Valid Salesforce-Slack-Administrator Exam Objectives | Braindumps Salesforce-Slack-Administrator Torrent

The Salesforce Certified Slack Administrator (Salesforce-Slack-Administrator) exam questions are the real, valid, and updated Salesforce-Slack-Administrator Exam Questions that are specifically designed for quick and complete Salesforce-Slack-Administrator exam preparation. With Itcertmaster Salesforce Certified Slack Administrator (Salesforce-Slack-Administrator) practice test questions you can start Salesforce Salesforce-Slack-Administrator exam preparation immediately.

Salesforce Certified Slack Administrator Sample Questions (Q99-Q104):

NEW QUESTION # 99

You're a Workspace Admin looking to set up a user group for a new hire class your organization has recently hired. What is a key benefit of setting up a user group for these individuals?

- A. When writing a message from any of their workspaces on the Enterprise Grid, any member can send a notification to the new hires with one @mention.
- B. These users will only be granted access to the channels that they've been added to, ensuring that other organization channels remain confidential until they complete their onboarding.
- C. The user group can then be added to all relevant new-hire and onboarding channels, ensuring that no one gets left behind or is accidentally excluded from any channels they should be in.
- D. Admins can foster a sense of community by creating a group-only direct message (DM).

Answer: C

NEW QUESTION # 100

You're upgrading your organization to Slack Enterprise Grid.

You want to be thoughtful about your channel and workspace strategy before finalizing your design.

What should you do?

- A. Migrate existing workspaces into your Enterprise Grid org so that employees can familiarize themselves with its features as you plan the design.
- B. Review the technical requirements for your single sign-on (SSO) system to ensure it is compatible with Slack.
- **C. Survey a selection of end users to determine whether existing knowledge networks are already in place.**
- D. Develop a Champions Network of interested users to help share the design with others.

Answer: C

Explanation:

Slack recommends:

"Before finalizing your Enterprise Grid design, survey teams to understand how they collaborate, where informal knowledge networks exist, and what natural groupings of people and work already exist." Migrating before design (A) is premature. SSO review (C) is important but unrelated to channel and workspace structure design. Champions networks (D) are helpful for rollout, but not initial design.

-

NEW QUESTION # 101

Clint is a Workspace Owner on the Sales Workspace, and his organization is on Slack's Enterprise Grid plan.

Clint cannot find the option to make the #announcement-sales multi-workspace channel available to all Workspaces in the Org.

Who can give Clint multi-workspace channel permissions?

- A. The Sales Workspace Primary Owner can give multi-workspace channel permissions to Clint.
- B. Only Org Owners can manage multi-workspace channels.
- **C. Org Owners and Org Admins decide who can manage multi-workspace channels in this situation.**
- D. A Workspace Owner, who already has multi-workspace channel permissions, can give them to Clint.

Answer: C

Explanation:

In Enterprise Grid:

"Org Owners and Org Admins are responsible for assigning the permission to create and manage multi-workspace channels."

Workspace Owners cannot independently assign this permission unless the Org-level Admins grant them the necessary rights.

(Reference: Slack Administration Study Guide - Enterprise Grid Channel Management)

-

NEW QUESTION # 102

You recently started working with a new external organization that will supply crucial ingredients needed to make your products. It's important to be connected with them at a moment's notice, and you've noticed that your emails often go unanswered for long periods of time. You decide to look up your key contact's email on the Slack Connect page but get no results.

What is the reason you can't find the external contact on Slack Connect?

- A. The external organization is using a free version of Slack.
- B. The external organization will not be discoverable as you don't have a Slack Connect channel with them yet.
- C. The external organization has turned off Slack Connect.
- **D. The external organization has turned off Slack Connect Discoverability.**

Answer: D

Explanation:

Slack Connect discoverability must be enabled by an organization for others to search and find them.

"If an external organization has disabled Slack Connect Discoverability, they will not appear in search results, even if they use Slack." It is not about whether you already have a Connect channel (A), or necessarily whether they are on a free plan (B - free plans can still accept Connect invites with some limitations). Option C (turning off Slack Connect entirely) would prevent channel creation but is not specifically why search would fail.
(Reference: Slack Administration Study Guide - Slack Connect Discoverability Settings)

NEW QUESTION # 103

You're an Org Admin for an organization with an Enterprise Grid plan. You receive a list of several full members who will be leaving the organization in 5 days, with the instruction to deactivate their accounts after their departure. What is the best way to do this?

- A. Contact Slack via /feedback to get the members deactivated.
- **B. Deactivate the members in the Organization Settings 'Members' tab.**
- C. Request the Primary Org Owner do this, as they are the only one who can perform this action.
- D. Deactivate the members utilizing the SCIM API.

Answer: B

NEW QUESTION # 104
