The page of our FCP_ZCS-AD-7.4 simulating materials provides demo which are sample questions. The purpose of providing demo is to let customers understand our part of the topic and what is the form of our FCP_ZCS-AD-7.4 study materials when it is opened. In our minds, these two things are that customers who care about the FCP_ZCS-AD-7.4 Exam may be concerned about most. And you can click all three formats of our FCP_ZCS-AD-7.4 exam dumps to see.

Not only we provide the most valued FCP_ZCS-AD-7.4 study materials, but also we offer trustable and sincere after-sales services. As we all know, it's hard to delight every customer. But we have successfully done that. Our FCP_ZCS-AD-7.4 practice materials are really reliable. In a word, our FCP_ZCS-AD-7.4 Exam Questions have built good reputation in the market. We sincerely hope that you can try our FCP_ZCS-AD-7.4 learning quiz. You will surely benefit from your correct choice.

FCP_ZCS-AD-7.4 Online Bootcamps & Test FCP_ZCS-AD-7.4 Dates

Our FCP_ZCS-AD-7.4 test questions are compiled by domestic first-rate experts and senior lecturer and the contents of them contain all the important information about the test and all the possible answers of the questions which maybe appear in the test. You can use the practice test software to check your learning outcomes. Our FCP_ZCS-AD-7.4 test practice guide' self-learning and self-evaluation functions, the statistics report function, the timing function and the function of stimulating the test could assist you to find your weak links, check your level, adjust the speed and have a warming up for the real exam. You will feel your choice to buy FCP_ZCS-AD-7.4 Exam Dump is too right.

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q20-Q25):

NEW QUESTION # 20

Refer to the exhibits.

FortiGate connector settings

Azure Connector

Server region: Global

Use managed identity: ☐

Directory ID: 60b93279-efda-45f5-9c1d-e7f999c1

Application ID: e7ac2b2f-25b1-4e66-96b4-9dbc90e

Client secret: This field is required.

Resource path: ☒

Subscription ID: 9a359c2e-e035-4d1e-ba17-0b600cb2

Resource group: SxLab

Application registration key

Client secrets

A secret string that the application uses to prove its identity when requesting a token. Also can be referred to as application password.

+ New client secret

Description	Expires	Value	ID
FortiGateKey	12/31/2299	application secret	

You are configuring an SDN connector for Azure on a FortiGate device. You completed all the required steps on the Azure side. While configuring the FortiGate side, you notice that you did not save the client secret used in the Azure App Registration. What is the quickest way to obtain the value of the client secret?

- A. Create a new client secret
- B. Create a new external connector for Azure
- C. Create a new resource group
- D. Create a new app registration

Answer: A

Explanation:

Azure does not allow you to view an existing client secret's value after creation for security reasons. If you did not save the client secret when it was first generated, the quickest and only option is to create a new client secret under the existing app registration and use the new value in your FortiGate configuration.

NEW QUESTION # 21

What is a requirement when you deploy a FortiGate active-active cluster in Azure?

- A. You must configure both load balancers to allow administrative access.
- B. You must assign the public IP address to an Azure load balancer.
- C. You must use unicast FGCP to synchronize the configurations.
- D. You must configure all FortiGate VMs with three or more interfaces.

Answer: B

Explanation:

In an active-active FortiGate cluster deployment in Azure, you must assign the public IP address to an Azure load balancer. This is required because Azure does not support multiple VMs sharing a single public IP directly. The Azure Load Balancer handles inbound traffic and distributes it to the active FortiGate instances.

NEW QUESTION # 22

Your organization is in the process of optimizing its Azure network architecture and wants to dynamically manage and exchange routing information between its virtual networks and on-premises networks.

Which Azure service would help to provide a centralized point for efficient route management and dynamic routing?

- A. Azure VPN Gateway
- B. Azure Virtual WAN
- C. Azure ExpressRoute
- **D. Azure Route Server**

Answer: D

Explanation:

Azure Route Server enables dynamic route exchange using BGP between your Azure virtual network and network virtual appliances (NVAs) or on-premises networks. It provides a centralized and scalable solution for route management, allowing seamless integration of routing updates without manual configuration changes.

NEW QUESTION # 23

A Linux server was deployed in a protected subnet with a dynamic IP address. A FortiGate VM in the internal subnet provides traffic filtering to it, and you must implement a firewall policy using the IP address of the Linux server.

Which feature could help integrate FortiGate using Linux server tags?

- A. Microsoft Entra ID
- B. Targets Management
- **C. Software-defined network (SDN) connector**
- D. Service Fabric Cluster

Answer: C

Explanation:

The Software-defined network (SDN) connector allows FortiGate to dynamically pull metadata such as tags, IP addresses, and resource groups from Azure resources. This enables automatic policy updates based on dynamic IP changes, such as those of a Linux server in a protected subnet.

NEW QUESTION # 24

How are the configurations synchronized between two FortiGate VMs in an active-passive HA with SDN connector failover deployed from the Azure marketplace?

- A. Using system autoscaling during a failover
- B. An Azure function distributes the configuration files
- **C. Using unicast FGCP**
- D. By configuring FGSP on the primary

Answer: C

Explanation:

In an active-passive HA deployment of FortiGate VMs in Azure using the Marketplace template, configuration synchronization is handled via unicast FortiGate Clustering Protocol (FGCP). FGCP allows the primary unit to replicate its configuration and session information to the secondary unit, ensuring seamless failover.

NEW QUESTION # 25

.....

High quality practice materials like our Fortinet FCP_ZCS-AD-7.4 learning dumps exert influential effects which are obvious and everlasting during your preparation. The high quality product like our FCP - Azure Cloud Security 7.4 Administrator FCP_ZCS-AD-7.4 Real Exam has no need to advertise everywhere, the exam candidates are the best living and breathing ads.

FCP_ZCS-AD-7.4 Online Bootcamps: https://www.freepdfdump.top/FCP_ZCS-AD-7.4-valid-torrent.html

Our FCP_ZCS-AD-7.4 learning guide is useful to help you make progress, What's more, among the three versions, the PC version can stimulate the real exam for you in the internet, but this version of FCP_ZCS-AD-7.4 test simulate only can be operated in the windows operation system, which can help you to get familiar with the exam atmosphere in the real IT exam, Fortinet Pdf FCP_ZCS-AD-7.4 Torrent PDF & Soft & APP pass-king products for your choice.

If the learner just needs enough familiarity Test FCP_ZCS-AD-7.4 Dates to recognize the right option, then practicing with recognition activities will be sufficient, The documented policy might include a FCP_ZCS-AD-7.4 flowchart accompanied by a narrative process description that explains relevant aspects.

Free PDF Quiz Fortinet - FCP_ZCS-AD-7.4 - FCP - Azure Cloud Security 7.4 Administrator –Reliable Pdf Torrent

Our FCP_ZCS-AD-7.4 learning guide is useful to help you make progress, What's more, among the three versions, the PC version can stimulate the real exam for you in the internet, but this version of FCP_ZCS-AD-7.4 test simulate only can be operated in the windows operation system, which can help you to get familiar with the exam atmosphere in the real IT exam.

PDF & Soft & APP pass-king products for your choice, Both of them FCP_ZCS-AD-7.4 Exam Questions Vce can simulate the actual test and let you practice in a real test environment, Your information will be highly kept in safe and secret.
