Salesforce is one of the leading customer relationship management (CRM) platforms, known for its excellent features that offer seamless business operations. Salesforce Process-Automation is one of the key features that allow businesses to automate their sales processes, making it easier to manage their sales team. The Salesforce Process Automation Accredited Professional Exam is designed to test the knowledge of those who work with Salesforce to automate business processes.

Salesforce Process Automation Accredited Professional Sample Questions (Q147-Q152):

NEW QUESTION # 147

Which tools are included with the Lightning Flow product?

- A. Process Builder and Flow Builder

- **B. Process Builder, Flow Builder, and Approvals**
- C. Lightning Experience and Flow Builder
- D. Lightning App Builder and Process Builder

Answer: B

Explanation:

Lightning Flow encompasses several tools designed to automate business processes in Salesforce, including Process Builder, Flow Builder, and Approvals. Process Builder is ideal for creating automated processes based on record changes. Flow Builder provides a more comprehensive platform for building complex workflows with conditional logic and user interactions. Approvals are used to automate the approval process, allowing for record approval requests and tracking. Together, these tools provide a robust set of options for automating business processes within Salesforce. Reference: Salesforce Help - Lightning Flow
