

Pass Guaranteed Quiz LEED-Green-Associate - LEED Green Associate Exam—Reliable Boot Camp

LEED Green Associate Sample Exam Questions&Answers

What rules should be used when selecting a LEED rating system when more than one system may apply? - ✓ **40/60**
Use the rating system that is most applicable

To verify the compliance of a credit or prerequisite, a qualified member of the project team submits this - ✓ **Credit Forms**

This source consumes the largest amount of energy in buildings - ✓ **Space Heating**

Legal protection of the ozone layer in the US is provided by this - ✓ **Montreal Protocol**

2009 LEED rating systems, except LEED for Homes and LEED for ND, have what 3 structures? - ✓ **Credits, Minimum Program Requirements, Prerequisites**

The Energy Policy Act establishes what flush rate as the baseline water consumption for water closets? - ✓ **1.6 gallons per flush**

The Triple Bottom Line evaluates the human and environmental effects associated with these - ✓ **Social, economics, and environment**

Construction and demolition debris cannot include 2 of these items - ✓ **Rock, Soil**

To qualify as a regional material, within what distance must a material be extracted, harvested, or recovered, and manufactured? - ✓ **500 miles**

For storage and collection of recyclables, a building recycling program must include these items: - ✓ **Plastic, Cardboard, Metal**

To two primary responsibilities of the Green Building Certification Institute (GBCI) are: - ✓ **Provides third party LEED professional credentialing, Provides third part LEED project certification**

Regional Priority credits are made available to the project for - ✓ **The zip code of the geographic location of the project**

The LEED project boundary is defined as - ✓ **The boundary description that is submitted for certification**

With LEED-Green-Associate test guide, you only need a small bag to hold everything you need to learn. In order to make the learning time of the students more flexible, LEED-Green-Associate exam materials specially launched APP, PDF, and PC three modes. With the APP mode, you can download all the learning information to your mobile phone. In this way, whether you are in the subway, on the road, or even shopping, you can take out your mobile phone for review. LEED-Green-Associate study braindumps also offer a PDF mode that allows you to print the data onto paper so that you can take notes as you like and help you to memorize your knowledge.

USGBC LEED-Green-Associate Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Energy and Atmosphere: This section of the exam measures the skills of energy efficiency engineers and covers building loads, energy efficiency measures, and alternative energy practices. It emphasizes commissioning, energy auditing, and the use of renewable energy sources.

Topic 2	<ul style="list-style-type: none"> • Sustainable Sites: This section of the exam measures the skills of landscape architects and focuses on on-site assessment and design strategies that reduce environmental impact. It includes topics like habitat conservation, rainwater management, and exterior lighting.
Topic 3	<ul style="list-style-type: none"> • Integrative Strategies: This section of the exam measures the skills of project managers and focuses on the integrative process in LEED projects. It includes understanding the roles of various team members and standards that support LEED, such as ASHRAE and ENERGY STAR guidelines. This section highlights the importance of collaboration and systems thinking in achieving sustainable design.
Topic 4	<ul style="list-style-type: none"> • Location and Transportation: This section of the exam measures the skills of urban planners and covers site selection criteria and alternative transportation strategies. It emphasizes choosing sites that minimize environmental impact and promote sustainable transportation options.
Topic 5	<ul style="list-style-type: none"> • Project Surroundings and Public Outreach: This section of the exam measures the skills of community engagement specialists and covers the environmental impacts of buildings, green building codes, and the values of sustainable design. It also includes regional design considerations and public outreach strategies.
Topic 6	<ul style="list-style-type: none"> • Indoor Environmental Quality: This section of the exam measures the skills of indoor air quality specialists and covers strategies for improving indoor air quality, lighting, acoustics, and occupant comfort. It emphasizes the use of low-emitting materials and green cleaning practices.
Topic 7	<ul style="list-style-type: none"> • Water Efficiency: This section of the exam measures the skills of water conservation specialists and covers strategies for reducing water usage both indoors and outdoors. It includes the use of gray water and rainwater in irrigation and the implementation of low-flow fixtures.
Topic 8	<ul style="list-style-type: none"> • Materials and Resources: This section of the exam measures the skills of sustainable materials specialists and focuses on reuse, life-cycle impacts, waste management, and environmentally preferable purchasing practices. It highlights the importance of material selection in reducing environmental impacts.

