

# Providing You Reliable Reliable SCP-NPM Exam Braindumps with 100% Passing Guarantee

P.S. Free 2025 SolarWinds SCP-NPM dumps are available on Google Drive shared by DumpsFree:  
<https://drive.google.com/open?id=17drBVQTh3iPKTuNd9HOoCCCF36QwgdRU>

How to improve your IT ability and increase professional IT knowledge of SCP-NPM real exam in a short time? Obtaining valid training materials will accelerate the way of passing SCP-NPM actual test in your first attempt. It will just need to take one or two days to practice SolarWinds SCP-NPM Test Questions and remember answers. You will free access to our test engine for review after payment.

DumpsFree PDF questions can be printed. And this document of SCP-NPM questions is also usable on smartphones, laptops and tablets. These features of the SolarWinds Network Performance Monitor (NPM) Exam SCP-NPM PDF format enable you to prepare for the test anywhere, anytime. By using the SCP-NPM desktop practice exam software, you can sit in real exam like scenario. This SolarWinds SCP-NPM Practice Exam simulates the complete environment of the actual test so you can overcome your fear about appearing in the SolarWinds Network Performance Monitor (NPM) Exam SCP-NPM exam. DumpsFree has designed this software for your Windows laptops and computers.

## 100% SCP-NPM Exam Coverage, SCP-NPM Dumps

In order to meet the different demands of the different customers, these experts from our company have designed three different versions of the SCP-NPM study materials. All customers have the right to choose the most suitable version according to their need after buying our study materials. The PDF version of the SCP-NPM Study Materials has many special functions, including download the demo for free, support the printable format and so on.

To become SCP-NPM certified, candidates must demonstrate a deep understanding of NPM and its capabilities. They must be able to install and configure the software, set up alerts and notifications, and use the tool to monitor network performance in real-time. Additionally, SCP-NPM certified professionals must be skilled in troubleshooting network issues and resolving them quickly and efficiently.

SolarWinds SCP-NPM (SolarWinds Network Performance Monitor (NPM)) Certification Exam is designed for professionals who want to demonstrate their expertise in the field of network performance monitoring. SolarWinds Network Performance Monitor (NPM) Exam certification exam validates the skills and knowledge required to effectively use SolarWinds Network Performance Monitor (NPM) to monitor and manage network performance.

## SolarWinds Network Performance Monitor (NPM) Exam Sample Questions (Q47-Q52):

#### NEW QUESTION # 47

After you create an NPM report with custom charts for availability and response time metrics, you schedule the report and add an action to export it. But you cannot export it as an Excel file. What is the likely reason?

- A. The custom charts only support a PDF export
- B. You do not have the permissions to export the report
- C. You must link the report with a URL in an email action to run live in the web console
- D. Excel file formats are not supported

#### Answer: A

Explanation:

According to the SolarWinds NPM Administrator Guide, custom charts are created using the Orion Web Console and are not compatible with Excel file formats. Therefore, the only option to export a report with custom charts is to use a PDF format. Other report formats, such as HTML, CSV, or TXT, are supported for reports without custom charts. References: SolarWinds NPM Administrator Guide, page 171; Export reports to Excel - Forum, reply by ElisabethZakes; How to Export NPM Report Writer Data to Excel (xls or csv)??? - Forum, reply by borgan.

#### NEW QUESTION # 48

You're troubleshooting a complex network issue and need to build a comparison of several metrics across multiple devices and SolarWinds products to identify the problem. What feature can you use?

- A. Network Insight
- B. NetPath
- C. AppStack
- D. PerfStack

#### Answer: D

Explanation:

PerfStack is a feature of the Orion Platform that allows you to compare and correlate performance data from multiple SolarWinds products and entities in a single view<sup>1</sup>. You can drag and drop metrics from different sources, such as NPM, SAM, NCM, NTA, and more, and create custom dashboards that help you troubleshoot complex network issues<sup>2</sup>. PerfStack can also show historical data and baselines for comparison<sup>3</sup>. References: 1: Network Performance Monitor Administrator Guide - Use PerfStack to troubleshoot issues 2: Network Performance Monitor Getting Started Guide - Troubleshoot your network with PerfStack 3: SolarWinds Certified Professional Program - Diagnostics and Troubleshooting Exam Study Guide - Use PerfStack to troubleshoot issues

#### NEW QUESTION # 49

How many agents does NPM require for Quality of Experience, NetPath, and system monitoring on the same Windows server?

