When the time for action arrives, stop thinking and go in, try our PEGACPSA24V1 exam torrent, you will find our products will be a very good choice for you to pass your exam and get your certificate in a short time.

Pegasystems Certified Pega System Architect 24 Sample Questions (Q304-Q309):

NEW QUESTION # 304

Which Data Page scope ensures that a case always retrieves the latest version of sourced data?

- A. Node
- **B. Case**
- C. Requestor
- D. Thread

Answer: B

Explanation:

A Case-scoped Data Page ensures that each case maintains and updates its own version of sourced data. This is useful when case-specific information, such as approvals or customer details, needs to be refreshed per transaction. It prevents unintended data sharing between cases. This scope improves data isolation and accuracy.

NEW QUESTION # 305

Which two factors determine whether a stage can be skipped dynamically? (Choose Two)

- A. Case Priority Level
- **B. When Rule Evaluation**
- **C. Decision Table Logic**
- D. SLA Deadline Reached

Answer: B,C

Explanation:

A When Rule evaluates conditions in real-time, determining whether a stage should be skipped. A Decision Table allows complex logic to automate stage skipping based on case attributes. These methods optimize workflows by removing unnecessary steps. SLA deadlines and case priority do not control stage skipping.

NEW QUESTION # 306

Which routing method ensures work is distributed evenly across a team?

- A. SLA-Based Routing
- B. Supervisor Override
- C. Direct Assignment
- **D. Round-Robin Assignment**

Answer: D

Explanation:

Round-robin assignment distributes work evenly among available team members, preventing workload imbalances. This ensures that no single user is overwhelmed while others remain idle. It is commonly used in call centers, IT support, and helpdesk environments. Round-robin routing maintains fair task distribution across teams.

NEW QUESTION # 307

Which Pega feature helps capture business requirements and map them to user stories?

- A. Work Queue Optimization
- B. Case Reassignment
- **C. Direct Capture of Objectives (DCO)**
- D. SLA Goal Calculator

Answer: C

Explanation:

Direct Capture of Objectives (DCO) allows teams to document business requirements, user stories, and application goals directly in Pega. It ensures that business and development teams remain aligned throughout the project lifecycle. This reduces miscommunication and improves efficiency. SLA goals and work queues do not capture user stories.

NEW QUESTION # 308

Which two sources can a Data Page pull data from? (Choose Two)

- **A. REST API**
- B. Work Queue
- **C. Database Table**
- D. SLA Rule

Answer: A,C

Explanation:

A Data Page retrieves data from REST APIs (external web services) and database tables (structured storage). This ensures that real-time business data is integrated into Pega applications. REST APIs enable connectivity with third-party applications, while database tables store local application data.

NEW QUESTION # 309

.....

Our PEGACPSA24V1 test guide has become more and more popular in the world. Of course, if you decide to buy our PEGACPSA24V1 latest question, we can make sure that it will be very easy for you to pass your exam and get the certification in a short time, first, you just need 5-10 minutes can receive PEGACPSA24V1 Exam Torrent that you can learn and practice it.
