

Perfect Valid Test JN0-481 Braindumps Covers the Entire Syllabus of JN0-481

What's more, part of that Free4Torrent JN0-481 dumps now are free: https://drive.google.com/open?id=16LIHvLcPsK-5iYeYUNAwMR_-iwbWKqtd

Firstly, we have free trials of the JN0-481 exam study materials to help you know our products. Once you find it unsuitable for you, you can choose other types of the study materials. You will never be forced to purchase our JN0-481 test answers. Just make your own decisions. We can satisfy all your demands and deal with all your problems. Our online test engine and windows software of the JN0-481 Test Answers will let your experience the flexible learning style. Apart from basic knowledge, we have made use of the newest technology to enrich your study of the JN0-481 exam study materials. Online learning platform is different from traditional learning methods. One of the great advantages is that you will

As to this fateful exam that can help you or break you in some circumstances, our company made these JN0-481 practice materials with accountability. We understand you can have more chances being accepted by other places and getting higher salary or acceptance. Our JN0-481 training materials are made by our responsible company which means you can gain many other benefits as well. We offer free demos for your reference, and send you the new updates if our experts make them freely.

JN0-481 Exam Learning & Exam JN0-481 PDF

Free4Torrent exam material is best suited to busy specialized who can now learn in their seemly timings. The JN0-481 Exam dumps have been gratified in the PDF format which can certainly be retrieved on all the digital devices, including; Smartphone, Laptop, and Tablets. There will be no additional installation required for JN0-481 certification exam preparation material. Also, this PDF can also be got printed. And all the information you will seize from JN0-481 Exam PDF can be verified on the Practice software, which has numerous self-learning and self-assessment features to test their learning. Our software exam offers you statistical reports which will upkeep the students to find their weak areas and work on them.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q42-Q47):

NEW QUESTION # 42

Referring to the exhibit, how do you display the IPv6 subnets lot all of the listed VXLANs?

Name	Routing Zone	Type	VN ID	Assigned to	DHCP Service	IPv4 Connectivity	IPv4 Subnet	Actions
0 selected								
☐ vlan_30_leaf3_v4	default	VLAN	30	1 nodes	Enabled	Enabled	10.1.3.0/24	
☐ red_vxlan_42_v4_one_ep_mlag	red	VXLAN	30011	2 nodes	Enabled	Enabled	10.1.15.0/24	
☐ red_vxlan_41_v4_one_ep	red	VXLAN	30010		Enabled	Enabled	10.1.14.0/24	

- A. IPv6 subnets ate shown when each VXLAN is selected individually.
- B. Select all VXLANs, and the IPv6 Subnets column will appear
- C. Select Columns, then select IPv6 Subnet.
- D. An IPv6 Subnets column is not shown, indicating that no VXLAN has an assigned IPv6 subnet

Answer: C

Explanation:

Referring to the exhibit, the image shows a user interface of the Juniper Apstra software application, which is used for network management and configuration. The image shows the Virtual Networks table under the Resources menu, which displays the details of the VLANs and VXLANs in the network. The table has 11 columns, but only 9 are visible in the image. The other two columns are IPv6 Connectivity and IPv6 Subnet, which are hidden by default. To display the IPv6 subnets for all of the listed VXLANs, the user needs to select Columns, then select IPv6 Subnet. This will show the IPv6 Subnet column in the table, which will display the IPv6 addresses assigned to the VXLANs from the IPv6 pools. For more information, see Virtual Networks (Resources).

NEW QUESTION # 43

Multitenancy for applications is achieved by creating virtual networks (VNs) within which construct?

- A. routing table
- B. security policy
- C. routing zone
- D. connectivity template

Answer: C

Explanation:

A routing zone is an L3 domain, the unit of tenancy in multi-tenant networks. You create routing zones for tenants to isolate their IP traffic from one another, thus enabling tenants to re-use IP subnets. In addition to being in its own VRF, each routing zone can be

assigned its own DHCP relay server and external system connections. You can create one or more virtual networks within a routing zone, which means a tenant can stretch its L2 applications across multiple racks within its routing zone.

NEW QUESTION # 44

In the Juniper Apstra UI, which two resource types would be created in the Resources menu?
(Choose two.)

- A. IP pools
- B. bridge domain identifier (BDI)
- C. ASN pools
- D. DHCP pools

Answer: A,C

Explanation:

The Resources menu in the Juniper Apstra UI allows you to create and manage various types of resources that are assigned to different elements of the network.

Resources include the following types:

- IPv4 (including Host IPv4)
- IPv6 (including Host IPv6)
- ASN (autonomous system number)
- VNI (virtual network identifier)
- VLAN (virtual local area network)

Integer (used for pool type VLAN in local pools in Freeform blueprints) Therefore, the correct answer is C and D. ASN pools and IP pools are two types of resources that can be created in the Resources menu. Bridge domain identifier (BDI) and DHCP pools are not applicable in this scenario, because they are not part of the resources types supported by Juniper Apstra.

NEW QUESTION # 45

What does EVPN use to identify which remote leaf device advertised the EVPN route?

- A. a VRF target value
- B. a community tag
- C. a route target value
- D. a route distinguisher value

Answer: D

Explanation:

EVPN uses a route distinguisher (RD) value to identify which remote leaf device advertised the EVPN route. An RD is a 64-bit value that is prepended to the EVPN NLRI to create a unique VPNv4 or VPNv6 prefix. The RD value is usually derived from the IP address of the PE that originates the EVPN route. By comparing the RD values of different EVPN routes, a PE can determine which remote PE advertised the route and which VRF the route belongs to.

NEW QUESTION # 46

Which two protocols can be used to advertise EVPN routes? (Choose two.)

- A. MP-EBGP
- B. MP-IBGP
- C. OSPF
- D. IS-IS

Answer: A,B

NEW QUESTION # 47
