The PDF version of our Sharing-and-Visibility-Architect Test Braindumps provide demo for customers; you will have the right to download the demo for free if you choose to use the PDF version.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q50-Q55):

NEW QUESTION # 50

Universal Containers (UC) has 200 distributors that use Partner Community licenses.

Partners cannot see each other's data, but UC is also trying to give more visibility to data for certain individuals at a distributor.

HOW can an Architect give users in the partner user role access to all Case and Container records owned by any user, regardless of role, at the same distributor?

- A. Create a Permission Set granting "View All" permission to Case and Container records.
- B. Create sharing sets.

- C. Create an ownership-based sharing rule.
- D. Give super user permission to the individual partner users.

Answer: D

NEW QUESTION # 51

In order to allow community users to collaborate on Opportunities, which license type must the users.

- A. Customer Community
- B. Customer Community plus
- C. Partner Community
- D. Sales Community

Answer: C

Explanation:

Explanation

The license type that must be used by community users who want to collaborate on opportunities is Partner Community. As mentioned above, Partner Community licenses allow users to access standard CRM objects such as opportunities and collaborate with other partners and internal users using Chatter and Communities.

Sales Community licenses do not exist as a separate license type. Customer Community and Customer Community Plus licenses do not allow users to access opportunities, as they are intended for customer service scenarios rather than sales scenarios.

NEW QUESTION # 52

At Universal Containers, users should only see Accounts they or their subordinates own. All Accounts with the custom field "Key Customer" should be visible to all Senior Account Managers. There is a custom field on the Account record that contains sensitive information and should be hidden from all users, except 3 designated users who require view and edit access. These three users come from different user groups, and will change occasionally. Which three platform security features are required to support these requirements with the minimum amount of effort?

Choose 3 answers

- A. Permission Sets
- B. Apex Managed Sharing
- C. Criteria-Based Sharing Rules
- D. Owner-Based Sharing Rules
- E. Role Hierarchy

Answer: A,C,E

NEW QUESTION # 53

Universal Containers (UC) wants to reduce the amount of redundant leads entered into the system. UC also wants to ensure that leads are only edited/reassigned by the lead owner.

Which organization-wide default (OWD) approach should be recommended to help UC implement these requirements?

- A. Implement a Private OWD on Lead.
- B. Implement a Public Read Only/Transfer OWD on Lead.
- C. Implement 2 Public Read-Only OWD on Lead.

Answer: A

Explanation:

To ensure that only lead owners can edit or reassign their leads, the OWD for Lead should be set to Private. In a Private model:

* Only the owner (and users above the owner in the Role Hierarchy) can access and edit the record by default.

* Redundant lead entries can be minimized by enforcing validation rules or duplicate management logic.

* Option A: A Public Read Only/Transfer OWD does not restrict edit access to the lead owner, as anyone with appropriate permissions could edit or transfer the leads.

* Option B: Public Read-Only OWD does not align with the requirement to ensure only lead owners can edit or reassign leads.

* Option C (Correct): Private OWD ensures that only the lead owner has edit access, adhering to UC's requirements.

References:

* Organization-Wide Default Settings

NEW QUESTION # 54

Universal Containers has implemented Customer Community with Customer Community Plus licenses for its distributors. Retail distributors have part-time agents who work for multiple distributors. Those agents should have access to other distributor accounts as well.

What should be configured to grant agents access to different distributor accounts?

- A. Create sharing rules to share distributor accounts with agents.
- **B. Create a sharing set to share distributor accounts with agents using account contact relationship.**
- C. Use Apex sharing to share distributor accounts with agents using the Account__Share table.

Answer: B

NEW QUESTION # 55

.....
