In addition, when you are in the real exam environment, you can learn to control your speed and quality in answering questions and form a good habit of doing exercise, so that you're going to be fine in the Salesforce Certified Slack Administrator exam.

Salesforce Certified Slack Administrator Sample Questions (Q19-Q24):

NEW QUESTION # 19

You're a Workspace Admin for your organization's Slack instance. A new member in your workspace posts a question about a specific project in a #general channel and tags all project members.

What should you ask the member to do?

(Select the best answer.)

- A. Post the question in a channel related to the project.

- B. Start a group direct message (DM) with project team members who may know the answer to the member's question.
- C. Start a direct message (DM) to the project team members individually to see if they know the answer.
- D. Delete the message, and direct the member to the help channel.

Answer: A

Explanation:

Slack recommends organizing discussions into appropriate channels for clarity and relevance:

"Questions or discussions about specific projects should happen in project-related channels to maintain topic focus and ensure all relevant stakeholders can view and contribute."

#general should be reserved for organization-wide announcements or broad discussions, not for project-specific questions. DMing individuals (A, B) bypasses team collaboration. Deleting the message (C) is unnecessarily punitive.

(Reference: Slack Administration Study Guide - Best Practices for Channel Organization)

-

NEW QUESTION # 20

You're a Slack admin creating a list of default prefixes. You want to provide employees with standard naming conventions to use when they create new channels.

After reviewing existing channels, you determine that there are three types of channels most often created: * Slack Connect channels for collaborating with partners.

* Channels for groups within a line of business.

* Channels to support collaboration on specific engagements.

What are the three best prefixes to add to your default list?

(Select the THREE best answers.)

- A. announce
- B. #help
- ~~C. #team-~~
- ~~D. #proj-~~
- E. #slack
- ~~F. #ext-~~

Answer: C,D,F

Explanation:

Slack best practices for channel naming recommend:

"#team- for department or functional groups, #proj- for project-based collaboration, and #ext- for Slack Connect (external) channels."

#announce (B) is more suitable for announcement-type channels, not team/project work. #help (C) is generally for support channels.

#slack (E) is not a standard naming prefix.

(Reference: Slack Administration Study Guide - Channel Naming Conventions Best Practices)

-

NEW QUESTION # 21

Your company is on the Slack Enterprise Grid plan. The marketing team is working on a new branding campaign and would like to add consultants to your org as Multi-Channel Guests.

What should the marketing team do to request access for these consultants?

(Select the best answer.)

- A. @mention their Workspace Admin in the appropriate #proj channel to request guest
- ~~B. Direct message (DM) an Org Owner requesting that their consultants be added as guests.~~
- C. invite consultants through the workspace drop-down menu, and route approvals to a dedicated channel for admin approval.
- D. Add the consultants as full members to provide the most flexibility in their ability to access necessary channels.

Answer: B

NEW QUESTION # 22

You're upgrading your organization to Slack Enterprise Grid. You want to be thoughtful about the channel and workspace strategy that will best facilitate collaboration across your company.

What should you do before finalizing your design?

- A. Develop a Champions Network of interested users to help share the design with others.
- **B. Survey a selection of end users to determine whether existing knowledge networks are already in place.**
- C. Review the technical requirements for your single sign-on (SSO) system to ensure it is compatible with Slack.
- D. Migrate existing workspaces into your Enterprise Grid org so that employees can familiarize themselves with its features as you plan the design.

Answer: B

NEW QUESTION # 23

You're a Slack admin creating a list of default prefixes. You want to provide employees with standard naming conventions to use when they create new channels.

After reviewing existing channels, you determine that there are three types of channels that are most often created:

- * Slack Connect channels for collaborating with partners.
- * Channels for groups within a line of business,
- * Channels to support collaboration on specific engagements

What are the three best prefixes to add to your default list?

(Select the THREE best answers.)

- **A. #ext**
- B. announce
- C. #help
- **D. #team-**
- E. #slack
- **F. #proj**

Answer: A,D,F

NEW QUESTION # 24

.....
