NEW QUESTION 125
You have an application that runs on Windows and requires across to a mapped drive. Which Azure service should you use?

A. Azure Cosmos DB
B. Azure Table storage
C. Azure Files
D. Azure Blob Storage

Answer: A

NEW QUESTION 126
You need to recommend a non-relational data store that is optimized for storing and retrieving files, videos, audio stream, and virtual disk images. The data store must store data, some metadata, and a unique ID for each file. Which type of data store should you recommend?

A. document
B. key/value
C. object
D. columnar

Answer: C
Explanation:
Object storage is optimized for storing and retrieving large binary objects (images, files, video and audio streams, large application data objects and documents, virtual machine disk images). Large data files are also popularly used in this model, for example, delimiter file (CSV), parquet, and ORC. Object stores can manage extremely large amounts of unstructured data.

NEW QUESTION 127
Which statement is an example of Data Manipulation Language (DML)?

A. INSERT
B. DISABLE
C. ALTER
D. DROP

If you are worry about the coming 100-150 exam, our 100-150 study materials will help you solve your problem. In order to promise the high quality of our 100-150 exam questions, our company has outstanding technical staff, and has perfect service system after sale. More importantly, our good 100-150 Guide quiz and perfect after sale service are approbated by our local and international customers.

There are many users that are using Cisco Certified Support Technician (CCST) Networking (100-150) exam questions and rated it as one of the best in the market. The customers are pleased with Cisco Certified Support Technician (CCST) Networking (100-150) exam questions and all of them have passed the Cisco Certified Support Technician (CCST) Networking (100-150) certification exam on the very first try.

Hot 100-150 Questions, New 100-150 Exam Duration

Our 100-150 certification files are the representative masterpiece and leading in the quality, service and innovation. We collect the most important information about the test 100-150 certification and supplement new knowledge points which are produced and compiled by our senior industry experts and authorized lecturers and authors. We provide the auxiliary functions such as the function

to stimulate the real exam to help the clients learn our 100-150 Quiz materials efficiently and pass the 100-150 exam.

Cisco Certified Support Technician (CCST) Networking Sample Questions (Q16-Q21):

NEW QUESTION # 16
During the data encapsulation process, which OSI layer adds a header that contains MAC addressing information and a trailer used for error checking?

- A. Data Link
- B. Transport
- C. Session
- D. Network

Answer: A

Explanation:

OSI model
During the data encapsulation process, the Data Link layer of the OSI model is responsible for adding a header that contains MAC addressing information and a trailer used for error checking. The header typically includes the source and destination MAC addresses, while the trailer contains a Frame Check Sequence (FCS) which is used for error detection1.
The Data Link layer ensures that messages are delivered to the proper device on a LAN using hardware addresses and translates messages from the Network layer into bits for the Physical layer to transmit. It also controls how data is placed onto the medium and is received from the medium through the physical hardware.

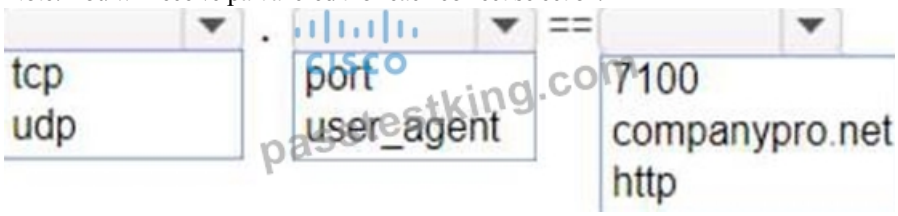
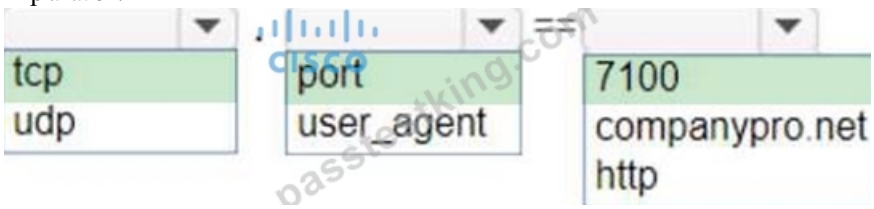
NEW QUESTION # 17
HOTSPOT
An app on a user's computer is having problems downloading data.
The app uses the following URL to download data: https://www.companypro.net:7100/api
You need to use Wireshark to capture packets sent to and received from that URL.
Which Wireshark filter options would you use to filter the results? Complete the command by selecting the correct option from each drop-down list.
Note: You will receive partial credit for each correct selection.



Answer:

Explanation:



Explanation:
To capture packets sent to and received from the URL https://www.companypro.net:7100/api using Wireshark, you would use the following filter options:
Protocol: tcp
Filter Type: port
Port Number: 7100
This filter setup in Wireshark will display all TCP packets that are sent to or received from port 7100, which is the port specified in the URL for the API service. Since HTTPS typically uses TCP as the transport layer protocol, filtering by TCP and the specific port number will help isolate the relevant packets for troubleshooting the app's data download issues.
tcp: The app is using HTTPS, which relies on the TCP protocol for communication.
port: The specific port number used by the application, which in this case is 7100.
7100: This is the port specified in the URL (https://www.companypro.net:7100/api).
This filter will capture all TCP traffic on port 7100, allowing you to analyze the packets related to the application's data download.

