Answer: C

NEW QUESTION # 49

Which of these are sections of guided analysis? Note: There are 3 correct answers to this question.

- A. Most relevant filters
- B. Related content for further analysis
- C. Ideas for discovering process pitfalls
- D. Typical improvement opportunities
- E. Performance indicators

Answer: B,D,E

NEW QUESTION # 50

Which of the following areas are part of the lifecycle of a business process? Note: There are 3 correct answers to this question.

- A. Process Execution
- B. Process Documentation
- C. Process Analysis
- D. Process Risk Management
- E. Process Approvals

Answer: A,B,C

Explanation:

The lifecycle of a business process encompasses various stages, including Process Documentation, Process Analysis, and Process Execution. Process Documentation involves the detailed recording and description of the process steps, roles, and rules, serving as a foundation for understanding and improving processes. Process Analysis is the examination of processes to identify inefficiencies, bottlenecks, and opportunities for improvement. Process Execution refers to the actual carrying out of the process steps, where the effectiveness of the process is tested in real-world scenarios. These stages are integral to the continuous improvement cycle of business process management, ensuring processes are well-understood, optimized, and effectively executed.

Process Risk Management and Process Approvals, while important aspects of managing processes, are not explicitly listed as stages in the typical lifecycle of a business process as described in BPM literature.
