

Practice LEED-AP-BD-C Tests, Study LEED-AP-BD-C Test

BONUS!!! Download part of Real4test LEED-AP-BD-C dumps for free: https://drive.google.com/open?id=1kh2ZM03KH5j7OSw9yP9s8D17WvH_BU4v

With "reliable credit" as the soul of our LEED-AP-BD-C study tool, "utmost service consciousness" as the management philosophy, we endeavor to provide customers with high quality service. Our customer service staff, who are willing to be your little helper and answer your any questions about our LEED-AP-BD-C qualification test, fully implement the service principle of customer-oriented service on our LEED-AP-BD-C Exam Questions. Any puzzle about our LEED-AP-BD-C test torrent will receive timely and effective response, just leave a message on our official website or send us an e-mail for our LEED-AP-BD-C study guide.

Young people are facing greater employment pressure. It is imperative to increase your competitiveness. Selecting LEED-AP-BD-C learning quiz, you can get more practical skills. First, you will increase your productivity so that you can accomplish more tasks. Second, users who use LEED-AP-BD-C Training Materials can pass exams more easily. An international LEED-AP-BD-C certificate means that you can get more job opportunities. Seize the opportunity to fully display your strength. Will the future you want be far behind?

Updated USGBC LEED-AP-BD-C Practice Material In 1 year

Our LEED-AP-BD-C exam questions boost 3 versions and varied functions. The 3 versions include the PDF version, PC version, APP online version. You can use the version you like and which suits you most to learn our LEED-AP-BD-C test practice materials. The 3 versions support different equipment and using method and boost their own merits and functions. For example, the PC version supports the computers with Window system and can stimulate the real exam. Each version of our LEED-AP-BD-C Study Guide provides their own benefits to help the clients learn the LEED-AP-BD-C exam questions efficiently.

USGBC LEED AP Building Design + Construction (LEED AP BD+C) Sample Questions (Q152-Q157):

NEW QUESTION # 152

Which system is eligible for the Energy and Atmosphere Credit, Renewable Energy Production?

- A. Passive solar and daylighting strategies
- B. Ground-source heat pumps
- C. Tidal-based electrical production
- D. Municipal solid waste combustion

Answer: C

Explanation:

Tidal-based electrical production is eligible for the Energy and Atmosphere Credit, Renewable Energy Production. This credit rewards projects that use renewable energy systems to offset building energy cost.

According to the LEED v4 BD+C Reference Guide, renewable energy systems are defined as "those that use resources that are naturally replenished within a 100-year or shorter cycle and that are greenhouse gas neutral on an annual basis" 1. Tidal-based electrical production meets this definition, as it uses the kinetic energy of the tides to generate electricity without emitting greenhouse gases. The other options are not eligible for this credit, as ground-source heat pumps are not considered renewable energy systems, municipal solid waste combustion is not greenhouse gas neutral, and passive solar and daylighting strategies do not offset building energy cost.

NEW QUESTION # 153

For a bicycle network to demonstrate compliance with Location and Transportation Credit, Bicycle Facilities, the bicycle network must connect to

- A. a restaurant, a grocery shop, a post office and two bus lines
- **B. a rapid transit stop that is within 3 mi. (5 km) biking distance of the project boundary**
- C. at least eight diverse uses
- D. five bicycle trails

Answer: B

Explanation:

According to the LEED v4: Building Design + Construction Guide, the bicycle network must connect to a rapid transit stop that is within 3 mi. (5 km) biking distance of the project boundary. This is one of the options to meet the requirement for Option 1: Bicycle Network and Storage. The other options are to connect to at least 10 diverse uses or to connect to a school or employment center that is within 3 mi. (5 km) biking distance of the project boundary. References: LEED v4: Building Design + Construction Guide, Location and Transportation Credit: Bicycle Facilities, Option 1: Bicycle Network and Storage1

NEW QUESTION # 154

How can the additional energy needed to increase the ventilation in a building be mitigated?

- **A. Use economizer strategies**
- B. Use high-pressure drop filters
- C. Reduce the size of the ventilation ductwork
- D. Use higher-rated MERV filters

Answer: A

Explanation:

Using economizer strategies (A) can offset the additional energy required to increase ventilation. Economizers allow the HVAC system to bring in cooler outdoor air when conditions permit, thus reducing mechanical cooling needs. This method aligns with LEED's goals for energy efficiency while maintaining indoor air quality. High MERV filters (B) may increase energy usage due to airflow resistance, and reducing duct size (D) can limit airflow efficiency, counteracting ventilation improvements.

NEW QUESTION # 155

A luxury hotel project is in the design phase and is located on a scenic waterfront. It is one point away from attaining LEED Platinum certification. The LEED AP is recommending that the team pursue Innovation Credit, Innovation, Option 3. Additional Strategies. Which of the following credits would be desirable considering the location of the project?

- A. Energy and Atmosphere Credit, Enhanced Commissioning, Exemplary Performance
- B. Energy and Atmosphere Credit, Optimize Energy Performance, Exemplary Performance
- **C. Indoor Environmental Quality Credit, Quality Views, Exemplary Performance**
- D. Indoor Environmental Quality Credit, Acoustic Performance, Exemplary Performance

Answer: C

Explanation:

The LEED Platinum certification requires the project to achieve exemplary performance in at least one credit that allows it, as specified in the LEED Reference Guide1. One of the credits that meets this criterion is the Indoor Environmental Quality Credit, which focuses on providing healthy and comfortable indoor environments for occupants. The credit has two options: Quality Views and Enhanced Commissioning.

Quality Views requires the project to have windows that provide views of natural scenery or water bodies, which can enhance the well-being and satisfaction of occupants. Enhanced Commissioning requires the project to have a comprehensive commissioning plan that ensures all systems are properly installed, tested, and operated before occupancy. Both options can help reduce energy consumption, improve indoor air quality, and create a positive sensory experience for occupants.

NEW QUESTION # 156

Which of the following requires standard appliances for indoor water reduction?

- A. ISO 14044-2006
- B. ASHRAE Standard 62.1-2010
- C. CEE Tier 3A
- D. GreenSeal

Answer: C

Explanation:

The Consortium for Energy Efficiency (CEE) Tier 3A standard applies to water-efficient appliances, such as dishwashers, clothes washers, and commercial kitchen equipment. It is recognized in LEED BD+C for improving indoor water efficiency.

* CEE Tier 3A focuses on high-efficiency appliances that meet stringent water and energy performance requirements.

* These appliances contribute to Water Efficiency (WE) credits in LEED by reducing potable water consumption.

Other options are unrelated to standard appliances for indoor water reduction:

* GreenSeal pertains to environmental product certifications, including low-VOC materials.

* ASHRAE 62.1-2010 relates to ventilation and indoor air quality standards.

* ISO 14044-2006 addresses life cycle assessment (LCA) methodologies.

NEW QUESTION # 157

.....

A certification is not only an affirmation to your ability but also can help you enter a better company and improve your salary. LEED-AP-BD-C exam cram can help you get your certification successfully. We have a professional team to collect and research the latest information for the exam, and we offer you free update for 365 days after payment, so that you can obtain the latest information. In order to build up your confidence for LEED-AP-BD-C Exam Brainsdumps, we are pass guarantee and money back guarantee if you fail to pass the exam.

Study LEED-AP-BD-C Test: https://www.real4test.com/LEED-AP-BD-C_real-exam.html

Our LEED-AP-BD-C study torrent can simulate the actual test, besides, the contents of USGBC LEED-AP-BD-C study torrent covers almost the key points in the actual test, USGBC Practice LEED-AP-BD-C Tests Except of 7*24 hours on-line service support, our service warranty is one year, USGBC Practice LEED-AP-BD-C Tests And No help, full refund is our policy, USGBC Practice LEED-AP-BD-C Tests Do not feel that you have no ability, and don't doubt yourself.

Refining a Slide Show, In the interim, to say these companies did well is an understatement, Our LEED-AP-BD-C study torrent can simulate the actual test, besides, the contents of USGBC LEED-AP-BD-C study torrent covers almost the key points in the actual test.

Quiz 2025 USGBC LEED-AP-BD-C: Marvelous Practice LEED AP Building Design + Construction (LEED AP BD+C) Tests

Except of 7*24 hours on-line service support, our service warranty LEED-AP-BD-C is one year, And No help, full refund is our policy, Do not feel that you have no ability, and don't doubt yourself.

With the two versions, the candidates can pass their exam with ease.
