

Passing Professional-Cloud-Security-Engineer Score Feedback, Latest Professional-Cloud-Security-Engineer Exam Labs

2025 Latest PrepAwayPDF Professional-Cloud-Security-Engineer PDF Dumps and Professional-Cloud-Security-Engineer Exam Engine Free Share: https://drive.google.com/open?id=1jPesvm71pzmJk3HPPyWoAH0up9G_KiQ

After so many years' development, our Professional-Cloud-Security-Engineer exam torrent is absolutely the most excellent than other competitors, the content of it is more complete, the language of it is more simply. Once you use our Professional-Cloud-Security-Engineer latest dumps, you will save a lot of time. High effectiveness is our great advantage. After twenty to thirty hours' practice, you are ready to take the real Professional-Cloud-Security-Engineer Exam Torrent. The results will never let you down. You just need to wait for obtaining the certificate.

For candidates who are searching for Professional-Cloud-Security-Engineer training materials for the exam, the quality of the Professional-Cloud-Security-Engineer exam dumps must be your first concern. Our Professional-Cloud-Security-Engineer exam materials can reach this requirement. With a professional team to collect the first-hand information of the exam, we can ensure you that the Professional-Cloud-Security-Engineer Exam Dumps you receive are the latest information for the exam. Moreover, we also pass guarantee and money back guarantee, if you fail to pass the exam, we will refund your money, and no other questions will be asked.

Passing Professional-Cloud-Security-Engineer Score Feedback - First-grade Professional-Cloud-Security-Engineer: Latest Google Cloud Certified - Professional Cloud Security Engineer Exam Exam Labs

PrepAwayPDF has focus on offering the accurate and professional exam dumps for Google certification test. All questions and answers of Professional-Cloud-Security-Engineer are written by our IT experts who has more than 10 years' experience in IT filed. With the help of our Professional-Cloud-Security-Engineer Dumps Torrent, you will get high passing score in the test with less time and money.

Google Cloud Certified - Professional Cloud Security Engineer Exam Sample Questions (Q205-Q210):

NEW QUESTION # 205

Your organization must follow the Payment Card Industry Data Security Standard (PCI DSS). To prepare for an audit, you must detect deviations on an infrastructure-as-a-service level in your Google Cloud landing zone. What should you do?

- A. Create a data profile covering all payment relevant data types. Configure Data Discovery and a risk analysis job in Google Cloud Sensitive Data Protection to analyze findings.
- B. Use the Google Cloud Compliance Reports Manager to download the latest version of the PCI DSS report Analyze the

report to detect deviations.

- C. Activate Security Command Center Premium. Use the Compliance Monitoring product to filter findings that may not be PCI DSS compliant.
- D. Create an Assured Workloads folder in your Google Cloud organization. Migrate existing projects into the folder and monitor for deviations in the PCI DSS.

Answer: C

Explanation:

<https://cloud.google.com/security-command-center/docs/compliance-management> For each supported security standard, Security Command Center checks a subset of the controls.

For the controls checked, Security Command Center shows you how many are passing. For the controls that are not passing, Security Command Center shows you a list of findings that describe the control failures.

NEW QUESTION # 206

You are creating a new infrastructure CI/CD pipeline to deploy hundreds of ephemeral projects in your Google Cloud organization to enable your users to interact with Google Cloud.

You want to restrict the use of the default networks in your organization while following Google-recommended best practices. What should you do?

- A. Grant your users the IAM Owner role at the organization level. Create a VPC Service Controls perimeter around the project that restricts the compute.googleapis.com API.
- B. Create a cron job to trigger a daily Cloud Function to automatically delete all default networks for each project.
- C. Only allow your users to use your CI/CD pipeline with a predefined set of infrastructure templates they can deploy to skip the creation of the default networks.
- D. Enable the constraints/compute.skipDefaultNetworkCreation organization policy constraint at the organization level.

Answer: D

Explanation:

Enable the constraints/compute.skipDefaultNetworkCreation organization policy constraint at the organization level.

<https://cloud.google.com/resource-manager/docs/organization-policy/org-policy-constraints-constraints/compute.skipDefaultNetworkCreation> This boolean constraint skips the creation of the default network and related resources during Google Cloud Platform Project resource creation where this constraint is set to True. By default, a default network and supporting resources are automatically created when creating a Project resource.

NEW QUESTION # 207

A manager wants to start retaining security event logs for 2 years while minimizing costs. You write a filter to select the appropriate log entries.

Where should you export the logs?

