NEW QUESTION # 245

You have two CSV files named Products and Categories.

The Products file contains the following columns:

- * ProductID
- * ProductName
- * SupplierID
- * CategoryID

The Categories file contains the following columns:

- * CategoryID
- * CategoryName
- * CategoryDescription

From Power BI Desktop, you import the files into Power Query Editor.

You need to create a Power BI dataset that will contain a single table named Product. The Product table includes the following columns:

- * ProductID
- * ProductName
- * SupplierID
- * CategoryID
- * CategoryName
- * CategoryDescription

How should you combine the queries, and what should you do on the Categories query? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Combine the queries by performing a:

Append
Merge
Transpose

On the Categories query:

Delete the query.
Disable the query load.
Exclude the query from report refresh.

Answer:

Explanation:

Combine the queries by performing a:

Append
Merge
Transpose

On the Categories query:

Delete the query.
Disable the query load.
Exclude the query from report refresh.

Explanation:

Answer as selected

Answer Area

Combine the queries by performing a: Merge

On the Categories query: Disable the query load.

NEW QUESTION # 246

You have a report that includes a card visualization.

You need to apply the following conditional formatting to the card while minimizing design effort.

For values that are greater than or equal to 100, the font of the data label must be dark red.

For values that are less than 100, the font of the data label must be dark gray.

Which type of format should you use?

- A. Rules
- B. Color scale
- C. Field value

Answer: A

Explanation:

Finding the conditional formatting in the card visual is a bit tricky. There is no separate option for that. You need to go to the Format tab of the visual, and then expand the Data Label. The right beside the Data Label's colour you need to hover your mouse, and you will find a three dots icon appearing, which if you click on it, you will see Conditional Formatting.

Now in the Conditional Formatting tab, you can apply it in different methods. for example, you can choose Rules, and then

The Rules mode will give you the ability to put custom roles as below;
