- C. Activity lists.
- D. A scope statement.

Answer: A

NEW QUESTION # 502

A human resource (HR) acquisition process for a large project has recently changed. One major process change includes the approval of the financial manager and the recruitment manager. This change to the process implies longer processing. The project urgently needs new resources.
What should the project manager do?

- A. Ask the financial manager to delay implementation due to potential project delays and penalties.
- B. Adapt the resource management plan and ask for financial approval before sending it to the customer.
- C. Review the project schedule to determine which technique will reduce impact on project duration.
- D. Assess the impact of the change and review the project management plan for next steps.

Answer: D

NEW QUESTION # 503

A company is leading a project to develop a new product using an agile approach. A supplier was contracted to provide a solution for one of the product features based on mandatory scope, stable requirements, and fixed-price contract. During a meeting with the supplier, the project manager was informed that the company's business analyst also asked the supplier to add a solution for another feature as part of their deliverable.
What should the project manager do?

- A. Monitor the work the business analyst is performing to avoid scope creep.
- B. Ensure the project team understands the agreement and contract in place with the supplier.
- C. Ask the supplier to accommodate the additional scope under the current agreement.
- D. Add the feature to the supplier's requirement list so they can deliver it.

Answer: A

NEW QUESTION # 504

Situational leadership as defined by Hersey and Blanchard consists of the stages

- A. Acquisition stage, learning stage, performance stage, exhaustion stage
- B. Must-be requirements, one-dimensional requirements, attractive requirements
