

# Pass Guaranteed Quiz Zscaler - ZDTA - Useful Test Zscaler Digital Transformation Administrator Engine

2025 Latest Dumpexams ZDTA PDF Dumps and ZDTA Exam Engine Free Share: <https://drive.google.com/open?id=1EpQldEm2vqVkfWU4eTPvIKf0oiNHEMES>

Experts before starting the compilation of "the ZDTA latest questions", has put all the contents of the knowledge point build a clear framework in mind, though it needs a long wait, but product experts and not give up, but always adhere to the effort, in the end, they finished all the compilation. So, you're lucky enough to meet our ZDTA Test Guide 1, and it's all the work of the experts. If you want to pass the qualifying ZDTA exam with high quality, choose our ZDTA exam questions. We are absolutely responsible for you. Don't hesitate!

## Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Zscaler Zero Trust Automation: This part measures Automation Engineers on their ability to utilize Zscaler APIs, including the One API framework, for automating zero trust security functions and integrating with broader enterprise security and orchestration tools.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.</li></ul>

## ZDTA Best Vce & Reliable ZDTA Test Forum

The industry and technology is constantly changing, and Dumpexams always keep its exam dumps current and updated to the latest standards. If you want to get the best valid Zscaler training material, congratulations, you find the right place. Our ZDTA practice torrent is updated and valid, providing the information which just meets your needs. You can have a general understanding of the ZDTA Actual Test and know how to solve the problem. Besides, ZDTA test engine is customizable and advanced which creates a real exam simulation environment to prepare for your success.

### Zscaler Digital Transformation Administrator Sample Questions (Q42-Q47):

#### NEW QUESTION # 42

Which of the following is an unsupported tunnel type?

- A. HTTP Connect Tunnels
- B. Proprietary Microtunnels
- C. Secure Socket Tunneling Protocol (SSTP)
- D. Generic Routing and Encapsulation (GRE)

**Answer: C**

Explanation:

Secure Socket Tunneling Protocol (SSTP) is not supported as a tunnel type by Zscaler. Zscaler supports GRE, HTTP Connect tunnels, and its own proprietary Microtunnels for traffic forwarding and secure connectivity, but SSTP is not among the supported tunnel protocols.

#### NEW QUESTION # 43

Which of the following connects Zscaler users to the nearest Microsoft 365 servers for a better experience?

- A. Optimized TCP Scaling for maximum throughput of files
- B. Multiple distributed DNS resolvers providing local results
- C. Private MPLS in each branch office providing connection
- D. Single DNS resolver with forwarders providing centralized results

**Answer: B**

Explanation:

Multiple distributed DNS resolvers providing local results connect Zscaler users to the nearest Microsoft 365 servers. This approach ensures users get localized DNS resolution, which directs them to the closest Microsoft 365 endpoint, improving performance and reducing latency.

The study guide highlights the importance of distributed DNS resolution in optimizing cloud application performance for users.

#### NEW QUESTION # 44

What are the two types of Probe supported in ZDX?

- A. Page Speed Probes and Connection Speed Probes
- B. Web Probes and Cloud Path Probes
- C. SaaS Probes and Router Probes
- D. Application Probes and Network Probes

**Answer: B**

Explanation:

ZDX supports two probe types: Web Probes and Cloud Path Probes. Web Probes actively retrieve web objects to measure application health, while Cloud Path Probes map the end-to-end network path to pinpoint transit issues.

#### NEW QUESTION # 45

When users are authenticated using SAML, what are the two most efficient ways of provisioning the users?

- A. SCIM and Directory Server Synchronization
- **B. SCIM and SAML Autoprovisioning**
- C. Hosted User Database and Directory Server Synchronization
- D. SAML and Hosted User Database

**Answer: B**

Explanation:

The two most efficient ways to provision users authenticated via SAML are SCIM (System for Cross-domain Identity Management) and SAML Autoprovisioning. SCIM allows automated user provisioning and deprovisioning, while SAML Autoprovisioning enables dynamic user account creation upon authentication, streamlining user lifecycle management.

#### NEW QUESTION # 46

Which is an example of Inline Data Protection?

- A. Preventing the copying of a sensitive document to a USB drive.
- B. Preventing the sharing of a sensitive document in OneDrive.
- C. Analyzing a customer's M365 tenant for security best practices.
- **D. Blocking the attachment of a sensitive document in webmail.**

**Answer: D**

Explanation:

Inline Data Protection is the process of inspecting data as it transits the network in real time, enforcing policies that prevent sensitive data from being leaked or transmitted improperly. Blocking the attachment of a sensitive document in webmail represents inline data protection because it intercepts and controls data transmission at the network level, stopping sensitive content before it leaves the organization.

Preventing copying to a USB drive is endpoint control and does not happen inline in network traffic.

Preventing sharing in OneDrive is cloud access security broker (CASB) activity, often done through API integrations, not inline network control. Analyzing M365 tenant security is an audit or advisory activity, not real-time inline protection.

Therefore, the correct example of inline data protection in Zscaler's cloud security services is blocking the attachment of a sensitive document in webmail.

#### NEW QUESTION # 47

.....

We have compiled the ZDTA test guide for these candidates who are trouble in this exam, in order help they pass it easily, and we deeply believe that our ZDTA exam questions can help you solve your problem. Believe it or not, if you buy our study materials and take it seriously consideration, we can promise that you will easily get the certification that you have always dreamed of. We believe that you will never regret to buy and practice our ZDTA latest question.
