HPE0-J68 Certification Exam Cost - HPE0-J68 New Learning Materials

As you know, the low-quality latest HPE0-J68 exam torrent may do harmful influence on you which may causes results past redemption. Whether you have experienced that problem or not was history by now. The free demos do honor to the perfection of our latest HPE0-J68 exam torrent, and also a performance of our considerate after sales services. Those demos serve as epitomes of real HPE0-J68 Quiz guides for your reference. In our demos, some examples or question points were enumerated as some representatives of our HPE0-J68 test prep. How convenient and awesome of it!

HPE Storage Solutions Sample Questions (Q279-Q284):

NEW QUESTION # 279

A customer's growing environment has a mix of HPE 3PAR StoreServ 8200 with 10K HDD, HPE 3PAR StoreServ 9450, and HPE 3PAR StoreServ 2080D with 3 tiers of storage deployed in the same data center.

The customer needs to optimize performance by being able to move workloads to the most appropriate array as needed.

Which solution enables the customer to achieve this goal?

- A. HPE OneView to automate cpg migration based on user defined policies.
- B. HPE 3PAR Remote Copy in a Synchronous Long Distance topology.
- **C. HPE 3PAR Peer Motion with SSMC to manage storage federation.**
- D. HPE Smart SAN to provide autonomic federated management.

Answer: C

Explanation:

HPE 3PAR Peer Motion, combined with the SSMC (StoreServ Management Console), is the optimal solution for a customer who needs to move workloads between different HPE 3PAR StoreServ arrays within the same data center. Peer Motion allows for seamless and non-disruptive data migration across different arrays, enabling the customer to optimize performance by moving workloads to the most appropriate storage tier or array as needed. This capability ensures that the storage environment remains flexible and responsive to changing performance demands.

NEW QUESTION # 280

Which tool is used to determine current compaction ratios on Primera arrays?

- A. Storage Management Utility (SMU)
- B. SSMC System Reporter
- **C. NinjaStars**
- D. WebUI

Answer: C

Explanation:

When managing HPE Primera arrays, it's important to assess the current compaction ratios to understand how effectively data is being stored.

NinjaStars is an HPE tool specifically designed to analyze and report on data reduction technologies, including deduplication and compression, on HPE storage arrays like Primera. It helps in determining the compaction ratios, providing insights into how efficiently the storage capacity is being utilized.

NEW QUESTION # 281

After a performance analysis, a customer plan to reorganize his adaptive Flash cache (AFC) configuration and want to raise it from 256 to 768GB. Which action is needed to take advantage of the new AFC configuration?

- A. Increase current AFC configuration to reflect the additional space
- B. Remove the old AO configuration and recreate a new one
- **C. Remove flash cache for all VVS then run create Flash cache**
- D. Run tunesys after raising the AFC to take advantage of the additional space

Answer: C

Explanation:

When adjusting the Adaptive Flash Cache (AFC) configuration in HPE 3PAR StoreServ, particularly when increasing the cache size, the correct procedure involves first removing the existing flash cache for all Virtual Volumes (VVs). After this step, you should recreate the flash cache to reflect the new increased capacity. This ensures that the system properly recognizes and utilizes the additional cache space, optimizing performance according to the new configuration.

NEW QUESTION # 282

A customer is planning to replace their existing LTO-6 tape library with a new HPE StoreEver MSL2024 tape library. They want to reuse their existing LTO-6 tape cartridges for reads and writes.

What is the latest tape drive technology that will provide backward compatibility?

- A. LTO8
- **B. LTO7**
- C. LTO5
- D. LTO6

Answer: B

Explanation:

When replacing an existing LTO-6 tape library with a new HPE StoreEver MSL2024 tape library, and the customer wants to reuse their LTO-6 tape cartridges, LTO7 (Option D) is the latest tape drive technology that provides backward compatibility with LTO-6 tapes.

LTO7 drives can read and write to LTO-6 cartridges, making them the optimal choice for ensuring the customer's existing media can be utilized effectively while also providing the benefits of newer tape technology, such as higher capacity and faster data transfer rates.

NEW QUESTION # 283

You are adding a new host for an HPE 3PAR StoreServ proof-of-concept. In addition to the host name, What is the minimum information that is required to create a host profile?

- A. Host MAC
- B. Host Persona
- **C. Host WWN**
- D. Host set

Answer: C

Explanation:

Comprehensive Detailed Explanation with All HPE Storage Reference When adding a new host to an HPE 3PAR StoreServ system for a proof-of-concept, in addition to the host name, the minimum required information is the Host WWN (World Wide Name). The WWN is a unique identifier used in storage networks to address the host within the SAN. It is critical for ensuring the correct host is recognized by the storage system and is necessary for establishing the connection between the host and the storage volumes.
