Latest JN0-481 Exam Cost & Online JN0-481 Version

Our Juniper JN0-481 exam dumps give help to give you an idea about the actual Data Center, Specialist (JNCIS-DC) (JN0-481) exam. You can attempt multiple Data Center, Specialist (JNCIS-DC) (JN0-481) exam questions on the software to improve your performance. ActualTorrent has many Data Center, Specialist (JNCIS-DC) (JN0-481) practice questions that reflect the pattern of the real Data Center, Specialist (JNCIS-DC) (JN0-481) exam. ActualTorrent allows you to create a Data Center, Specialist (JNCIS-DC) (JN0-481) exam dumps according to your preparation. It is easy to create the Juniper JN0-481 practice questions by

following just a few simple steps. Our JN0-481 exam dumps are customizable based on the time and type of questions.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q16-Q21):

NEW QUESTION # 16

In Juniper Apstra, what are three valid deploy modes when assigning systems to your blueprint? (Choose three.)

- A. Drain
- B. Ready
- C. Deploy
- D. Standby
- E. OOS-Ready

Answer: A,B,C

NEW QUESTION # 17

How does Intent-Based Analytics align with the principles of intent-based networking in terms of data exploration and analysis?

- A. By predicting future changes in the network environment
- B. By facilitating dynamic queries for intent-based data exploration
- C. By providing real-time weather updates for the data center location
- D. By managing employee property allocations in the data center

Answer: B

NEW QUESTION # 18

What is the function of the Revert button in the Juniper Apstra UI?

- A. The Revert button will rollback to the previous configuration of a specified device.
- B. The Revert button performs a rollback 0 on Juniper devices in the fabric.
- C. The Revert button will undo the last change made to the configuration.
- D. The Revert button deletes any uncommitted changes within Apstra.

Answer: D

Explanation:

The Revert button is located on the Uncommitted tab of the blueprint page. The Uncommitted tab shows the changes that have been staged but not yet committed to the network. The Revert button allows you to discard any uncommitted changes and revert to the last committed state of the blueprint. This is useful if you want to cancel the changes that you have made or if you want to start over with a fresh slate.

NEW QUESTION # 19

Which two statements are correct about repairing a Juniper Apstra cabling map before deploying your blueprint? (Choose two.)

- A. Apstra can use LLDP data from the spine-to-leaf fabric devices to update the connections in the cabling map.
- B. Apstra can use LLDP data from the leaf devices to update the leaf-to-generic connections in the cabling map.
- C. You must manually change the cabling map to update leaf-to-generic links.
- D. You must manually change the cabling map to update spine-to-leaf fabric links.

Answer: A,B

Explanation:

The cabling map is a graphical representation of the physical connections between the devices in the data center fabric. It shows the status of the cables, interfaces, and BGP sessions for each device. You can use the cabling map to verify and repair the cabling before deploying your blueprint. Based on the web search results, we can infer the following statements:

Apstra can use LLDP data from the spine-to-leaf fabric devices to update the connections in the cabling map. This is true because Apstra can collect LLDP data from the devices using the Generic Graph Collector processor and use it to update the cabling map

automatically.

LLDP is a protocol that allows devices to exchange information about their identity, capabilities, and neighbors. Apstra can use LLDP data from the leaf devices to update the leaf-to-generic connections in the cabling map. This is true because Apstra can also collect LLDP data from the leaf devices and use it to update the connections to the generic devices, such as routers, firewalls, or servers. Generic devices are devices that are not managed by Apstra but are part of the data center fabric.

You must manually change the cabling map to update spine-to-leaf fabric links. This is false because Apstra can use LLDP data to update the spine-to-leaf fabric links automatically, as explained above. However, you can also manually change the cabling map to override the Apstra-generated cabling, if needed.

You must manually change the cabling map to update leaf-to-generic links. This is false because Apstra can use LLDP data to update the leaf-to-generic links automatically, as explained above.

However, you can also manually change the cabling map to override the Apstra-generated cabling, if needed.

NEW QUESTION # 20

How does Apstra use Fabric Device Management to ensure consistency across the network?

- A. By randomly assigning system IDs to devices
- B. By adjusting the color-coding of cables in the data center
- C. By assigning different agents to devices based on their location
- D. By enforcing uniform configurations on all network devices

Answer: D

NEW QUESTION # 21

.....

The experts of our company are checking whether our JN0-481 test quiz is updated or not every day. We can guarantee that our JN0-481 exam torrent will keep pace with the digitized world by the updating system. We will try our best to help our customers get the latest information about study materials. If you are willing to buy our JN0-481 Exam Torrent, there is no doubt that you can have the right to enjoy the updating system. Once our JN0-481 exam dumps are updated, you will receive the newest information of our JN0-481 test quiz in time. So quickly buy our JN0-481 exam prep now!

Latest JN0-481 Exam Cost: <https://www.actualtorrent.com/JN0-481-questions-answers.html>

As approved JN0-481 exam guide from professional experts their quality is unquestionable, Juniper Reliable JN0-481 Study Notes Many candidates won't have confidence to get it, No matter when you have questions or problem about our JN0-481 test questions and dumps, we will be pleased to reply and solve with you in three hours, Juniper Reliable JN0-481 Study Notes The reasons are chiefly as follows.

Because I like mine on the bottom instead of the JN0-481 top where Gnome puts it by default, that's where I dragged it, If you choose the test Juniper certification and then buy our JN0-481 prep material you will get the panacea to both get the useful certificate and spend little time.

Free PDF Quiz Juniper - High Pass-Rate Reliable JN0-481 Study Notes

As approved JN0-481 exam guide from professional experts their quality is unquestionable, Many candidates won't have confidence to get it, No matter when you have questions or problem about our JN0-481 test questions and dumps, we will be pleased to reply and solve with you in three hours.

The reasons are chiefly as follows, Many people pass exam and get certifications under the help of our JN0-481 dumps pdf.
