repurchase learning materials. This not only wastes a lot of money, but also wastes a lot of time. Our industry experts are constantly adding new content to MB-330 exam torrent based on constantly changing syllabus and industry development breakthroughs. We also hire dedicated staff to continuously update our question bank daily, so no matter when you buy MB-330 Guide Torrent, what you learn is the most advanced. Even if you fail to pass the exam, as long as you are willing to continue to use our MB-330 study tool, we will still provide you with the benefits of free updates within a year.

Microsoft MB-330 certification exam is a highly sought-after certification for professionals who are looking to specialize in the field of supply chain management. Microsoft Dynamics 365 Supply Chain Management Functional Consultant certification is specifically designed for functional consultants who work with Microsoft Dynamics 365 Supply Chain Management. MB-330 exam is intended to test the candidate's knowledge of the various functionalities of Dynamics 365 Supply Chain Management, including inventory management, procurement and sourcing, warehouse management, transportation management, and production control.

The Microsoft Dynamics 365 Supply Chain Management Functional Consultant certification exam is divided into several modules, each covering a specific area of Dynamics 365 Supply Chain Management. Candidates must pass each module to be eligible for certification. MB-330 Exam is available in multiple languages and can be taken at any Microsoft testing center or online. MB-330 exam fee is \$165 USD, and candidates can retake the exam if they fail on the first attempt.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Sample Questions (Q317-Q322):

NEW QUESTION # 317

A company uses procurement in Dynamics 365 Supply Chain Management.

You need to select the correct system functionalities to meet the company's requirements.

Which system functionalities should you select? To answer, drag the appropriate system functionalities to the correct business requirements. Each system functionality may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

System functionalities	Answer Area	System functionality
External catalog	Business requirement	
Vendor catalog	View a vendor's website to select items and bring the item information and pricing into the system on a purchase requisition.	<input type="text"/>
Procurement catalog	Import a vendor's catalog into the system with their item information.	<input type="text"/>
Catalog policy rule	Create a catalog of items and assign them to specific business units.	<input type="text"/>
	Associate specific catalogs to specific legal entities in the system.	<input type="text"/>

Answer:

Explanation:

System functionalities	Answer Area	System functionality
External catalog	Business requirement	
Vendor catalog	View a vendor's website to select items and bring the item information and pricing into the system on a purchase requisition.	External catalog
Procurement catalog	Import a vendor's catalog into the system with their item information.	Vendor catalog
Catalog policy rule	Create a catalog of items and assign them to specific business units.	Procurement catalog
	Associate specific catalogs to specific legal entities in the system.	Catalog policy rule

NEW QUESTION # 318

A client uses master planning in Dynamics 365 Supply Chain Management.

The client wants to make sure that the item coverage groups are configured properly.

You need to validate the configurations.

Which configurations should you validate for each scenario? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Configuration
Define system-generated replenishment suggestions for up to a specified number of days.	<div>coverage time fence (days) field</div> <div>receipt margin added to requirement date</div> <div>issue margin</div> <div>positive days</div>
Specify the delivery past due threshold.	<div>positive days</div> <div>negative days</div> <div>issue margin deducted from requirement date</div> <div>receipt margin added to requirement date</div>

Answer:

Explanation:

Scenario

Configuration

Define system-generated replenishment suggestions for up to a specified number of days.

coverage time fence (days) field
receipt margin added to requirement date
issue margin
positive days

Specify the delivery past due threshold.

positive days
negative days
issue margin deducted from requirement date
receipt margin added to requirement date

Explanation:

Scenario	Configuration				
Define system-generated replenishment suggestions for up to a specified number of days.	<table border="1"><tr><td>coverage time fence (days) field</td></tr><tr><td>receipt margin added to requirement date</td></tr><tr><td>issue margin</td></tr><tr><td>positive days</td></tr></table>	coverage time fence (days) field	receipt margin added to requirement date	issue margin	positive days
coverage time fence (days) field					
receipt margin added to requirement date					
issue margin					
positive days					
Specify the delivery past due threshold.	<table border="1"><tr><td>positive days</td></tr><tr><td>negative days</td></tr><tr><td>issue margin deducted from requirement date</td></tr><tr><td>receipt margin added to requirement date</td></tr></table>	positive days	negative days	issue margin deducted from requirement date	receipt margin added to requirement date
positive days					
negative days					
issue margin deducted from requirement date					
receipt margin added to requirement date

A company sells a new product line. Buyers purchase a large shipment into the distribution center.

The product must be divided among the retail stores equally.

You need to configure buyer push functionality.

Which configuration options should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Configuration option				
Create the push.	<table border="1"><tr><td>replenishment rules and enter total quantity</td></tr><tr><td>location weight and enter total quantity</td></tr><tr><td>fixed quantity and enter total quantity</td></tr><tr><td>location weight and enter manual quantity</td></tr></table>	replenishment rules and enter total quantity	location weight and enter total quantity	fixed quantity and enter total quantity	location weight and enter manual quantity
replenishment rules and enter total quantity					
location weight and enter total quantity					
fixed quantity and enter total quantity					
location weight and enter manual quantity					
Create the order.	<table border="1"><tr><td>transfer order</td></tr><tr><td>sales order</td></tr><tr><td>purchase order</td></tr><tr><td>intercompany order</td></tr></table>	transfer order	sales order	purchase order	intercompany order
transfer order					
sales order					
purchase order					
intercompany order					

Answer:

Explanation:

Requirement

Create the push.

