by using Solver to find maximum likelihood estimates, Distributed Network Administration, Practicing for the JN0-481 Practice Test, again and again, can be nerve-wracking, so in this situation Exams.

## Data Center, Specialist (JNCIS-DC) Actual Test Guide Boosts the Function to Simulate the Exam - UpdateDumps

Also we provide package for three versions of JN0-481 test guide and it is really economical, We also hope that our products are really worth buying, However, that is not certain and sure enough to successfully pass this exam.

These UpdateDumps JN0-481 exam dumps will provide you with everything that you need to prepare and pass the final JN0-481 exam with flying colors.
