#### NEW QUESTION # 65

Which of the following describes shared attitudes, values, and goals?

- A. Culture
- B. Co-creation
- C. Management
- D. Leadership

Answer: A

Explanation:

Culture refers to the collective attitudes, values, beliefs, and goals shared by a group or organization. It shapes how people behave, make decisions, and interact. In PRINCE2 Agile, understanding and adapting organizational culture is critical for successful agile adoption and delivery.

Leadership (B) influences culture but is distinct, co-creation (C) is a collaborative approach, and management (D) relates to planning and control activities.

A positive, agile-friendly culture fosters openness, trust, and continuous improvement.

### NEW QUESTION # 66

Which of the following is a benefit of 'being and doing agile'?

- A. Following processes
- B. Focusing on completing tasks
- C. Using agile techniques
- **D. Increasing user satisfaction**

**Answer: D**

Explanation:

A key benefit of being and doing agile is increasing user satisfaction by delivering value early and continuously, adapting to feedback, and ensuring the product meets real user needs. Agile approaches emphasize collaboration with customers and iterative delivery, which enhances satisfaction compared to traditional, rigid methods.

While following processes (A) and using agile techniques (B) are means to an end, they do not directly guarantee benefits. Focusing solely on tasks (D) risks losing sight of value delivery.

User satisfaction is a central measure of agile success and reflects the effective application of agile principles.

Reference: PRINCE2 Agile Foundation Version 2, Section 2.3 "Benefits of Agile," and PRINCE2 Agile Study Guide, Chapter 2.
