

# Pass Guaranteed Quiz 2025 Oracle 1z1-076: Oracle Database 19c: Data Guard Administration Pass-Sure Valid Braindumps Free

BTW, DOWNLOAD part of PrepAwayPDF 1z1-076 dumps from Cloud Storage: [https://drive.google.com/open?id=1PIh\\_B9Zr7GBu1E8NOP-0zN-IaQMkvV15](https://drive.google.com/open?id=1PIh_B9Zr7GBu1E8NOP-0zN-IaQMkvV15)

The most attractive thing about a learning platform is not the size of his question bank, nor the amount of learning resources, but more importantly, it is necessary to have a good control over the annual propositional trend. The 1z1-076 study materials through research and analysis of the annual questions, found that there are a lot of hidden rules are worth exploring, plus we have a powerful team of experts, so the rule can be summed up and use. The 1z1-076 Study Materials can be based on the analysis of the annual questions, it is concluded that a series of important conclusions related to the qualification examination, combining with the relevant knowledge of recent years, then predict the direction which can determine this year's exam. 1z1-076 study materials will improve the ability to accurately forecast the topic and proposition trend this year.

With infallible content for your reference, our 1z1-076 study guide contains the newest and the most important exam questions to practice. And our technicals are always trying to update our 1z1-076 learning quiz to the latest. Only by regular practice can you ingest more useful information than others. And our 1z1-076 Exam Questions can help you change your fate and choosing our 1z1-076 preparation materials is foreshadow of your success.

## 100% Pass Professional Oracle - 1z1-076 Valid Braindumps Free

You can easily get Oracle 1z1-076 certified if you prepare with our Oracle 1z1-076 questions. Our product contains everything you need to ace the 1z1-076 certification exam and become a certified professional. So what are you waiting for? Purchase this updated Oracle 1z1-076 Exam Practice material today and start your journey to a shining career.

## Oracle Database 19c: Data Guard Administration Sample Questions (Q70-Q75):

### NEW QUESTION # 70

Which two are prerequisites for configuring Transaction Guard in a Data Guard environment?

- A. Grant execute permission on the DBMS\_APP\_CONT package to relevant database schema owners.
- B. Ensure that connection descriptors for database clients use the failover clause with the COMMIT\_OUTCOME parameter set to TRUE.

- C. Create a database service with COMMIT\_OUTCOME set to TRUE and ensure that the service is statically registered with the default listener on the primary host.
- **D. Create a database service with COMMIT\_OUTCOME set to TRUE, and ensure clients use that service to connect to the database instance.**
- E. Set INSTANCE\_NAME identically on all the Data Guard Configuration databases and modify the local service name on the client to include a CONNECTION\_LIST containing all the standby hosts.

**Answer: A,D**

#### NEW QUESTION # 71

You must configure flashback database for your Oracle 19c databases that will be part of a Data Guard Broker configuration. The databases are all in ARCHIVELOG mode.

You will execute the SQL statement:

ALTER DATABASE FLASHBACK ON;

Which three are true concerning this command?

- A. If executed successfully on an Oracle 19c primary database, flashback will also be enabled on all physical standby databases that are part of the configuration.
- **B. It will execute successfully while an Oracle 19c primary database is open.**
- **C. It will execute successfully on an Oracle 19c logical standby database while SQL apply is active.**
- D. If executed successfully on an Oracle 19c primary database, flashback will also be enabled on all logical standby databases that are part of the configuration.
- E. It will execute successfully on an Oracle 19c physical standby database while Real Time Query is active.
- **F. It will execute successfully while an Oracle 19c primary database is mounted.**

**Answer: B,C,F**

Explanation:

The command ALTER DATABASE FLASHBACK ON; enables the Flashback Database feature, which provides a way to quickly revert an entire Oracle database back to a previous point in time. This command can be executed while an Oracle 19c primary database is either open (option A) or mounted (option B). It is also applicable to an Oracle 19c logical standby database while SQL Apply is active (option E). However, it's important to note that enabling Flashback Database on the primary does not automatically enable it on all associated standby databases, whether they are physical or logical. Each database in a Data Guard configuration must have Flashback Database explicitly enabled if desired. Real Time Query being active on a physical standby does not directly relate to the ability to execute this command on the standby. Reference: The explanation is based on Oracle's concepts for Flashback Technology and Data Guard configurations as detailed in the Oracle Database Backup and Recovery User's Guide and the Oracle Data Guard Concepts and Administration guide.

