Answer Area

Answer:

Explanation:

Actions

Select the **Set query string parameter** template.
Add an **override query parameter** for the physical address.
Create a new custom connector and add the policy template.
Create a new policy template within the custom connector.
Select the **EscalateForFraud** operation.
Add an **override query parameter** for the full name.
Update the connector.

Answer Area

Create a new custom connector and add the policy template.
Create a new policy template within the custom connector.
Select the **EscalateForFraud** operation.
Add an **override query parameter** for the full name.
Update the connector.

Explanation:

Actions

Select the **Set query string parameter** template.
Add an **override query parameter** for the physical address.

Answer Area

1	Create a new custom connector and add the policy template.
2	Create a new policy template within the custom connector.
3	Select the **EscalateForFraud** operation.
4	Add an **override query parameter** for the full name.
5	Update the connector.

NEW QUESTION # 130

Drag and Drop Question

You are setting up a data loss prevention (DLP) policy for an environment. The default policy group is set to Non-business.

You must configure the following apps in the policy:
- AppA will be used for tracking business-sensitive data.
- AppB will be deployed in six months and must be automatically added
to the published policy.
- AppC uses a custom connector. The connector uses personal data for
testing. When testing is complete, the connector will connect to
business-sensitive data.

You need to select the appropriate policy for each app.

Which policy should you use for each app? To answer, drag the appropriate policies to the correct apps. Each app may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Policies

Blocked
Business data
Default group
Move to business

Answer Area

App	Policy
AppA	
AppB	
AppC	

Answer:

Explanation:

Policies

Answer Area

App	Policy
AppA	Business data
AppB	Default group
AppC	Blocked

Move to business
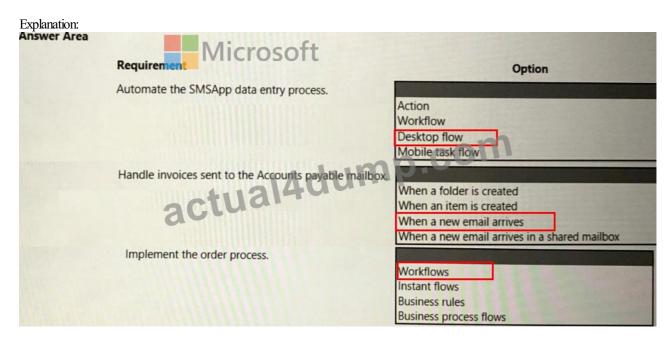

NEW QUESTION # 131

You need to configure the solution.

What should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Option
Automate the SMSApp data entry process.	Action Workflow Desktop flow Mobile task flow
Handle invoices sent to the Accounts payable mailbox.	When a folder is created When an item is created When a new email arrives When a new email arrives in a shared mailbox
Implement the order process.	Workflows Instant flows Business rules Business process flows

Answer:
