

Professional New NCP-CN Exam Answers to Obtain Nutanix Certification

DOWNLOAD the newest PDFBraindumps NCP-CN PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1waeLt5a4K_ifLhcd4DGFOyepTbNfbp

Without doubt, our Nutanix NCP-CN practice dumps keep up with the latest information and contain the most valued key points that will show up in the real Nutanix NCP-CN Exam. Meanwhile, we can give you accurate and instant suggestion for our customer services know every detail of our Nutanix NCP-CN exam questions.

Moreover, you do not need an active internet connection to utilize PDFBraindumps Nutanix NCP-CN practice exam software. It works without the internet after software installation on Windows computers. The PDFBraindumps web-based Nutanix NCP-CN Practice Test requires an active internet and it is compatible with all operating systems. You can conveniently test your performance by checking your score each time you use our Nutanix NCP-CN practice exam software.

NCP-CN Exam Training & NCP-CN Real Question

You are lucky to be here with our NCP-CN training materials for we are the exact vendor who devote ourselves to produce the best NCP-CN exam questions and helping our customers successfully get their dreaming certification of NCP-CN Real Exam. We own the first-class team of professional experts and customers' servers concentrating on the improvement of our NCP-CN study guide. So your success is guaranteed.

Nutanix NCP-CN Exam Syllabus Topics:

Topic	Details

Topic 1	• Prepare the Environment for an NKP Deployment: This section of the exam measures the skills of infrastructure engineers and cloud administrators and covers the initial setup tasks needed for NKP deployment. Candidates must demonstrate the ability to seed a private container registry, create a bootstrap Kubernetes cluster, and determine license tiers suitable for clusters. They also need to prepare a bastion host for secure access, build machine images or prepare nodes for deployment, and gather all necessary information to build a cluster on the target cloud or on-premises provider.
Topic 2	• Manage Building an NKP Cluster: This section evaluates the skills of Kubernetes administrators and platform engineers in customizing and deploying NKP clusters. Candidates must show proficiency in tailoring cluster configurations to meet specific requirements and deploying Kommander, the management platform, while applying the appropriate licenses to enable cluster features and management capabilities.
Topic 3	• Perform Day 2 Operations: This part assesses the expertise of site reliability engineers and cluster operators in ongoing cluster management tasks after deployment. It includes configuring authentication and authorization mechanisms, setting up logging systems, and implementing cluster backup and recovery procedures. Candidates also need to demonstrate skills in monitoring cluster performance and health, configuring autoscaling to handle workload changes, and performing lifecycle management functions such as upgrades and maintenance.
Topic 4	• Conduct NKP Fleet Management: This section tests the abilities of platform administrators and cloud operations engineers in managing multiple clusters as a fleet. It focuses on configuring workspaces to organize clusters, deploying workload clusters within these workspaces, and attaching or detaching clusters as needed. Additionally, candidates must be able to configure projects for workload segmentation and manage platform applications that support the overall NKP environment.

Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q69-Q74):

NEW QUESTION # 69

Which procedure should a Platform Engineer follow for setting up user authentication into an NKP cluster?

- A. Enable Gatekeeper and create a connector to the user base's identity provider.
- B. Disable native NKP authentication, enable Traefik, and create a connector to the user base's identity provider.
- **C. Create a Dex connector to the user base's identity provider.**
- D. Create a MetalLB connector to the user base's identity provider.

Answer: C

NEW QUESTION # 70

By default, a full cluster backup is occurring on a daily basis on an NKP-managed cluster. However, the Victory Finance team has requested that their applications be backed up four times a day. The user group has been assigned to the victory-finance-apps NKP workspace, and the applications have been deployed to the Kubernetes namespace victory-finance.

What is the procedure for scheduling the team's application backups?