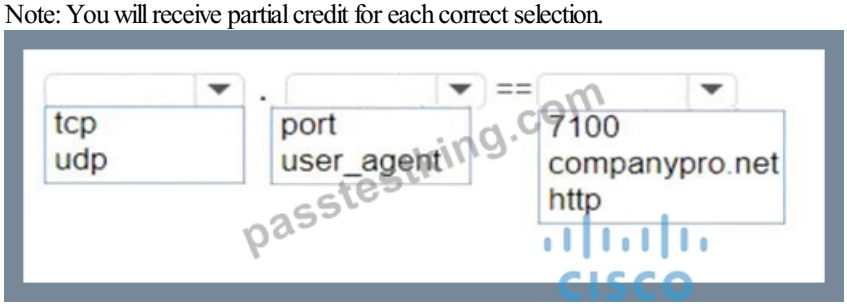
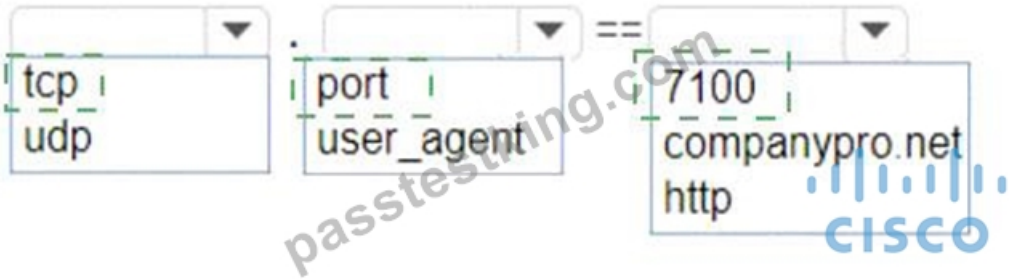
NEW QUESTION # 18
An app on a user's computer is having problems downloading data. The app uses the following URL to download data:
https://www.companypro.net:7100/api
You need to use Wireshark to capture packets sent to and received from that URL.
Which Wireshark filter options would you use to filter the results? Complete the command by selecting the correct option from each drop-down list.
Note: You will receive partial credit for each correct selection.



Answer:

Explanation:



Explanation:
To capture packets sent to and received from the URL https://www.companypro.net:7100/api using Wireshark, you would use the following filter options:
* Protocol: tcp
* Filter Type: port
* Port Number: 7100
This filter setup in Wireshark will display all TCP packets that are sent to or received from port 7100, which is the port specified in the URL for the API service. Since HTTPS typically uses TCP as the transport layer protocol, filtering by TCP and the specific port

number will help isolate the relevant packets for troubleshooting the app's data download issues.
* cp: The app is using HTTPS, which relies on the TCP protocol for communication.
* port: The specific port number used by the application, which in this case is 7100.
* 7100: This is the port specified in the URL (https://www.companypro.net:7100/api).
This filter will capture all TCP traffic on port 7100, allowing you to analyze the packets related to the application's data download.

NEW QUESTION # 19
Examine the following output:

Which two conclusions can you make from the output of the tracert command? Note: You will receive partial credit for each correct answer. (Choose 2.)

- A. The device sending the trace has IPv6 address 2600:1408:c400:38d :: b33.
- B. The trace failed after the fourth hop.
- C. The IPv6 address associated with the www.cisco.com server is 2600:1408: c400: 38d: : b33.
- D. The routers at hops 5 and 6 are offline.
- E. The trace successfully reached the www.cisco.com server.

Answer: C,E

Explanation:
* Statement A: "The trace successfully reached the www.cisco.com server." This is true as indicated by the "Trace complete" message at the end, showing that the trace has reached its destination.
* Statement C: "The IPv6 address associated with the www.cisco.com server is 2600:1408:c400:38d::b33." This is true because the final hop in the trace, which is the destination, has this IPv6 address.
* Statement B: "The trace failed after the fourth hop." This is incorrect as the trace continues beyond the fourth hop, despite some intermediate timeouts.
* Statement D: "The routers at hops 5 and 6 are offline." This is not necessarily true. The routers might be configured to not respond to traceroute requests.
* Statement E: "The device sending the trace has IPv6 address 2600:1408:c400:38d::b33." This is incorrect; this address belongs to the destination server, not the sender.

NEW QUESTION # 20
What is the primary use of ICMP in network management?

- A. Assigning IP addresses
- B. Secure file transfer
- C. Translating domain names to IP addresses
- D. Error reporting and diagnostics

Answer: D

NEW QUESTION # 21
......

To write an effective 100-150 learning guide, one needs to have a good command of knowledge related with the exam. Our experts who devoted themselves to 100-150 practice materials over ten years constantly have been focused on proficiency of 100-150 Exam simulation with irreplaceable attributes. On some tough points, they use specific facts, definite figures to stress concretion. With our 100-150 study guide, you will know what will come in the real exam.