Configuration option

	▼
replenishment rules and enter total quantity	
location weight and enter total quantity	
fixed quantity and enter total quantity	
location weight and enter manual quantity	

	▼
transfer order	
sales order	
purchase order	
intercompany order	

Requirement	Configuration option												
Create the push.	<table border="1"><thead><tr><th></th><th></th></tr></thead><tbody><tr><td></td><td>▼</td></tr><tr><td colspan="2">replenishment rules and enter total quantity</td></tr><tr><td colspan="2">location weight and enter total quantity</td></tr><tr><td colspan="2">fixed quantity and enter total quantity</td></tr><tr><td colspan="2">location weight and enter manual quantity</td></tr></tbody></table>				▼	replenishment rules and enter total quantity		location weight and enter total quantity		fixed quantity and enter total quantity		location weight and enter manual quantity	
	▼												
replenishment rules and enter total quantity													
location weight and enter total quantity													
fixed quantity and enter total quantity													
location weight and enter manual quantity													
Create the order.	<table border="1"><thead><tr><th></th><th></th></tr></thead><tbody><tr><td></td><td>▼</td></tr><tr><td colspan="2">transfer order</td></tr><tr><td colspan="2">sales order</td></tr><tr><td colspan="2">purchase order</td></tr><tr><td colspan="2">intercompany order</td></tr></tbody></table>				▼	transfer order		sales order		purchase order		intercompany order	
	▼												
transfer order													
sales order													
purchase order													
intercompany order													

NEW QUESTION # 320

A company needs to stock inventory in their warehouse. Inbound purchase order materials may need to be placed into more than one location in the warehouse.

You need to configure placement for inventory in the warehouse.

How should you set up location directives? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Configuration option

Value

Sequential setup of new location directive

	▼
Location Directive, Lines, and Location Directive Actions	
Location Directive Actions, Lines, and Location Directive	
Lines, Location Directive, and Location Directive Actions	
Location Directive Actions, Location Directive, and Lines	

Location directive action strategy

	▼
Match packing, Consolidate, and Empty location with no incoming work	
FEFO batch reservation, None, and Match packing	
Empty location with no incoming work, None, and Consolidate	

Answer:

Explanation:

Configuration option

Value

Sequential setup of new location directive

	▼
Location Directive, Lines, and Location Directive Actions	
Location Directive Actions, Lines, and Location Directive	
Lines, Location Directive, and Location Directive Actions	
Location Directive Actions, Location Directive, and Lines	

Location directive action strategy

	▼
Match packing, Consolidate, and Empty location with no incoming work	
FEFO batch reservation, None, and Match packing	
Empty location with no incoming work, None, and Consolidate	

Explanation

Configuration option	Value
Sequential setup of new location directive	<div>▼</div> <div>Location Directive, Lines, and Location Directive Actions</div> <div>Location Directive Actions, Lines, and Location Directive</div> <div>Lines, Location Directive, and Location Directive Actions</div> <div>Location Directive Actions, Location Directive, and Lines</div>

NEW QUESTION # 321

A company is configuring the handheld warehouse mobile device in Dynamics 365 Supply Chain Management. Several warehouse activities are documented as required configurations. The activity configurations require a menu item in the device interface. You need to create the menu items.

Which menu item mode should you use for each activity? To answer, move the appropriate menu item modes to the correct activities. You may use each menu item mode once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows the Dynamics 365 configuration interface. On the left, under 'Menu item modes', there are two modes: 'Indirect' and 'Work'. On the right, under 'Assigning the correct menu item mode to activities for a warehouse', there is a table with two columns: 'Activity' and 'Menu item mode'. The activities listed are 'Inventory status change', 'Reprint label', 'Change warehouse', and 'Spot cycle counting'. The 'Menu item mode' column has four empty text boxes for selection.

Answer:

Explanation:

The screenshot shows the Dynamics 365 configuration interface with the correct menu item modes assigned to each activity. In the 'Menu item modes' pane, 'Indirect' and 'Work' are shown. In the 'Assigning the correct menu item mode to activities for a warehouse' pane, the 'Menu item mode' column has the following assignments: 'Indirect' for 'Inventory status change', 'Indirect' for 'Reprint label', 'Indirect' for 'Change warehouse', and 'Work' for 'Spot cycle counting'.

Explanation:

The screenshot shows the Dynamics 365 configuration interface with the correct menu item modes assigned to each activity. In the 'Menu item modes' pane, 'Indirect' and 'Work' are shown. In the 'Assigning the correct menu item mode to activities for a warehouse' pane, the 'Menu item mode' column has the following assignments: 'Indirect' for 'Inventory status change', 'Indirect' for 'Reprint label', 'Indirect' for 'Change warehouse', and 'Work' for 'Spot cycle counting'.
