

Pass4sure C_BCBTM_2509 Pass Guide & C_BCBTM_2509 Reliable Braindumps Free

The web-based SAP C_BCBTM_2509 practice test software can be used through browsers like Firefox, Safari, and Google Chrome. The customers don't need to download or install any excessive plugins or software in order to use the web-based SAP C_BCBTM_2509 Practice Exam format. The web-based C_BCBTM_2509 practice test software format is supported by different operating systems like Mac, iOS, Linux, Windows, and Android.

Our C_BCBTM_2509 training materials are famous for high-quality, and we have a professional team to collect the first hand information for the exam. C_BCBTM_2509 learning materials of us also have high accurate, since we have the professionals check the exam dumps at times. We are strict with the answers and quality, we can ensure you that the C_BCBTM_2509 Learning Materials you get are the latest one we have. Moreover, we offer you free update for one year and the update version for the C_BCBTM_2509 exam dumps will be sent to your email automatically.

>> Pass4sure C_BCBTM_2509 Pass Guide <<

C_BCBTM_2509 Reliable Braindumps Free & Exam C_BCBTM_2509 Pass4sure

It is a common sense that only high quality and accuracy C_BCBTM_2509 training prep can relieve you from those worries. It is our communal wish to reap successful fruits. So our company did a lot to make sure that happen. Our C_BCBTM_2509 learning quiz

compiled by the most professional experts can offer you with high quality and accuracy results for your success. And we can claim that if you study with our C_BCBTM_2509 Exam Braindumps for 20 to 30 hours, you will pass the exam for sure.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q28-Q33):

NEW QUESTION # 28

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Digital Adoption, Process Optimization, Compliance Management
- B. Content Creation, Deployment, Analytics & Insights
- C. Workflow Automation, User Engagement, Security & Privacy
- **D. Data & Analytics, Action & Experience, Platform & Admin**

Answer: D

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.

NEW QUESTION # 29

What is the role of generative AI in SAP Signavio solutions?

- A. It translates process models from one modeling language to another.
- **B. It provides instant answers, identifies bottlenecks, and offers recommendations.**
- C. It is limited to performing routine tasks like data entry.
- D. It is primarily focused on creating new AI systems unrelated to SAP solutions.

Answer: B

Explanation:

Generative AI in SAP Signavio enhances process intelligence by analyzing complex business process data, identifying inefficiencies, and automatically generating insights and recommendations for optimization.

"Generative AI in SAP Signavio supports business transformation by instantly identifying process bottlenecks, providing intelligent recommendations, and generating process improvement insights based on operational data." Reference:

This AI functionality, embedded in SAP Signavio Process Intelligence and Process Insights, empowers users to accelerate process discovery and analysis using natural language queries and auto-generated improvement suggestions.

"SAP Signavio leverages Generative AI to enable users to query process data conversationally and receive AI-driven insights for faster decision-making." Incorrect Options:

B: Translating process models is done via modeling standards (BPMN), not AI.

C: The AI is purpose-built for SAP's transformation ecosystem, not standalone.

D: It performs high-level analytical and generative tasks, not simple automation.

Verified Correct answer: A: It provides instant answers, identifies bottlenecks, and offers

NEW QUESTION # 30

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. Enterprise Architecture Management
- B. SAP Commerce Cloud
- C. SAP Signavio Journey Modeler
- D. Technology Risk and Compliance

Answer: A,D

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

NEW QUESTION # 31

What does WalkMe Discovery help organizations achieve?

- A. Enhances employee satisfaction scores by 50%
- B. Translates all tools into multiple languages automatically
- C. Identifies underutilized tools and compliance risks
- D. Automates training development processes

Answer: C

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 32

What is the primary function of SAP Signavio Process Insights?

- A. It is the single source of truth for business processes within any organization.
- **B. It analyses SAP processes to identify process weaknesses and improvements.**
- C. It is the collaborative process mining solution for experience data analysis.
- D. It performs cloud-based professional process modeling based on best practices content.

Answer: B

Explanation:

SAP Signavio Process Insights is part of the SAP Signavio Business Transformation Suite and focuses on analyzing SAP business processes using live system data. It automatically identifies inefficiencies, bottlenecks, and opportunities for process improvement across SAP ERP and S/4HANA systems.

"SAP Signavio Process Insights analyzes SAP system data to identify process performance issues, weaknesses, and areas for improvement while providing recommendations for optimization." Reference:

It provides actionable process metrics, benchmarks against best practices, and suggestions for transformation initiatives.

"The solution offers automated process analysis and best-practice-based insights to help organizations achieve continuous improvement and business excellence." Incorrect Options:

A: Process mining is a function of SAP Signavio Process Intelligence, not Process Insights.

C: Process modeling is handled by SAP Signavio Process Manager.

D: "Single source of truth" is best represented by SAP Signavio Collaboration Hub.

Verified Correct answer: B: It analyses SAP processes to identify process weaknesses and
