

# Pass Guaranteed Quiz CheckPoint - 156-536–High Pass-Rate Valid Braindumps Files

Everyone has different learning habits, 156-536 exam simulation provide you with different system versions: PDF version, Software version and APP version. Based on your specific situation, you can choose the version that is most suitable for you, or use multiple versions at the same time. After all, each version of 156-536 Preparation questions have its own advantages. If you are very busy, you can only use some of the very fragmented time to use our 156-536 study materials. And each of our 156-536 exam questions can help you pass the exam for sure.

## CheckPoint 156-536 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Harmony Endpoint Management as a Service: This section targets Harmony Endpoint Security Professionals, focusing on managing endpoint security as a service. It covers the cloud-based management capabilities of Harmony Endpoint, allowing for scalable deployment and policy management.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Large-Scale Harmony Endpoint Deployment: This domain is aimed at Harmony Endpoint Security Professionals and addresses the challenges associated with deploying Harmony Endpoint at scale. Candidates will learn about strategies for efficient large-scale implementation while maintaining security standards across numerous devices.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• Introduction to Harmony Endpoint: This section measures the skills of CheckPoint Security Administrators about the fundamental concepts of Harmony Endpoint. It introduces candidates to the capabilities of the Harmony Endpoint solution, which is designed to protect endpoint devices from various cyber threats.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Troubleshooting: In this final section, CheckPoint Security Administrators will demonstrate their troubleshooting skills related to Harmony Endpoint. This involves identifying and resolving issues that may arise during deployment or operation of the endpoint security solution.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Deploying Harmony Endpoint Data Security Protection: In this domain, CheckPoint Security Administrators will demonstrate their skills in deploying data security protections within Harmony Endpoint. This includes configuring data loss prevention strategies and ensuring data integrity across endpoints.</li> </ul>

## Get 100% Real Exam 156-536 Questions, Accurate & Verified Answers As Seen in the 156-536 Exam!

Just look at the text version of the introduction, you may still be unable to determine whether this product is suitable for you, or worth your purchase. We are very fond of preparing a trial version of 156-536 study materials: Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) for you. After you have used a trial version, you will have an overview of the content of the 156-536 simulating exam. This is enough to convince you that this is a product with high quality. We hope that you are making a choice based on understanding the products. We will respect your decision. 156-536 really wants to be your long-term partner.

## CheckPoint Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) Sample Questions (Q60-Q65):

### NEW QUESTION # 60

As an Endpoint Administrator, you are facing some errors related to AD Strong Authentication in the Endpoint Management Server. Where is the right place to look when you are troubleshooting these issues?

- A. \$UEMPDIR/log/Authentication.elg
- B. \$FWDIR/logs/Auth.log
- C. \$FWDIR/log/Authentication.log
- D. \$UEPMDIR/logs/Authentication.log

**Answer: D**

Explanation:

When troubleshooting errors related to Active Directory (AD) Strong Authentication in the Endpoint Security Management Server, the appropriate log file to examine is specified in the Check Point Harmony Endpoint Server Administration Guide R81.20. This guide provides detailed information on log file locations for various components of the Harmony Endpoint system.

On page 213, under the section "Troubleshooting Authentication in Server Logs," the guide explicitly states:

"The authentication logs are located in \$UEPMDIR/logs/Authentication.log." This statement directly identifies \$UEPMDIR/logs/Authentication.log as the correct location for logs related to authentication issues, including those involving AD Strong Authentication. The \$UEPMDIR variable represents the installation directory of the Endpoint Security Management Server, making this path specific to the Harmony Endpoint environment. Therefore, Option C is the verified location for troubleshooting such errors.

To further validate this choice, consider the other options:

\* Option A: \$FWDIR/log/Authentication.log- The \$FWDIR directory is typically associated with Check Point's firewall components (e.g., Security Gateway), not the Endpoint Security Management Server. This path is irrelevant for Harmony Endpoint authentication logs.

\* Option B: \$FWDIR/logs/Auth.log- Similarly, \$FWDIR pertains to firewall-related logs, and "Auth.log" is not a standard log file name in the Harmony Endpoint context, making this option incorrect.

\* Option D: \$UEPMDIR/log/Authentication.elg- This option contains a typo ("UEMPDIR" instead of "UEPMDIR") and references a ".elg" file, which is typically used for debug logs in Check Point systems, not standard authentication logs. The correct extension, as per the guide, is ".log," not ".elg." The documentation's clear directive on page 213 confirms that \$UEPMDIR/logs/Authentication.log is the authoritative source for troubleshooting AD Strong Authentication issues,

solidifying Option C as the correct answer.

CP\_R81.20\_Harmony\_Endpoint\_Server\_AdminGuide.pdf, Page 213: "Troubleshooting Authentication in Server Logs" (location of authentication logs).

#### NEW QUESTION # 61

When does the pre-boot logon require users to authenticate?

- A. Before they enter their username
- B. Before password verification
- C. Before the computer's main operating system starts
- D. Before the credentials are verified

**Answer: C**

#### NEW QUESTION # 62

When using User Logon Pre-boot Remote Help, the following assistance is provided

- A. One-Time Logon and Remote Password Change
- B. Cleartext Password
- C. Only One-Time Logon
- D. Only Remote Password Change

**Answer: A**

#### NEW QUESTION # 63

The Push Operation Wizard allows users to select which three topics for Push Operations?

- A. Anti-Malware, Analysis, Agent Deployment
- B. Anti-Ransomware, Forensics and Analysis, Agent Configurations
- C. Anti-Malware, Forensics and Remediation, Agent Settings
- D. Anti-Virus, Remediation, Agent Settings

**Answer: C**

Explanation:

As detailed in the official Check Point Harmony Endpoint documentation, the Push Operation Wizard supports various push operations categorized specifically into Anti-Malware, Forensics and Remediation, and Agent Settings. These operations allow administrators to remotely manage security actions such as malware scans, forensic data collection, remediation tasks, and settings related to endpoint agents.

Exact Extract from Official Document:

"Push operations supported include Anti-Malware, Forensics and Remediation, and Agent Settings." Reference: Check Point Harmony Endpoint Specialist R81.20 Administration Guide.

#### NEW QUESTION # 64

What happens to clients that fail to meet the requirements?

- A. They have encryption issues
- B. They receive incomplete protections
- C. They have unenforced protections
- D. They do not receive FDE protections

**Answer: D**

Explanation:

The Check Point Harmony Endpoint documentation specifies that clients must fulfill all prerequisites to transition from the

Deployment Phase to the Full Disk Encryption policy enforcement phase. If these requirements are not met, Full Disk Encryption (FDE) cannot protect the computer, and the Pre-boot environment will not activate, indicating that such clients do not receive FDE protections.

Exact Extract from Official Document:

"If these requirements are not met, Full Disk Encryption cannot protect the computer and the Pre-boot cannot open."

Reference: Check Point Harmony Endpoint Specialist R81.20 Administration Guide, Page 250, Section:

"Installing and Deploying Full Disk Encryption."

## NEW QUESTION # 65

.....

Perhaps you have seen too many 156-536 exam questions on the market and you are tired now. But our 156-536 preparation quiz can really give you a different feeling. We have conducted research specifically on the current youth market, so we are very clear about what young people like today. Our 156-536 learning guide combine professional knowledge and trends to make you fall in love with learning!