- A. BigQuery datasets
- B. Cloud Pub/Sub topics
- C. Cloud Storage buckets
- D. StackDriver logging

Answer: D

Explanation:

Explanation/Reference: <https://cloud.google.com/logging/docs/exclusions>

NEW QUESTION # 208

An application running on a Compute Engine instance needs to read data from a Cloud Storage bucket. Your team does not allow Cloud Storage buckets to be globally readable and wants to ensure the principle of least privilege.

Which option meets the requirement of your team?

- A. Encrypt the data in the Cloud Storage bucket using Cloud KMS, and allow the application to decrypt the data with the KMS key.

- **B. Use a service account with read-only access to the Cloud Storage bucket to retrieve the credentials from the instance metadata.**
- C. Create a Cloud Storage ACL that allows read-only access from the Compute Engine instance's IP address and allows the application to read from the bucket without credentials.
- D. Use a service account with read-only access to the Cloud Storage bucket, and store the credentials to the service account in the config of the application on the Compute Engine instance.

Answer: B

NEW QUESTION # 209

You are implementing data protection by design and in accordance with GDPR requirements. As part of design reviews, you are told that you need to manage the encryption key for a solution that includes workloads for Compute Engine, Google Kubernetes Engine, Cloud Storage, BigQuery, and Pub/Sub. Which option should you choose for this implementation?

- A. Cloud External Key Manager
- B. Google default encryption
- C. Customer-supplied encryption keys
- **D. Customer-managed encryption keys**

Answer: D

Explanation:

To comply with GDPR requirements and manage encryption keys for workloads across multiple Google Cloud services, customer-managed encryption keys (CMEK) offer a suitable solution.

* Customer-managed encryption keys (B):

* CMEK allows you to create and manage encryption keys using Google Cloud Key Management Service (KMS). You maintain full control over the key lifecycle, including key rotation and destruction.

* CMEK can be used with various Google Cloud services, such as Compute Engine, Google Kubernetes Engine, Cloud Storage, BigQuery, and Pub/Sub, ensuring consistent and compliant encryption across your environment.

* Using CMEK, you can implement data protection by design, aligning with GDPR requirements by ensuring that encryption keys are appropriately managed and secured.

NEW QUESTION # 210

.....

Our Professional-Cloud-Security-Engineer study questions in every year are summarized based on the test purpose, every answer is a template, there are subjective and objective Professional-Cloud-Security-Engineer exams of two parts, we have in the corresponding modules for different topic of deliberate practice. To this end, our Professional-Cloud-Security-Engineer training materials in the qualification exam summarize some problem-solving skills, and induce some generic templates. The user can scout for answer and scout for score based on the answer templates we provide, so the universal template can save a lot of precious time for the user to study and pass the Professional-Cloud-Security-Engineer Exam.

Latest Professional-Cloud-Security-Engineer Exam Labs: <https://www.prepawaypdf.com/Google/Professional-Cloud-Security-Engineer-practice-exam-dumps.html>

This format of Google Professional-Cloud-Security-Engineer exam preparation material is compatible with smartphones and tablets, providing you with the convenience and flexibility to study on the go, wherever you are, To pass the Google Professional-Cloud-Security-Engineer exams ahead of you, you need to treasure the opportunity and pick up the most effective practice material among the various choices, You can make most of your spare time to review your Professional-Cloud-Security-Engineer valid vce when you are waiting the bus or your friends.

By Stedman Graham, Ken Blanchard, The global instance of Professional-Cloud-Security-Engineer each module enables the community application to collate the information that all the members have added.

This format of Google Professional-Cloud-Security-Engineer exam preparation material is compatible with smartphones and tablets, providing you with the convenience and flexibility to study on the go, wherever you are.

TOP Passing Professional-Cloud-Security-Engineer Score Feedback - Google Cloud Certified - Professional Cloud Security Engineer Exam - The Best Latest Professional-Cloud-Security-Engineer Exam Labs

To pass the Google Professional-Cloud-Security-Engineer Exams ahead of you, you need to treasure the opportunity and pick up the most effective practice material among the various choices.

You can make most of your spare time to review your Professional-Cloud-Security-Engineer valid vce when you are waiting the bus or your friends, This Professional-Cloud-Security-Engineer exam dumps format is easy to download from our PrepAwayPDF and a Google Cloud Certified - Professional Cloud Security Engineer Exam (Professional-Cloud-Security-Engineer) free demo version is also available.

This format can be easily used on Windows PCs and laptops.