- A. 0
- B. 1
- C. 2
- D. 3

#### Answer: A

Explanation:

NPM requires only one agent for Quality of Experience, NetPath, and system monitoring on the same Windows server. The agent is a software component that collects data from the server and sends it to the Orion server<sup>1</sup>. The agent can perform multiple tasks, such as packet analysis, network path analysis, and system health monitoring, depending on the configuration and the license<sup>2</sup>. You can install the agent on the server either manually or remotely from the Orion Web Console<sup>3</sup>. References: 1: Network Performance Monitor Administrator Guide - Agents 2: Network Performance Monitor Getting Started Guide - Monitor with agents 3: Network Performance Monitor Installation Guide - Install agents

#### NEW QUESTION # 50

You want to create a custom poller for a device. When you select the OID you get an "OID not supported" error. What does this

mean?

- A. Your firewall is blocking SNMP requests
- **B. The SNMP agent on the device does not report on this OID**
- C. The SNMP string that you used is incorrect
- D. This OID requires the read/write community string

**Answer: B**

Explanation:

An OID (Object Identifier) is a unique identifier for a specific variable in a MIB (Management Information Base) that can be polled or monitored by SNMP (Simple Network Management Protocol). However, not all OIDs are supported by all devices or SNMP agents, which are software components that collect and report the MIB data. If you select an OID that is not supported by the device or the SNMP agent, you will get an "OID not supported" error when you try to create a custom poller for that device in NPM (Network Performance Monitor). This means that the device or the SNMP agent does not have the information for that OID or does not respond to the SNMP request for that OID12.

To resolve this issue, you can try the following steps34:

Verify that the device supports the OID that you want to monitor. You can use the MIB Browser or the MIB Walk tool to browse the MIB tree of the device and find the OID. You can also check the device vendor's documentation or website for the supported OIDs and MIBs.

Verify that the SNMP agent on the device is configured properly and has the latest version. You may need to update the SNMP agent or enable some features or extensions to support the OID. You can also check the SNMP agent's logs or status for any errors or warnings.

Verify that the SNMP credentials and settings are correct and match the device's configuration. You may need to use a different SNMP version, community string, port, or timeout value to communicate with the device. You can also test the SNMP connectivity using the SNMP Test tool or the Test button in the UnDP (Universal Device Poller) application.

Verify that there are no network issues or firewalls that are blocking the SNMP traffic between the NPM server and the device.

You may need to allow the SNMP protocol and port on the firewall or router, or use a different network path or interface to reach the device. You can also use the Ping or Traceroute tools to check the network connectivity and latency.

## NEW QUESTION # 51

What can you use to retrieve a single value in SNMP? (Choose all that apply.)

- A. GET VALUE
- **B. GET NEXT**
- C. GET TABLE
- **D. GET**

**Answer: B,D**

Explanation:

SNMP (Simple Network Management Protocol) is a protocol that allows network managers to monitor and control network devices using a set of standardized messages and data structures. SNMP uses a client-server model, where the network manager (client) sends requests to the network device (server) and receives responses. The network device has an SNMP agent that collects and reports the data using a MIB (Management Information Base), which is a hierarchical database of variables that describe the device's status and configuration. Each variable in the MIB has a unique identifier called an OID (Object Identifier), which is a dot-separated sequence of numbers that follows a tree structure12.

To retrieve a single value in SNMP, you can use two types of requests: GET and GET NEXT. A GET request asks for the value of a specific OID, and the SNMP agent responds with the value if it exists, or an error if it does not. A GET NEXT request asks for the value of the next OID in the MIB tree, and the SNMP agent responds with the value and the OID of the next variable, or an error if there is no next variable. A GET NEXT request can be useful for discovering the OIDs and values of a device, or for iterating over a table of values34.

A GET VALUE request is not a valid SNMP request, and a GET TABLE request is not a single request, but a series of GET NEXT requests that retrieve all the values in a table . Reference: 1: SNMP Basics, 2: SNMP Tutorial Part 1 - Understanding MIBs and OIDs, 3: SNMP Tutorial Part 2 - SNMP Get, GetNext, GetBulk, 4: SNMP Commands, : SNMP Table Operations, : SNMP Table Retrieval

## NEW QUESTION # 52

.....

Our SCP-NPM training braindumps are famous for its wonderful advantages. The content is carefully designed for the SCP-NPM exam, rich question bank and answer to enable you to master all the test knowledge in a short period of time. Our SCP-NPM Exam Questions have helped a large number of candidates pass the SCP-NPM exam yet. Hope you can join us, and we work together to create a miracle.