LEED-Green-Associate Boot Camp - Your Trusted Partner to Pass LEED Green Associate Exam

Perhaps you worry about the quality of our LEED-Green-Associate exam questions. We can make solemn commitment that our LEED-Green-Associate study materials have no mistakes. All contents are passing rigid inspection. You will never find small mistakes such as spelling mistakes and typographical errors in our LEED-Green-Associate learning guide. No one is willing to buy a defective product. And our LEED-Green-Associate practice braindumps are easy to understand for all the candidates.

USGBC LEED Green Associate Exam Sample Questions (Q159-Q164):

NEW QUESTION # 159

Strategically locating functional and decorative hardscape on a project site may reduce the amount of on-site

- A. sensitive area
- B. waste area
- C. impervious area
- D. pervious area

Answer: C

Explanation:

Strategically locating functional and decorative hardscape on a project site can reduce the amount of on-site impervious area.

Impervious surfaces are surfaces that do not allow water to infiltrate into the ground (e.g., concrete or asphalt). By reducing these surfaces, we can increase water infiltration, which helps recharge groundwater supplies and reduces stormwater runoff that can lead to erosion and water pollution. References:

LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

NEW QUESTION # 160

What organization reviews and provides final LEED certification report to projects?

- A. Green Building Initiative (GBI)
- **B. Green Business Certification Inc.**
- C. ASHRAE
- D. U.S. Green Building Council

Answer: B

Explanation:

The Green Business Certification Inc. (GBCI) reviews and provides the final LEED certification report to projects. GBCI was established in 2008 as a separately incorporated entity with the support of the U.S. Green Building Council (USGBC). GBCI administers project certifications for LEED and other green business certification programs. Reference: LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

NEW QUESTION # 161

What green building objective does utilizing high efficiency water fixtures achieve?

- A. Preventing stormwater pollution
- **B. Conserving the Earth's potable water supply**
- C. Providing adequate watering for indigenous plants
- D. Utilizing more unused graywater for flushing water closets

Answer: B

Explanation:

Conserving the Earth's potable water supply is a green building objective that can be achieved by utilizing high efficiency water fixtures. High efficiency water fixtures reduce the amount of water used for indoor plumbing, which reduces the demand on municipal water supply and wastewater systems. This also saves energy and money for the building owners and occupants. The LEED Green Associate Candidate Handbook states that one of the intents of the Water Efficiency category is to "reduce potable water use within buildings and for landscape irrigation" [1, p. 13]. References: LEED Green Associate Candidate Handbook, [Water Efficiency | U.S. Green Building Council]

NEW QUESTION # 162

Which of the following project types and scopes are addressed by LEED rating systems?

- **A. LEED Operations & Maintenance: Schools**
- **B. LEED Interior Design and Construction: Data Centers**
- C. LEED Neighborhood Development: Warehouses and Distribution
- D. LEED Building Design and Construction: Existing Buildings

Answer: A,B

Explanation:

Explanation

LEED rating systems are grouped under five broad categories, according to their construction types¹. Each category has different adaptations for specific project types and scopes. LEED Operations & Maintenance (O+M) addresses existing buildings that are undergoing improvement work or little to no construction². Schools are one of the adaptations under this category³. LEED Interior Design and Construction (ID+C) addresses complete interior fit-out projects². Data Centers are one of the adaptations under this category³. LEED Building Design and Construction (BD+C) addresses new construction or major renovations². Existing Buildings are not an adaptation under this category, but rather under O+M³. LEED Neighborhood Development (ND) addresses new land development projects or redevelopment projects containing residential uses, nonresidential uses, or a mix². Warehouses and Distribution are not an adaptation under this category, but rather under BD+C³.

NEW QUESTION # 163

Which of the following three phases comprise the Integrative Process?

- A. Discovery, design and construction
- B. Study, execution and operation
- C. Discovery, implementation and feedback
- D. Design, construction and feedback

Answer: A

Explanation:

The Integrative Process includes Discovery (gathering data), Design and Construction (implementing strategies), and Feedback (evaluating performance). This collaborative approach maximizes building performance.

NEW QUESTION # 164

.....

We all know that LEED Green Associate Exam (LEED-Green-Associate) exam dumps are an important section of the LEED-Green-Associate exam that is purely based on your skills, expertise, and knowledge. So, we must find quality LEED-Green-Associate Questions that are drafted by industry experts who have complete knowledge regarding the LEED-Green-Associate Certification Exam and can share the same with those who want to clear the LEED-Green-Associate exam. The best approach to finding LEED Green Associate Exam (LEED-Green-Associate) exam dumps is to check the Exams4Collection that is offering the LEED-Green-Associate practice questions.
