Pass Guaranteed Quiz HPE7-J02 - The Best Exam Advanced HPE Storage Integrator Solutions Written Exam Vce

Our system will automatically deliver the newest version of our HPE7-J02 exam questions to your via email after you pay for them. So you will never have to worry that the exam questions and answers will be outdated one day for our experts are always keeping on updating the HPE7-J02 Study Materials to the most precise. As you can see, our HPE7-J02 exam simulation really deserves your selection. Do not be afraid of making positive changes. It will add more colors to your life.

The test software used in our products is a perfect match for Windows' HPE7-J02 learning material, which enables you to enjoy the best learning style on your computer. Our HPE7-J02 certification guide also use the latest science and technology to meet the new requirements of authoritative research material network learning. Unlike the traditional way of learning, the great benefit of our HPE7-J02 learning material is that users can flexibly adjust their learning plans. We hope that our new design of HPE7-J02 test questions will make the user's learning more interesting and colorful.

Quiz HP - HPE7-J02 - Perfect Exam Advanced HPE Storage Integrator Solutions Written Exam Vce

Advanced HPE Storage Integrator Solutions Written Exam (HPE7-J02) PDF dumps are the third and most convenient format of the

HP HPE7-J02 PDF questions prep material. This format is perfect for busy test takers who prefer to study for the Advanced HPE Storage Integrator Solutions Written Exam (HPE7-J02) exam on the go. Questions bank in the Dumps4PDF HP HPE7-J02 Pdf Dumps is accessible via all smart devices. We also update Advanced HPE Storage Integrator Solutions Written Exam (HPE7-J02) PDF questions regularly to ensure they match with the new content of the HPE7-J02 exam.

HP HPE7-J02 Exam Syllabus Topics:

Topic	Details
Topic 1	• Optimizing the Customer's Environment: This domain evaluates the skills of Optimization Specialists in identifying opportunities for improvement. Candidates will design and validate optimization plans that enhance customer environments, ensuring measurable performance and efficiency gains.
Topic 2	• Planning and Validating Storage Solutions: This section assesses the role of Storage Consultants in evaluating complex, multi-vendor environments. Candidates will demonstrate their ability to plan, size, and validate storage solutions tailored for enterprise workloads, ensuring proposals meet customer requirements effectively.
Topic 3	• Competitive Positioning of HPE Storage: This part of the exam focuses on the ability of Trusted Advisors to identify competitive opportunities for HPE Storage solutions. It requires articulating HPE's strengths in comparison to multi-vendor environments, customer needs, and market trends, helping customers make informed technology choices.
Topic 4	• HPE Storage Portfolio and Strategy: This domain measures the knowledge of Solution Advisors in positioning HPE's Storage portfolio within enterprise infrastructure. Candidates must understand HPE Storage hardware, procurement options, available tools, and the overarching storage strategy, including its relevance to enterprise-scale solutions.
Topic 5	• Remote Support Configuration: This small but important section tests the ability of System Administrators to configure HPE solutions for remote support, ensuring proactive monitoring and timely resolution of technical issues.

HP Advanced HPE Storage Integrator Solutions Written Exam Sample Questions (Q38-Q43):

NEW QUESTION # 38
You are troubleshooting a storage environment using HPE Alletra Storage MP B10000 in a Peer Persistence configuration. A customer reports high latency when accessing data from applications.
When reviewing the MPIO path status on the host, what should be the path status for connections to the storage array located in the remote data center?

- A. Active Non-optimized
- B. Passive
- C. Standby
- D. Active Optimized

Answer: A

Explanation:
Detailed Explanation:
Rationale for Correct Answer:
In an HPE Peer Persistence configuration (supported on HPE Alletra MP, Primera, and 3PAR), hosts see volumes presented from arrays at both sites. For optimal load balancing and transparent failover, the local array paths are shown as "Active Optimized" while the remote array paths are marked "Active Non- optimized". The "Non-optimized" label indicates these paths are functional but involve remote access with higher latency. This design ensures automatic transparent failover if the local site becomes unavailable.
Distractors:
A: "Active Optimized" applies only to local array paths, not remote ones.
B: Passive paths are typical of ALUA implementations without Peer Persistence, not here.
D: "Standby" is not the term used in Peer Persistence multipathing.

Key Concept: MPIO with Peer Persistence (ALUA Active/Active configuration).
Reference: HPE Primera/Alletra Peer Persistence Best Practices Guide.

