You won't worry anything with our services.

The Open Group ArchiMate 3 Part 1 Exam Sample Questions (Q78-Q83):

NEW QUESTION # 78

Consider the following symbol, which represents information about a transformation project at ArchiSurance involving systems and business processes:

Which of the following statements correctly expresses the meaning of the symbol?

- A. The Board of Directors has concerns about the project
- B. The Board of Directors has a business role in the project
- C. The transformed systems will store information of interest to the Board of Directors

- D. The Board of Directors will use the transformed systems

Answer: A

NEW QUESTION # 79

Consider the following diagram:

What element is used to represent the Chief Marketing Officer in this diagram?

- A. Role
- B. Stakeholder
- C. Business Actor
- D. Actor

Answer: C

Explanation:

Based on the ArchiMate 3 documents or objectives, a business actor represents a business entity that is capable of performing behavior. A business actor is a business entity as opposed to a technical entity; i.e., it belongs to the Business Layer. The notation for a business actor is a circle with a stick figure inside it. The Chief Marketing Officer in this diagram is a business actor that performs the behavior assigned to the Marketing Manager role.

; ArchiMate Example: Business Actor - Visual Paradigm Community Circle 2.

NEW QUESTION # 80

Which of the following is a Passive Structure Element?

- A. Data Object
- B. Event
- C. Application Component
- D. Actor

Answer: A

Explanation:

Based on the ArchiMate 3 documents or objectives, a data object is a passive structure element that represents a piece of data that can be manipulated by behavior elements such as application functions or services. A passive structure element is a structural element that cannot perform behavior. Active structure elements can perform behavior on passive structure elements.

References: ArchiMate 3.2 Specification, Chapter 4 Generic Metamodel, Section 4.1 Behavior and Structure Elements, Subsection 4.1.1 Active Structure Elements 1; ArchiMate 3.2 Specification, Chapter 10 Application Layer, Section 10.2 Passive Structure

Elements 1.

NEW QUESTION # 81

What is the best description of the diagram?

- A. The goal 'Reduce Expense Ratio from 13% to 11%' is similar to the three other goals.
- **B. The goal 'Reduce Expense Ratio from 13% to 11%' is decomposed into three other goals.**
- C. The goal 'Reduce Expense Ratio from 13% to 11%' will be achieved if at least one of the other three goals is achieved
- D. The goal 'Reduce Expense Ratio from 13% to 11%' must be achieved before any of the other three goals is achieved-

Answer: B

Explanation:

The diagram uses the ArchiMate notation for a goal element and an aggregation relationship. A goal element represents an end state that a stakeholder intends to achieve. An aggregation relationship indicates that a whole is composed of parts. In this case, the goal 'Reduce Expense Ratio from 13% to 11%' is composed of three sub-goals that contribute to its achievement.

NEW QUESTION # 82

Consider the diagram:

(A diagram showing three goals: Increase Premium by 12%, Reduce Usage of Consultants by 25%, and Increase Internal Labor Expense by no more than 4%, all connected to Reduce Expense Ratio from 15% to 10% using aggregation relationships.) What is the best description of the diagram?

- A. The goal "Reduce Expense Ratio from 15% to 10%" is similar to the three other goals.
- B. The goal "Reduce Expense Ratio from 15% to 10%" will be achieved if at least one of the other three goals is achieved.
- **C. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals.**
- D. The goal "Reduce Expense Ratio from 15% to 10%" must be achieved before any of the other three goals is achieved.

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

This diagram represents a goal decomposition model in ArchiMate, specifically illustrating how multiple lower-level goals contribute to a higher-level goal.

- * The top three goals ("Increase Premium," "Reduce Consultant Usage," and "Increase Internal Labor Expense") are connected to "Reduce Expense Ratio" using an aggregation relationship.

- * Aggregation in ArchiMate indicates that multiple elements together contribute to forming a larger whole.

- * This means "Reduce Expense Ratio from 15% to 10%" is composed of these three contributing goals.

Analysis of Answer Choices:

#A. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals. ##Correct Answer

- * The aggregation relationship used in the diagram indicates that the three top-level goals together support or combine to form the "Reduce Expense Ratio" goal.

- * ArchiMate 3.2 Specification, Section 6.4.1, states that Aggregation represents a "whole-part" relationship, meaning the main goal (Reduce Expense Ratio) is achieved by achieving the contributing goals.

#B. The goal "Reduce Expense Ratio from 15% to 10%" will be achieved if at least one of the other three goals is achieved. ##Incorrect

- * This would require an Influence or Contribution relationship rather than Aggregation.

- * Aggregation means all three goals contribute to the overall goal, not just one of them.

#C. The goal "Reduce Expense Ratio from 15% to 10%" must be achieved before any of the other three goals is achieved. ##Incorrect

- * This would imply a triggering or dependency relationship, which is not present in the diagram.

- * The diagram does not indicate a sequence of achievements.

#D. The goal "Reduce Expense Ratio from 15% to 10%" is similar to the three other goals. ##Incorrect

- * The relationship shown is not equivalence or similarity, but aggregation, meaning the three smaller goals form part of the main goal.

#A. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals.

References:

- * ArchiMate 3.2 Specification: Sections 6.4.1 (Aggregation) and 6.2.2 (Goal Decomposition).

- * Archi User Guide: Understanding goal decomposition and strategic planning.

NEW QUESTION # 83

.....

Are you an aspiring The Open Group professional looking to pass the ArchiMate 3 Part 1 Exam (OGA-031) exam? Look no further than our platform for real OGA-031 exam dumps.
