With PEGACPSA24V1 study tool, you no longer need to look at a drowsy textbook. You do not need to study day and night. With PEGACPSA24V1 learning dumps, you only need to spend 20-30 hours on studying, and then you can easily pass the exam. At the same time, the language in PEGACPSA24V1 test question is very simple and easy to understand. Even if you are a newcomer who has just entered the industry, you can learn all the knowledge points without any obstacles. We believe that

## Pegasystems Certified Pega System Architect 24 Sample Questions (Q221-Q226):

### NEW QUESTION # 221

Which feature allows PegaUnit to generate test cases automatically based on rule execution?

- A. Work Queue Optimization
- B. Decision Table Execution
- C. Auto-Generated Test Case
- D. SLA-Based Testing

**Answer: C**

Explanation:

The Auto-Generated Test Case feature creates test cases automatically when a rule is executed. This simplifies test creation for Decision Tables, Data Transforms, and automated flows. It improves test coverage with minimal manual effort. This feature enhances automation in Pega's testing framework.

### NEW QUESTION # 222

Which action occurs when a child case is withdrawn?

- A. All related cases are automatically closed
- B. The parent case remains open unless specified otherwise
- C. The case is reassigned to a different queue
- D. The parent case is also withdrawn

**Answer: B**

Explanation:

When a child case is withdrawn, the parent case remains open unless configured otherwise. This allows flexibility in managing multiple case dependencies. The parent case may require manual action to close or continue processing. This prevents premature closure of ongoing workflows.

### NEW QUESTION # 223

Which two factors can be used to configure dynamic routing? (Choose Two)

- A. Static role assignment
- B. User skills and availability
- C. Case priority level
- D. Work queue threshold

**Answer: B,C**

Explanation:

Skill-based routing ensures work is assigned to qualified users based on required expertise. Priority-based routing escalates urgent tasks to ensure high-priority cases are handled first. These methods improve efficiency in business-critical workflows. Static role assignment lacks flexibility, while queue thresholds manage workload limits.

### NEW QUESTION # 224

Which property mode allows an embedded list of objects within a data object?

- A. Value List
- B. Single Page
- C. Reference Property
- D. Page List

## Answer: D

Explanation:

A Page List stores multiple instances of a related data object inside a case. For example, a purchase order may contain a list of items, each with its details. This structure enables complex data modeling and improves process automation. It supports One-to-Many relationships in case processing.

## NEW QUESTION # 225

Which feature in Pega ensures that data updates from an external system are automatically reflected in the UI?

- A. Data Page Refresh Strategy
- B. Work Queue Processing
- C. SLA Rule
- D. Declare Expression

## Answer: A

Explanation:

A Data Page Refresh Strategy defines when and how frequently a Data Page retrieves new data from an external system. It ensures users see the most up-to-date information without manual intervention. This improves data accuracy in dashboards, reports, and case details. Proper refresh settings balance performance and real-time accuracy.

## NEW QUESTION # 226

.....

That's why Pass4Leader offers actual Certified Pega System Architect 24 (PEGACPSA24V1) exam questions to help candidates pass the exam and save their resources.