NEW QUESTION # 39
Your customer is using 2 HPE StoreOnce appliances across 2 sites with replication enabled for disaster recovery. They are concerned about the fact that the StoreOnce administrators have full access to the systems, which allows them to delete backup copies on these systems.
What needs to be used to address the concern of your customer?

- A. Data at rest encryption
- B. Challenge Handshake Authentication Protocol (CHAP)
- C. Resource restriction policies
- D. Dual Authorization

Answer: D

Explanation:
Detailed Explanation:
Rationale for Correct Answer:
HPE StoreOnce Dual Authorization prevents a single administrator from deleting, expiring, or modifying backup data. Instead, any destructive action requires approval from a second administrator, mitigating insider threats and accidental deletions. This is the correct feature for immutability protection in a replicated StoreOnce environment.
Distractors:
B (CHAP): Used for iSCSI authentication, not backup immutability.
C: Encryption protects data confidentiality, not accidental deletion.
D: Resource restrictions are policy-driven but don't enforce dual control over destructive actions.
Key Concept: Dual Authorization for ransomware and insider-threat protection on StoreOnce.
Reference: HPE StoreOnce Security Features White Paper.

NEW QUESTION # 40
An HPE Alletra 6030 with 138TB flash kit needs a storage expansion. The BOM lists only a 46TB Expansion Shelf, including price.
What should you take into account?

- A. QSFP+ DAC cables are required if NVMe media is used.
- B. The expansion shelf needs to include the 24G SAS cables.
- C. Both Controllers need 100Gb OCP adapters for the expansion shelf connection.
- D. Total supported capacity will be exceeded with the proposed configuration.

Answer: B

Explanation:
Detailed Explanation:
Rationale for Correct Answer:
Alletra 6000 expansion shelves connect via 24G SAS back-end connectivity. The BOM must include the required SAS cables to properly attach the shelf. If only the shelf is listed, it's incomplete - SAS connectivity accessories must be added.
Distractors:
B: The supported max capacity is higher than 138TB + 46TB, so it won't exceed limits.
C: Expansion shelves don't use OCP adapters; they rely on SAS backend ports.
D: QSFP+ DACs are used for front-end networking (iSCSI/FC), not SAS shelf expansion.
Key Concept: Alletra 6000 expansions require 24G SAS cables included in the BOM.
Reference: HPE Alletra 6000 Hardware Installation Guide.

NEW QUESTION # 41
A customer experienced a replication network outage during setup of Alletra 6000 arrays. They want to allow HPE support remote root access to troubleshoot once the outage is resolved.
How can this be enabled?

- A. Enable HPE support access in the InfoSight portal.
- B. Confirm remote access request in the Data Ops Manager.
- C. Access array with SSH login to retrieve ciphertext blob for hpesupport user.
- D. Allow access in the local GUI by enabling secure tunnel.

Answer: A

NEW QUESTION # 42
A customer is replacing their HPE 3PAR 8200 Peer Persistence setup with Alletra 6000. In a recent audit, they were warned that the Quorum Witness VM was missing security updates.
How would you respond regarding the new setup?

- A. Quorum witness is deployed as a SaaS option, and security updates are applied automatically.
- B. Quorum witness is installed as a service on a supported Linux server, which can be updated as needed.
- C. Quorum witness appliance security patch updates follow the array release train updates.
- D. Quorum witness appliance can be set to automatically download and apply available updates.

Answer: A

Explanation:
Detailed Explanation:
Rationale for Correct Answer:
With Alletra and Primera Peer Persistence, the Quorum Witness is no longer a self-hosted VM. It is delivered as a cloud-based SaaS service managed by HPE. This eliminates customer responsibility for patching and ensures HPE automatically applies updates and security fixes. This resolves the audit concern.
Distractors:
A: Applies to older 3PAR environments, not Alletra/Primera.
C/D: Quorum Witness is no longer an appliance - it is SaaS managed, so these don't apply.
Key Concept: Alletra Quorum Witness is SaaS-managed, removing patching responsibility.
Reference: HPE Alletra Peer Persistence and Cloud Quorum Witness Guide.

NEW QUESTION # 43
.....

Dumps4PDF is professional platform to establish for compiling HPE7-J02 exam materials for candidates, and we aim to help you to pass the HPE7-J02 examination as well as getting the related certification in a more efficient and easier way. Owing to the superior quality and reasonable price of our HPE7-J02 Exam Materials, our HPE7-J02 exam torrents are not only superior in price than other makers in the international field, but also are distinctly superior in many respects. Our pass rate of HPE7-J02 exam braindump is as high as 99% to 100%, which is unique in the market.
