SAP Certified Specialist - Project Manager - SAP Activate for Agile Implementation Management Sample Questions (Q21-Q26):

NEW QUESTION # 21

What are key goals of the burndown chart? Note: There are 2 correct answers to this question.

- A. Determination of the planned go-live date based on current velocity
- B. Visualization of the size of the backlog consumed so far
- C. Determination of the overall availability of the team for the future sprints
- D. Assignment of backlog items to future sprint up to completion of the release

Answer: A,B

Explanation:

Key goals of the burndown chart in Agile project delivery include:

* C. Visualization of the size of the backlog consumed so far: The burndown chart provides a visual representation of work completed over time against the total work scope, helping teams track progress and pace.

* D. Determination of the planned go-live date based on current velocity: By analyzing the rate at which the team is completing work, project managers can forecast when the project is likely to be completed, which aids in planning for the go-live date.

Options A (Determination of the overall availability of the team for the future sprints) and B (Assignment of backlog items to future sprint up to completion of the release) are not direct goals of the burndown chart; these aspects are more related to sprint planning and capacity management. Answer: C,D

NEW QUESTION # 24

When do you perform Quality Gate (Q-Gate) during a project? Note: There are 2 correct answers to this question.

- A. At the end of Discover phase
- B. At the end of Prepare phase
- C. At the end of Realize phase
- D. At the end of Run phase

Answer: B,C

Explanation:

Quality Gates (Q-Gates) are performed during a project at specific phases to ensure quality and readiness for the next phase:

* A. At the end of Realize phase: This is a critical checkpoint to assess if the project deliverables are ready for deployment and meet the set expectations.

* B. At the end of Prepare phase: Marks the completion of initial project setup and planning, ensuring all elements are in place for the project's execution phase. Options C (At the end of Discover phase) and D (At the end of Run phase) are not typically associated with Quality Gates in the SAP Activate methodology. References:

* Implementation standards within SAP projects

NEW QUESTION # 25

What is the result of fit-to-standard workshops?

- A. Prioritization of the requirements backlog by the team
- B. Preparation of standard test cases and test scripts for end users
- C. Detailed assessment of customer's current business processes
- **D. Confirmation solution fit and identification of delta requirements**

Answer: D

Explanation:

The result of fit-to-standard workshops in the SAP Activate methodology is:

* D. Confirmation solution fit and identification of delta requirements: These workshops aim to match the business processes with the standard functionality of the SAP system and identify any gaps (delta requirements) that need customization or additional solutions.

Fit-to-standard workshops are crucial for understanding how well the standard SAP solutions meet the business needs and what modifications are required to fully support the business processes. References:
