PL-900 Free Study Material, PL-900 Valid Test Answers

If you are still struggling to prepare for passing PL-900 certification exam, at this moment Pass4sureCert can help you solve problem. Pass4sureCert can provide you training materials with good quality to help you pass the exam, then you will become a good Microsoft PL-900 certification member. If you have decided to upgrade yourself by passing Microsoft Certification PL-900 Exam, then choosing Pass4sureCert is not wrong. Our Pass4sureCert promise you that you can pass your first time to participate in the Microsoft certification PL-900 exam and get Microsoft PL-900 certification to enhance and change yourself.

Microsoft PL-900 Exam Syllabus Topics:

Topic	Details

Topic 1	Describe the business value of Microsoft Power Platform: This section of the exam evaluates an understanding of how Microsoft Power Platform enables digital transformation. It covers how the platform enhances productivity, supports innovation, improves business processes, and helps organizations make data-driven decisions. It focuses on the value of connecting data across Microsoft services and third-party apps to streamline operations and empower users.
Topic 2	Describe the AI authoring experience in Microsoft Power Platform: This section explores how AI capabilities are embedded within Power Platform. It includes understanding how to use AI Builder to integrate intelligence into apps and flows, and how to create AI models for business scenarios like form processing, prediction, and object detection. It demonstrates how AI tools empower users to add smart features without extensive data science knowledge.
Topic 3	Identify foundational components of Microsoft Power Platform: This domain assesses knowledge of the essential elements that make up the Power Platform ecosystem. It includes understanding Microsoft Dataverse, connectors, Microsoft 365 integration, and the core features that support building apps, automating workflows, and analyzing data. It emphasizes the role of these components in supporting platform functionality.
Topic 4	Demonstrate the capabilities of Power Automate: This section tests knowledge of creating and managing automated workflows using Power Automate. It covers the ability to automate business processes, schedule tasks, and integrate various systems and services to improve efficiency and reduce manual work.

Microsoft PL-900 Certification Exam is an excellent starting point for professionals who want to build a career in business applications. It covers the main areas of the Microsoft Power Platform and tests a candidate's understanding of its various applications. Passing this certification exam will validate a candidate's knowledge and skills in the field and pave the way for further career advancement.

Microsoft Power Platform Fundamentals Sample Questions (Q64-Q69):

NEW QUESTION # 64

A company is considering implementing Power Platform.

For which three scenarios should you consider implementing Power Apps portals? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. an internal website for employees to access selected data from Dynamics 365 Finance
- B. a secure website for vendors accessing data stored in Common Data Service
- C. an online store with e-commerce requirements including payment processing
- D. a customer support website that includes knowledge search and support for document uploads
- E. a public website that supports multi-lingual communities with forums and blogs support

Answer: A,D,E

Explanation:

NEW QUESTION # 66

This question requires that you evaluate the BOLD text to determine if it is correct.

You have a Power Apps app. You create a new version of the app and then publish the new version. A customer goes through the process of restoring the previous version of the app. In the Version tab for the app, you will see two versions of the app.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. one
- **B. three**
- C. No change is needed.
- D. four

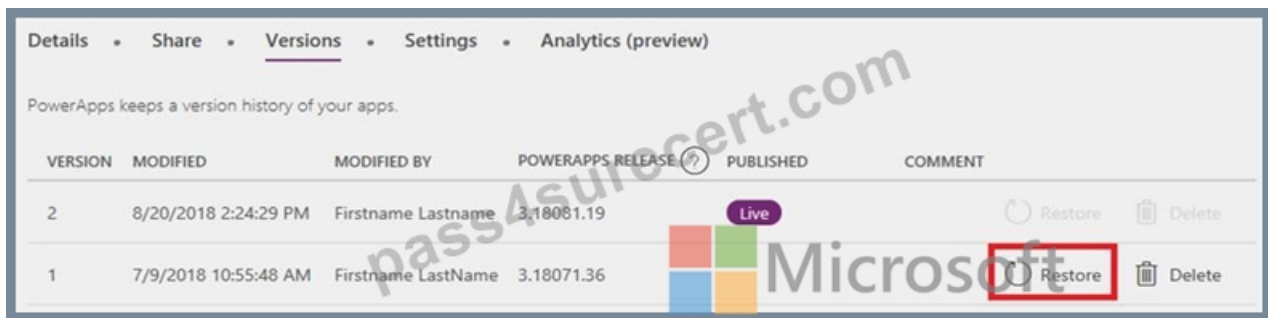

Answer: B

Explanation:

Explanation

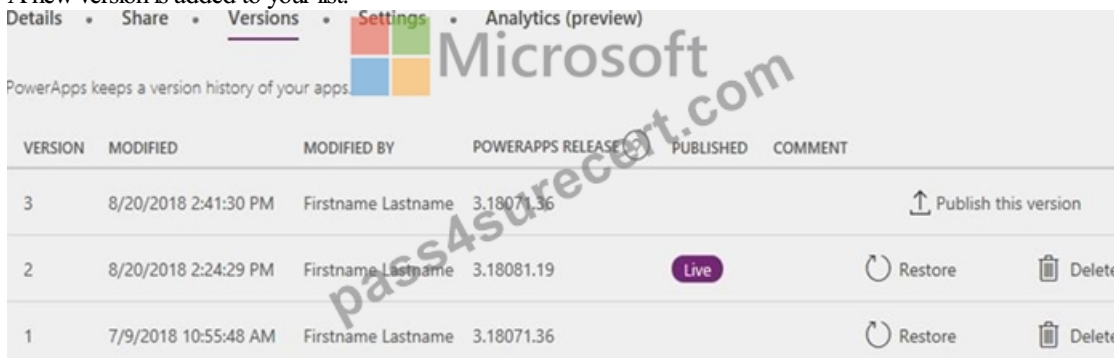

Restore a canvas app to a previous version in PowerApps.

1. Open powerapps.com, and then click or tap Apps in the left navigation bar.
2. Near the right edge, click or tap the info icon for the app that you want to restore.
3. Click or tap the Versions tab, and then click or tap Restore for the version that you want to restore.

4. In the confirmation dialog box, click or tap Restore.

A new version is added to your list.

Explanation

Purpose	Tool
Helps jumpstart application development by leveraging business logic, security, and integrations.	Microsoft Power Platform
A set of records used to store data.	Entities

Box 1: Microsoft Power Platform

Power Platform combines the robust power of PowerApps, PowerBI, and Microsoft Flow into one powerful business application platform - providing quick and easy app building and data insights. Each component of the Microsoft Power Platform is built on the Common Data Service for Apps. Each component is dynamic by itself, but brilliant and masterful when combined.

The Microsoft Power platform brings all your data together into a common data model.

Box 2: Entities

An entity is a set of records used to store data, similar to how a table stores data within a database.

NEW QUESTION # 68

You are creating a Power Apps solution for a company that manufactures bicycles. The company has The following requirements:

* A vendor uploads a Microsoft Excel workbook to the company each week. The workbook contains lists of parts and their current prices. You must automatically Import the data into Microsoft Dataverse as soon as the workbook is uploaded. You must send specific users an alert when new files are uploaded.

* Synchronize customer data with a proprietary accounting database when a user selects a button on the Account form.

You need to recommend the trigger types to use to meet the requirements.

Which trigger types should you use? To answer, drag the appropriate trigger types to the correct requirements. Each trigger type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Trigger types	Requirement	Trigger type
Push trigger	Send a notification when an Excel workbook is uploaded.	Trigger type
Polling trigger	Synchronize customer data with a proprietary accounting database.	Trigger type
Triggers for scheduled flows		
Triggers for business process flow		

Answer:

Explanation:

Trigger types	Requirement	Trigger type
Push trigger	Send a notification when an Excel workbook is uploaded.	Push trigger
Polling trigger	Synchronize customer data with a proprietary accounting database.	Triggers for business process flow
Triggers for scheduled flows		
Triggers for business process flow
