Apple DEP-2025 Practice Exams for Thorough Preparation (Desktop & Web-Based)

The DEP-2025 certification costs somewhere between 100\$ and 1000\$. Thus we save your amount by offering the best prep material with up to 1 year of free updates so that you pass the exam on the first attempt without having to retry, saving your time, effort, and money! TrainingDump offers the Apple DEP-2025 Dumps at a very cheap price.

Apple Deployment and Management Exam Sample Questions (Q72-Q77):

NEW QUESTION # 72

What can you do with Apple Configurator for Mac in iPad deployments?

- A. Replace iCloud for backing up biometric data on iPad devices
- B. Update Apple device operating systems without using the internet
- C. Remotely control devices without requiring physical access to them
- **D. Enroll devices in MDM**

Answer: D

Explanation:

AppleConfigurator for Mac is a powerful utility for provisioning and preparing iOS and iPadOS devices.

According to Apple Learning, one of its key uses is to enroll devices in MDM. This can be done by preparing devices with enrollment profiles, supervising them, and optionally assigning them to Apple Business Manager for Automated Device Enrollment. Configurator cannot remotely control devices - physical access is required. OS updates are still downloaded from Apple servers, though Configurator can facilitate the restore or update process. It also does not replace iCloud backups, especially for biometric data, which is never exportable. Its central role in deployments is enabling supervision, enrollment, and assignment of devices to MDM servers. This makes Configurator essential for environments where devices are not purchased directly from authorized resellers.

References: Apple Configurator Guide - "Use Apple Configurator for iOS and iPadOS enrollment."

NEW QUESTION # 73

Which type of enrollment requires supervision?

- A. User Enrollment
- **B. Automated Device Enrollment**
- C. Device Enrollment

Answer: B

Explanation:

Automated Device Enrollment (ADE), used with Apple Business Manager or Apple School Manager, automatically supervises devices during setup, enabling advanced restrictions and management. Supervision is a default outcome of ADE for organization-owned devices. Device Enrollment (option B) can include supervision if paired with tools like Apple Configurator, but it's not inherent. User Enrollment (option C) is for BYOD and doesn't support supervision to protect user privacy. The Apple Platform Deployment Guide ties supervision to ADE.

NEW QUESTION # 74

What's required to use Shared iPad?

- A. User acceptance
- **B. An MDM solution**
- C. A VPN configuration
- D. Apple Configurator

Answer: B

Explanation:

Shared iPad requires an MDM solution to configure and manage the feature, enabling multiple users to log in with Managed Apple IDs or temporary sessions. The MDM applies the necessary profiles and integrates with Apple School Manager or Apple Business Manager. Apple Configurator (option B) can supervise devices but isn't required for Shared iPad setup. User acceptance (option C) isn't needed, as it's an administrative deployment. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide mandates MDM for Shared iPad.

Reference: Apple Platform Deployment Guide (Chapter: Shared iPad).

NEW QUESTION # 75

Which Wi-Fi standard helps devices join Wi-Fi networks and roam more quickly and effectively between access points?

- A. FastLane
- B. 802.11ad
- **C. 802.11r**
- D. 802.11q

Answer: C

Explanation:

802.11r enhances roaming. The Apple Platform Deployment Guide states, "802.11r, or Fast BSS Transition, improves Wi-Fi performance by enabling faster roaming between access points, reducing authentication overhead." Option C is a QoS feature, not a

standard, and A and D are unrelated.

References:

Apple Platform Deployment Guide, "Wi-Fi Standards" section.

macOS Deployment Reference, "Network Optimization" section.

NEW QUESTION # 76

Which feature allows IT administrators to manage location settings on a device?

- A. Find My
- **B. Configuration profiles**
- C. MDM
- D. iCloud

Answer: B

Explanation:

Configuration profiles allow IT administrators to manage location settings on a device, such as enabling/disabling Location Services, restricting app access to location data, or enforcing privacy settings. These profiles are deployed via MDM or manually. Find My (option B) uses location for tracking but isn't a management tool. iCloud (option C) is unrelated to location management. MDM (option D) delivers profiles, but the profiles define the settings. The Apple Platform Deployment Guide details location control via profiles.

NEW QUESTION # 77

.....

Our DEP-2025 test torrent is of high quality, mainly reflected in the pass rate. Our DEP-2025 test torrent is carefully compiled by industry experts based on the examination questions and industry trends in the past few years. More importantly, we will promptly update our DEP-2025 exam materials based on the changes of the times and then send it to you timely. 99% of people who use our learning materials have passed the exam and successfully passed their certificates, which undoubtedly show that the passing rate of our DEP-2025 Test Torrent is 99%.