- A. Access the NKP UISwitch to the victory-finance NKP namespaceClick on the Applications menu panel and select VeleroEdit the Velero application configuration at the cluster level for the specific NKP managed cluster (not all clusters in that NKP workspace)Set the backup frequency to four times daily
- B. Install the Velero CLIUse the Velero CLI to create a backup schedule that includes the following parameters:- Backup name- NKP workspace to backup- Backup frequency (every six hours)- Managed NKP cluster's kubeconfig
- **C. Install the Velero CLIUse the Velero CLI to create a backup schedule that includes the following parameters:- Backup name- Kubernetes namespace to backup- Backup frequency (every six hours)- Managed NKP cluster's kubeconfig**
- D. Access the NKP UISwitch to the victory-finance-apps NKP workspaceClick on the Applications menu panel and select VeleroEdit the Velero application configuration at the cluster level for the specific NKP managed cluster (not all clusters in that NKP workspace)Set the backup frequency to four times daily

Answer: C

NEW QUESTION # 71

After loading the NKP bundles to a private registry in an air-gapped environment, a Platform Engineer now needs the Konvoy bootstrap image to create the bootstrap cluster. The Konvoy image has not been loaded into the registry. Which is the most viable command to load the Konvoy bootstrap image on the bastion host?

- A. `nkp push bundle --bundle konvoy-bootstrap-image-<version>.tar --to-registry=<REGISTRY_URL>`
- B. `nkp load image -f konvoy-bootstrap-image-<version>.tar --to-registry=<REGISTRY_URL>`
- C. `docker load -i konvoy-bootstrap-image-<version>.tar`
- D. `docker image tag konvoy-bootstrap-image-<version>.tar version docker.io/konvoy-bootstrap version`

Answer: C

NEW QUESTION # 72

Refer to the exhibit.

Name	Type	Provider	Version	Status	Costs (Last 1 Day)	Costs (Last 7 Days)	Labels
arca	NKP	Nutanix	v1.29.9	Ready	N/A	N/A	N/A
demo	NKP	Nutanix	v1.29.9	Active	N/A	N/A	N/A
production	NKP	Nutanix	v1.29.9	Active	N/A	N/A	N/A

The cluster arca will host a new application that needs to add more workers. The company cannot get more NKP licenses, so it has decided to delete the demo cluster and add the required workers to the arca cluster. How should the engineer delete the demo cluster from this UI?

- A. Login with SSH to the kommander cluster and execute `kubectl delete cluster -c demo`
- B. Press the ("demo" cluster line) three-dot menu at the right and select Download kubeconfig, then use that file to execute `kubectl delete cluster -c demo --kubeconfig=demo.conf`
- C. Press the ("demo" cluster line) three-dot menu at the right and select Detach. Then ask the cluster owner to delete the cluster.
- D. Press the ("demo" cluster line) three-dot menu at the right and select Delete.

Answer: D

NEW QUESTION # 73

A development team decided to employ an efficient monitoring system with Grafana-logging, which was successfully implemented as can be seen in the following output:

AppDeployment "kommander-default-workspace/grafana-logging" created in namespace "kommander-default-workspace".

Which command did the team execute to complete this task?

- A. `export WORKSPACE_NAMESPACE=kommander-default-workspace; nkp create package-bundle grafana-logging`
- B. `kubectl get helmreleases grafana-logging -n kommander-default-workspace -w`
- C. `nkp create appdeployment grafana-logging --app grafana-logging-6.57.4 --workspace default-workspace`
- D. `kubectl get appdeployment -n kommander-default-workspace`

Answer: C

NEW QUESTION # 74

.....

Our NCP-CN study materials are written by experienced experts in the industry, so we can guarantee its quality and efficiency. The content of our NCP-CN learning guide is consistent with the proposition law all the time. We can't say it's the best reference, but we're sure it won't disappoint you. This can be borne out by the large number of buyers on our website every day. A wise man can often make the most favorable choice, I believe you are one of them. If you are not at ease before buying our NCP-CN Actual Exam, we have prepared a free trial for you. Just click on the mouse to have a look, giving you a chance to try. Perhaps this choice will have some impact on your life.
