- C. The customer was not eligible for the last stage of the journey and the system presented an offer outside the journey.
- D. The customer can be involved in only one active journey at a given moment.

**Answer: B**

Explanation:

Pega Customer Decision Hub always selects and prioritizes the most relevant and valuable action for each customer at any given moment, regardless of whether the action is part of a journey or not. A journey is a way to group and organize actions that are related to a common business objective or customer need, but it does not override the Next-Best-Action strategy that determines the best action for each customer. Therefore, if a customer receives an offer that is not included in any journey, it means that the offer is more suitable and beneficial for the customer than any other offer in the journey.
