Reliable Acquia Acquia-Certified-Site-Builder-D8 Dumps Ppt - VCE Acquia-Certified-Site-Builder-D8 Exam Simulator

DumpsReview Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) practice test material covers all the key topics and areas of knowledge necessary to master the Acquia Certification Exam. Experienced industry professionals design the Acquia-Certified-Site-Builder-D8 exam questions and are regularly updated to reflect the latest changes in the Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) exam. In addition, DumpsReview offers three different formats of practice material which are discussed below.

Acquia Certified Site Builder - Drupal 8 Sample Questions (Q12-Q17):

NEW QUESTION # 12

You are building a recipe site in which users submit their favorite recipes as nodes, tagged with common ingredients from a carefully curated taxonomy vocabulary. You've been asked to create a page on which site visitors can select the ingredients they have on hand and view all the site's recipes that use those ingredients.

You've already created a view listing all Recipe nodes

How can you modify the view to support filtering by ingredient?

- A. For each ingredient, create a separate view display with a contextual filter to limit results by that ingredient
- B. Create a filter using the Recipe content type's "Ingredients" field Expose the filter to users, making sure it allows multiple selections
- C. Add a menu block listing all ingredients Each item in the menu block should link to a subdirectory URL associated with the listed ingredient
- D. Include a "Combine fields" filter that searches all fields for the ingredient name(s) the user enters.

Answer: C

NEW QUESTION # 13

Your company's website uses the core Bartik theme The site was installed using the "Standard" installation profile The company's brand colors had been blue and white and the site's color scheme reflected this However, the brand colors recently changed to oranges and red.

In the Drupal admin interface, how can you remove the blue and white branding in the theme and change to orange and red?

- A. You cannot change color schemes through the Drupal UI. This must be done in code as part of the theme
- B. Go to Appearance > Bartik settings Remove the blue and white color options and put in orange and red instead
- C. You cannot change Bartik's color scheme Carefully choose photos making ample use of orange and red to offset the blue and white in the theme
- D. In the body fields of your nodes, use the WYSIWYG editor to make all headings orange and red

Answer: A

NEW QUESTION # 14

Your company website has a form "Contact Us" through which users can submit questions or feedback to the company. This form uses the site-wide contact form that comes with Drupal 8. The News department within your company has requested their own contact form so that site visitors can specify additional information about a potential story. How can you build the News department their own contact form with an additional field, using only Drupal core modules?

- A. This request is best handled with a contributed module such as Webform
- B. Update the existing contact form with a checkbox ("Send message to News team"); a "Story Information" field, and conditional fields to route the message accordingly
- C. Under Structure > Contact Forms, add a new contact form with the News department's email address as the recipient, and a new field: "Story information."
- D. Under Structure > Contact Forms, add the News department's email address to the recipients of the existing contact form, and a new field "Story information "

Answer: C

NEW QUESTION # 15

Your site review team reports that the new Product pages look good, but takes a long time to load. What are two possible causes? Choose 2 answers

- A. The permission "View cached pages" is not set for Anonymous users.
- B. The Performance setting for Caching is set to "no caching."
- C. Internal Dynamic Page Cache is installed, but the reviewers are testing while logged in
- D. Images are being loaded without using Image styles to load correctly sized versions

Answer: A,D

NEW QUESTION # 16

You have installed a contributed module called "Sample Module" that looks like it will be a great fit for the business case you are trying to solve. However, upon closer examination, it looks like the module only supplies a drush command; it does not have an admin interface.

As a site builder with no command-line experience, this will not work for you! You need a web user interface to use this module. How should you request a web UI in the module's issue queue?

- A. Create a "Feature Request" issue for the module with subject line, "Create web UI for Sample Module." C
- B. Create a "Bug Report" issue for the module with subject line, "Create web UI for Sample Module."
- C. Create a "Feature Request" issue for the module with subject line, "URGENT Module Broken! 11 Needs UI" D
- D. Create a "Bug Report" issue for the module with subject line, "Create web UI for Sample Module" and give it the "Major priority

Answer: B

NEW QUESTION # 17

.....