#### NEW QUESTION # 72

Examine the Data Guard configuration:

DGMGRL> show configuration;

Configuration - Animals

Protection Mode: Max Availability

Databases:

dogs - Primary database sheep

- Physical standby database cats

- Physical standby database

Fast-Start Failover: DISABLED

Configuration Status: SUCCESS

An attempt to enable fast-start failover raises an error:

DGMGRL> enable fast\_start failover;

Error: ORA-16693: requirements not met for enabling fast-start failover Failed.

Identify three possible reasons for this error.

- A. The LogXptMode property is set to FASTSYNC on Cats while Sheep is the target standby database.
- **B. The LogxptModr property is set to async on Sheep while Sheep is the target standby database.**
- C. The LogXptMode property is set to fastsync on Dogs.
- **D. The fastStartFailoverTarget property is not set on Dogs.**
- **E. The LogXptMode property is set to async on Dogs.**

**Answer: B,D,E**

Explanation:

When enabling fast-start failover, certain conditions must be met:

The fastStartFailoverTarget property is not set on Dogs (A): The primary database (Dogs) needs to have a fast-start failover target configured for the operation to succeed.

The LogXptMode property is set to ASYNC on Sheep while Sheep is the target standby database (B): Fast-start failover requires synchronous redo transport (SYNC or FASTSYNC) to ensure zero data loss, which is a prerequisite for enabling the feature.

The LogXptMode property is set to ASYNC on Dogs (D): Similar to the previous point, the primary database must be configured to use synchronous redo transport for the fast-start failover to be possible.

### NEW QUESTION # 73

Which THREE statements are true about snapshot standby databases?

- A. A guaranteed restore point is created automatically when a physical standby database is converted into a snapshot standby database.
- B. A snapshot standby database must be opened at least once in read-write mode before it can be converted into a physical standby database.
- C. A snapshot standby database can be the only standby database in a Maximum Protection Oracle Data Guard configuration.
- D. Snapshot standby databases may be used for rolling database upgrades.
- E. If datafiles grow while a database is a snapshot standby database, then they shrink when converted back to a physical standby database.

**Answer: A,B,D**

### NEW QUESTION # 74

The Oracle database 19c Observer is currently running on host1 and you wish to have it running on host2.

Examine this list of possible steps:

- 1) Stop the observer on host1
- 2) Disable Fast-Start Failover
- 3) Update the broker configuration with the new observer hostname
- 4) Enable Fast-Start Failover
- 5) Start the Observer on host2

Which contains the minimum required steps to move the observer to host2?

- A. Execute tasks 1, 2, 3, 4, and 5
- B. Execute tasks 1, 3, and 5
- C. Execute only task 5
- D. Execute tasks 1 and 5

**Answer: B**

Explanation:

\* Stop the Observer on host1 to ensure that there are no conflicts between the instances of the Observer running on different hosts.

\* Update the Data Guard Broker configuration with the new hostname for the Observer. This step is crucial to redirect the Data Guard Broker to communicate with the Observer on the new host.

\* Start the Observer on host2 to resume its operations in the new environment.

Disabling and re-enabling Fast-Start Failover (steps 2 and 4) are not strictly necessary for moving the Observer to a new host.

These steps would be more relevant if changes to the configuration of Fast-Start Failover itself were required, which is not the case when simply relocating the Observer.

### NEW QUESTION # 75

Although at this moment, the pass rate of our Oracle 1z1-076 exam braindumps can be said to be the best compared with that of other exam tests, our experts all are never satisfied with the current results because they know the truth that only through steady progress can our Oracle 1z1-076 Preparation materials win a place in the field of exam question making forever.

Oracle 1z1-076 Valid Braindumps Free Because of the Simple, Precise and Accurate Content, Nevertheless, the 1z1-076 exam is always "a lion in the way" or "a stumbling block" for the overwhelming majority of the workers, We assign specific person to check the updates and revise every day so that we guarantee all 1z1-076 Bootcamp pdf we sell are valid and accurate, Oracle 1z1-076 Valid Braindumps Free There are thousands of customers have passed their exam successfully and get the related certification.

Either the model that leadership was sold was not simple to understand, Latest 1z1-076 Exam Practice and consequently communicate, or it was not logical or stable and did not fit with the business' mission, approach, or the program definition.

## Actual Oracle 1z1-076 Exam Questions – Key To Success

Developers are increasingly being asked to create 1z1-076 Valid Braindumps Free software for Linux platforms, Because of the Simple, Precise and Accurate Content, Nevertheless, the 1z1-076 Exam is always "a lion in the way" or "a stumbling block" for the overwhelming majority of the workers.

We assign specific person to check the updates and revise every day so that we guarantee all 1z1-076 Bootcamp pdf we sell are valid and accurate. There are thousands 1z1-076 of customers have passed their exam successfully and get the related certification.

The 1z1-076 practice test is being offered in three different formats.
