1Z0-1057-23 New Exam Materials | 1Z0-1057-23 Valid Practice Questions

If you want to get something done, just roll up your sleeves and do it. If you want to clear 1Z0-1057-23 exam, let our training online files help you. The more difficult the thing is the more important and useful it is. Oracle 1Z0-1057-23 training online files help your difficult thing become simple. Professionals be professionals! People can be defeated, but can't be beat. If you are determined to get a IT certification, you should not give up if you fail exam. Our 1Z0-1057-23 Training Online files will be the right exam materials for your choice.

Oracle Project Management Cloud 2023 Implementation Professional Sample Questions (Q97-Q102):

NEW QUESTION # 97

Shift is one of the key elements in defining project and resource calendars.

Which two additional key elements are required to define the project and resource calendars?

- A. Workday Patterns
- **B. Schedule Exceptions**
- C. Expenditure Type
- D. Time off
- E. Accounting Calendar

Answer: B

Explanation:

Shift is one of the key elements in defining project and resource calendars. Two additional key elements that are required to define the project and resource calendars are:

Schedule Exceptions: These are dates or periods that override the regular workday patterns and shifts of a calendar. They can be used to define holidays, vacations, or other special events that affect the availability of resources or projects.

Workday Patterns: These are patterns of working and nonworking days that repeat over a period of time. They can be used to define the standard working days and hours for a calendar. Time off, expenditure type, and accounting calendar are not key elements in defining project and resource calendars. Time off is an attribute of a resource assignment that reduces the availability of a resource. Expenditure type is a classification of costs that determines how they are processed and accounted. Accounting calendar is a calendar that defines the accounting periods and dates for transactions. <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-resources.html#OAPFM2356131>

NEW QUESTION # 98

Which three features are part of Oracle Fusion Functional Setup Manager?

- **A. export and import services for setup data migration between environments**
- B. feature opt-in for a best fit configuration
- C. updating an implementation project task list by changing the opt-in configuration to suit the latest requirements
- D. modifying an existing implementation project task list by selecting more functional areas when needed
- E. guided task list for end-to-end setup requirements

Answer: A

Explanation:

<https://docs.oracle.com/en/cloud/saas/applications-common/r13-update17d/oafsm/applications-cloud-using-functional-setup-manager.pdf> Functional Setup Manager offers the following:

- *Standardized application configuration and setup experience
- *Feature opt-in for a best fit configuration
- *Flexible processes for managing setup:
- *Setup by functional areas for an adopt-as-you-go approach
- *Implementation projects to manage setup
- *Upload file to enter setup data in bulk
- * Guided task list for end-to-end setup requirements
- * Export and import services for setup data migration between environments
- * Comprehensive reporting on setup data

NEW QUESTION # 99

Your customer started operations and all projects in January 2015. They implemented Enterprise Project Structure for calculating project labor demand by using the Annual option. When they view the labor demand on 15-Dec-2015, the project hierarchy viewer shows data only for the year 2015. The client expected the demand to be shown for a year, from 15-Dec-2015 to 15-Dec-2016. Identify how the project hierarchy viewer displays labor demand information. (Choose the best answer.)

- A. The current period start date is used for calculating labor demand for the current year.
- B. The date entered by a user as a parameter when running the Update EPS job was set to 01-Jan-2015, and hence the calculations show results for the year 2015.
- C. The project start date of Jan-2015 was used for calculating labor demand, and hence it calculated the demand for the year 2015.
- **D. The current date is used for calculating labor demand for the current year.**

Answer: D

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/analyze-project-management-performance.html#OAPEM1313471> Topic - Project Labor Demand: How It's Calculated Settings That Affect Project Labor Demand Project application administrators must do the following to set up how project labor demand is calculated:

Organize projects into hierarchical groups on the Manage Enterprise Project Structure page.

Change the quarterly FTE hours for the organization on the Define Project Management Implementation Options page, if different

from 520 hours.

Note: You can choose to view labor demand annually instead of quarterly. The Project Hierarchy Viewer uses the current date to determine which year or quarter to display.

NEW QUESTION # 100

Your organization has a requirement to create and apply a new theme for the application user interface. Which option allows you to achieve this requirement?

- A. Setup and Maintenance Work Area
- B. Appearance Page
- C. Structure Page
- D. User Interface Text

Answer: D

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/set-up-project-financial-management.html#OAPFM2356331>

NEW QUESTION # 101

Identify two correct role templates available on the Oracle Entitlement Server to generate roles for Project Organization Security.

- A. Project Creator Template for Project Organization Security
- B. Project Accountant Template for Project Organization Security
- C. Project Manager Template for Project Organization Security
- D. Project Administrator Template for Project Organization Security
- E. Project Billing Specialist Template for Project Organization Security

Answer: D

Explanation:

Reference <https://docs.oracle.com/en/cloud/saas/applications-common/r13-update17d/faser/implementing-security-in-oracle-fusion-project-portfolio-management.html#FASER1722595> Ref to "Securing Project Financial Management and Grants Management Applications" Table lists predefined enterprise roles and the type of security that grants the role access to data in a work area or dashboard.
