

Pass Guaranteed Quiz 2026 1z0-1110-25: Latest Oracle Cloud Infrastructure 2025 Data Science Professional Cert Guide

2025 Latest BraindumpsVCE 1z0-1110-25 PDF Dumps and 1z0-1110-25 Exam Engine Free Share:
https://drive.google.com/open?id=1Ivi458X1Ez2R55tq5LwKl6c9bC2Lk_yD

You can get prepared with our Oracle 1z0-1110-25 exam materials only for 20 to 30 hours before you go to attend your exam. we can claim that you will achieve guaranteed success with our 1z0-1110-25 study guide for that our high pass rate is unmatched 98% to 100%. And all the warm feedback from our clients proved our strength, you can totally rely on us with our Oracle 1z0-1110-25 practice quiz!

Oracle 1z0-1110-25 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none">• Implement End-to-End Machine Learning Lifecycle: This section evaluates the abilities of Machine Learning Engineers and includes an end-to-end walkthrough of the ML lifecycle within OCI. It involves data acquisition from various sources, data preparation, visualization, profiling, model building with open-source libraries, Oracle AutoML, model evaluation, interpretability with global and local explanations, and deployment using the model catalog. |
| Topic 2 | <ul style="list-style-type: none">• Create and Manage Projects and Notebook Sessions: This part assesses the skills of Cloud Data Scientists and focuses on setting up and managing projects and notebook sessions within OCI Data Science. It also covers managing Conda environments, integrating OCI Vault for credentials, using Git-based repositories for source code control, and organizing your development environment to support streamlined collaboration and reproducibility. |
| Topic 3 | <ul style="list-style-type: none">• Use Related OCI Services: This final section measures the competence of Machine Learning Engineers in utilizing OCI-integrated services to enhance data science capabilities. It includes creating Spark applications through OCI Data Flow, utilizing the OCI Open Data Service, and integrating other tools to optimize data handling and model execution workflows. |
| Topic 4 | <ul style="list-style-type: none">• Apply MLOps Practices: This domain targets the skills of Cloud Data Scientists and focuses on applying MLOps within the OCI ecosystem. It covers the architecture of OCI MLOps, managing custom jobs, leveraging autoscaling for deployed models, monitoring, logging, and automating ML workflows using pipelines to ensure scalable and production-ready deployments. |

| | |
|---------|--|
| Topic 5 | <ul style="list-style-type: none"> OCI Data Science - Introduction & Configuration: This section of the exam measures the skills of Machine Learning Engineers and covers foundational concepts of Oracle Cloud Infrastructure (OCI) Data Science. It includes an overview of the platform, its architecture, and the capabilities offered by the Accelerated Data Science (ADS) SDK. It also addresses the initial configuration of tenancy and workspace setup to begin data science operations in OCI. |

Valid 1z0-1110-25 Study Plan, Answers 1z0-1110-25 Free

It is browser-based; therefore no need to install it, and you can start practicing for the Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) exam by creating the Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) practice test. Our Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) exam dumps give help to give you an idea about the actual Oracle 1z0-1110-25 Exam. You can attempt multiple Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) exam questions on the software to improve your performance.

Oracle Cloud Infrastructure 2025 Data Science Professional Sample Questions (Q75-Q80):

NEW QUESTION # 75

Which is NOT a valid OCI Data Science notebook session approach?

- A. Avoid having multiple users in the same notebook session due to the possibility of resource contention and write conflicts
- B. While connecting to data in OCI Object Storage from your notebook session, the best practice is to make a local copy on the device and then upload it to your notebook session block volume**
- C. Authenticate using your notebook session's resource principal to access other OCI resources. Resource principals provide a more secure way to authenticate to resources compared to the OCI configuration and API approach
- D. Run the process directly in the terminal and use Python logging to get updates on the progress of your job
- E. Ensure you don't execute long-running Python processes in a notebook cell

Answer: B

Explanation:

Detailed Answer in Step-by-Step Solution:

* Objective: Identify an invalid notebook session practice.

* Evaluate Options:

* A: Valid-Long runs should use Jobs, not notebooks.

* B: Valid-Terminal runs with logging are supported.

* C: Valid-Multi-user conflicts are a concern.

* D: Invalid-Copying from Object Storage to block volume is unnecessary; direct access is best.

* E: Valid-Resource principals are secure and recommended.

* Reasoning: D contradicts OCI's direct-access efficiency.

* Conclusion: D is incorrect.

OCI documentation advises: "Access data in Object Storage directly from notebook sessions using SDKs or resource principals-avoid local copies (D) unless necessary." A, B, C, and E are best practices-D is inefficient and not standard.

Oracle Cloud Infrastructure Data Science Documentation, "Notebook Session Best Practices".

NEW QUESTION # 76

Which statement is true about origin management in Web Application Firewall (WAF)?

- A. Only a single origin can be active for a WAF
- B. Only statement A is true
- C. Both the statements are true**
- D. Only statement B is true
- E. Both the statements are false

- F. Multiple origins can be defined

Answer: C

Explanation:

Detailed Answer in Step-by-Step Solution:

- * Objective: Determine truth about WAF origin management.
- * Understand WAF: Protects apps by routing traffic via origins.
- * Evaluate Statements:
- * A: Multiple origins-True; WAF supports this.
- * B: Single active origin-True; only one is active per policy.
- * Evaluate Options:
- * C: B only-False; A is true.
- * D: Both false-Incorrect.
- * E: Both true-Correct per OCI WAF.
- * F: A only-False; B is true.
- * Conclusion: E is correct.

