

Pass Guaranteed Quiz Fantastic Cisco - 300-610 - New Designing Cisco Data Center Infrastructure Test Experience

DOWNLOAD the newest TorrentVCE 300-610 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=100vJcbH5bg0nVm86a6EmgtWT60yuXJyj>

In this fast-changing world, the requirements for jobs and talents are higher, and if people want to find a job with high salary they must boost varied skills which not only include the good health but also the working abilities. But if you get the 300-610 certification, your working abilities will be proved and you will find an ideal job. We provide you with 300-610 Exam Materials of high quality which can help you pass the 300-610 exam easily. It also saves your much time and energy that you only need little time to learn and prepare for 300-610 exam.

It is known to us that getting the 300-610 certification is not easy for a lot of people, but we are glad to tell you good news. The study materials from our company can help you get the 300-610 certification in a short time. Now we are willing to introduce our 300-610 practice questions to you in detail, we hope that you can spare your valuable time to have a look to our 300-610 Exam questoins. Please believe that we will not let you down. You can just free download the demo of our 300-610 training guide on the web to know the excellent quality.

300-610 Real Dumps Free - Valid 300-610 Test Papers

The reality is often cruel. What do we take to compete with other people? More useful certifications like 300-610 certificate? In this era of surging talent, why should we stand out among the tens of thousands of graduates and be hired by the company? Only if you pass the exam can you get a better promotion. And if you want to pass it more efficiently, we must be the best partner for you. Because we are professional 300-610 question torrent provider, we are worth trusting; because we make great efforts, we do better. Here are many reasons to choose us.

To prepare for the exam, candidates can take advantage of various resources such as Cisco's official study materials, practice exams, and training courses. It is also recommended that candidates have hands-on experience with Cisco data center technologies before attempting the exam.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q295-Q300):

NEW QUESTION # 295

A customer is implementing a business continuity solution for the current data centers. The new location must mitigate the impact of a disaster in any existing data centers by providing an acceptable level of service. The solution must support:

- fully segregated Layer 2 and 3 fault domains
- low or no human intervention for service restoration
- medium to high RPO/RTO for a subset of applications
- asynchronous storage replication for application data

Which disaster recovery solution must the customer select to meet these requirements?

- A. cold infrastructure facility with basic infrastructure
- B. identical infrastructure facility ready to provide service
- C. mirrored inactive infrastructure facility with fully stretched resources
- D. partially equipped infrastructure facility for on-demand activation

Answer: B

NEW QUESTION # 296

Which two types of service profile templates does Cisco UCS support? (Choose two.)

- A. initial
- B. updating
- C. temporary
- D. permanent
- E. connected

Answer: A,B

Explanation:

Section: Automation Design

Explanation/Reference: [https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/](https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/UCSM_GUI_Configuration_Guide_141_chapter28.html#concept_C9D27CE2AA1245EA976DAA79F5BC6808)

UCSM_GUI_Configuration_Guide_141_chapter28.html#concept_C9D27CE2AA1245EA976DAA79F5BC6808

NEW QUESTION # 297

An engineer must interconnect two geographically separated data centers. The service provider offers a Layer 2 metro Ethernet link. The strict security policy requires that the information that is shared between two sites must be sent encrypted. The application deployed between sites requires a line-rate throughput regardless of the packet size and speed. Which solution meets these requirements?

- A. L2TPv3
- B. L2TPv2

- C. IPsec
- D. MACsec

Answer: D

Explanation:

Reference:

Furthermore, if the deployment requires that all traffic leaving/traversing the router must be encrypted, the overall throughput of the router is now restricted to the performance of the IPsec engine which, in most cases, can be a fraction of the router's aggregate forwarding capabilities. This is a huge factor from an economics perspective of cost per bit through the router and MACsec changes the encryption cost per bit through routing elements. For deployments requiring encryption and the capability of leveraging an Ethernet transport (public or private), MACsec offers a simplified, line-rate, per port encryption option for secure next-generation deployments.

NEW QUESTION # 298

Drag and drop the technologies from the left onto the correct descriptions on the right.

iSCSI	allows the storage system to tell the client which paths are optimized
TOE	provides block-level access to the storage
MPIO	host software has visibility into different iSCSI ports
ALUA	offloads device CPU from encapsulation / decapsulation

Answer:

Explanation:

iSCSI	ALUA
TOE	iSCSI
MPIO	MPIO
ALUA	TOE

NEW QUESTION # 299

A company has added a new FCoE storage array to increase the performance of datastore access for end users. This storage array is directly connected to the Cisco Nexus 5672UP switches using four 10G port-channel interfaces. After deployment, the end users fail to access the datastore compared to the older solution. A network engineer verified the port-channel interface and finds that the congestion occurs when PFC frames are generated at the FCoE ingress interface. Which action must be taken to resolve the congestion issue?

- Answer: A**