OCI documentation states: "WAF allows defining multiple origins (A), but only one origin is active per WAF policy at a time (B)- both are true (E)." C, D, and F misalign-E matches OCI's WAF origin management.

Oracle Cloud Infrastructure WAF Documentation, "Origin Management".

NEW QUESTION # 77

You are attempting to save a model from a notebook session to the model catalog by using the Accelerated Data Science (ADS) SDK, with resource principal as the authentication signer, and you get a 404 authentication error. Which two should you look for to ensure permissions are set up correctly?

- **A. A dynamic group has rules that match the notebook sessions in its compartment**
- B. The networking configuration allows access to Oracle Cloud Infrastructure services through a Service Gateway
- C. The model artifact is saved to the block volume of the notebook session
- D. The policy for your user group grants manage permissions for the model catalog in this compartment
- **E. The policy for a dynamic group grants manage permissions for the model catalog in this compartment**

Answer: A,E

Explanation:

Detailed Answer in Step-by-Step Solution:

- * Objective: Troubleshoot a 404 auth error when saving a model with resource principal.
- * Understand Resource Principal: Allows notebook sessions to act as principals via dynamic groups and policies-no user credentials.
- * Analyze 404 Error: Indicates permission failure-likely IAM misconfiguration.
- * Evaluate Options:
- * A: Block volume storage-Irrelevant to auth; it's about saving locally-incorrect.
- * B: Dynamic group matching-Ensures notebook is recognized-correct.
- * C: User group policy-Not used with resource principal-incorrect.
- * D: Dynamic group policy-Grants catalog access-correct.
- * E: Service Gateway-Network-related, not auth-specific-incorrect.
- * Reasoning: Resource principal needs B (group inclusion) and D (policy perms)-404 points to these.
- * Conclusion: B and D are correct.

OCI documentation states: "For ADS SDK to save to the Model Catalog using resource principal, ensure (1) a dynamic group includes notebook sessions with matching rules (e.g., resource.type =datasciencenotebooksession') (B), and (2) a policy grants manage data-science-models to that dynamic group (D)." A is storage, C is user-based, E is network-only B and D fix the auth issue per OCI's IAM setup.

Oracle Cloud Infrastructure Data Science Documentation, "Resource Principal with Model Catalog".

NEW QUESTION # 78

You have trained three different models on your dataset using Oracle AutoML. You want to visualize the behavior of each of the models, including the baseline model, on the test set. Which class should be used from the Accelerated Data Science (ADS) SDK to visually compare the models?

- A. EvaluationMetrics
- **B. ADSEvaluator**
- C. ADSExplainer
- D. ADSTuner

Answer: B

Explanation:

Detailed Answer in Step-by-Step Solution:

- * Objective: Identify the ADS SDK class for visualizing model performance comparison.
- * Understand ADS Classes: Each serves a specific ML purpose-visualization requires evaluation tools.
- * Evaluate Options:
 - * A. EvaluationMetrics: Likely a typo-meant EvaluationsMetrics? Not a standalone class for visualization.
 - * B. ADSEvaluator: Designed to evaluate and visualize model performance (e.g., ROC curves)- correct.
 - * C. ADSExplainer: Explains model predictions (e.g., SHAP), not comparative visualization.
 - * D. ADSTuner: Tunes hyperparameters, not for visualization.
- * Reasoning: ADSEvaluator provides comparative plots (e.g., precision-recall) for multiple models, including baselines.
- * Conclusion: B is correct.

OCI documentation states: "The ADSEvaluator class in ADS SDK (B) enables visualization of model performance metrics, such as ROC curves and confusion matrices, for multiple models on a test set, including baselines." EvaluationMetrics (A) isn't a class, ADSExplainer (C) focuses on interpretability, and ADSTuner (D) is for tuning-only B fits the visualization need per OCI's ADS toolkit.

Oracle Cloud Infrastructure ADS SDK Documentation, "ADSEvaluator Class".

NEW QUESTION # 79

Which is NOT a part of Observability and Management Services?

- A. Logging Analytics
- B. Event Services
- C. Logging
- **D. OCI Management Service**

Answer: D

Explanation:

Detailed Answer in Step-by-Step Solution:

- * Objective: Identify the non-Observability and Management (O&M) service in OCI.
- * Understand O&M: Includes monitoring, logging, events tools.
- * Evaluate Options:
 - * A: Event Services-Triggers actions, part of O&M-correct.
 - * B: OCI Management Service-Not a defined O&M service-incorrect.
 - * C: Logging Analytics-Log analysis, O&M component-correct.
 - * D: Logging-Log collection, O&M component-correct.
- * Reasoning: B isn't listed in OCI's O&M suite-others are.
- * Conclusion: B is correct (not part of O&M).

OCI documentation lists "Observability and Management Services as including Event Services (A), Logging Analytics (C), and Logging (D)-'OCI Management Service' (B) is not a recognized component." B appears to be a misnomer-only A, C, D are O&M per OCI's service catalog.

Oracle Cloud Infrastructure Observability and Management Documentation, "Service Overview".

NEW QUESTION # 80

.....

Everything needs a right way. The good method can bring the result with half the effort, the same different exam also needs the good test method. Our 1z0-1110-25 study materials in every year are summarized based on the test purpose, every answer is a template, there are subjective and objective exams of two parts, we have in the corresponding modules for different topic of deliberate practice. To this end, our 1z0-1110-25 Study Materials in the qualification exam summarize some problem- solving skills, and induce some generic templates.
